The Truth About PROHIBITION and MURDER

MURDER is being committed in prohibition Kansas with far greater frequency than in Nebraska.

Official Prison Record: KANSAS-- Sentenced for Murder in 2 years 85 NEBRASKA-- Sentenced for Murder in 2 years 29

Eighty-five Kansas murderers convicted and sentenced in the short space of two years ending June 30, 1916, as against twenty-nine in Nebraska in the same period! The appalling murder record of Kansas carries a lesson of terrible import to the citizens of Nebraska.

(Excerpts from article in "The Topeka Daily State Journal" of August 29, 1916.)

"Of the 166 criminal cases docketed for the September term of court, 106 are for violations of the prohibitory law. As a rule, about one-tenth of the cases brought charging violations of the prohibitory law are tried. They cost the county about \$50 each."

"One noticeable thing about the criminal docket for the September term is that forty-six of the JOINT cases are against women."

If you are opposed to the Alley Joint evil and the increase of crime, vote No on the prohibition amendment.
