MOOSE LEADER IS FOR WILSON

Judge A. G. Wray, of York, One of the Moose Leaders in Nebraska, Favors President Wilson and Tells Why.

Judge Arthur G. Wray, of York, Neb., one of the original signers of the call for a progressive convention four years ago, and a member of the resolutions committee of that convention, favors the re-election of Woodrow Wilson to the presidency in preference to Mr. Hughes.

Judge Wray withheld his verdict until he had heard both Wilson and Hughes speak in Nebraska. After hearing Mr. Hughes at York Saturday, he decided in favor of the president.

Judge Wray was county judge of York county for seven years. He is one of the most active and influential progressives in the state. His sincerity in politics is recognized by all of his associates.

The statement issued by Judge Wray yesterday is in the nature of a judicial decision. The verdict in favor of President Wilson is returned in thirteen counts.

Judge Wray's statement follows: After hearing both President Wilson and Mr. Hughes in Nebraska, and after conscientious consideration, I have concluded, as a progressive, to favor the re-election of President Wilson and the election of John M. Parker of Louisiana, the progressive candidate for vice president.

Progressive Platform Fulfilled. Under the president's leadership many of the planks of the progressive national platform of 1912 have been crystallized into law.

His foreign policy, in one of the most trying times in our national life, has kept the country at peace with the world. He has achieved a notable victory, without war and bloodshed, and definite steps toward social and industrial justice in this country have been taken during his administration.

The considerations which have led to my conclusion may be summarized as follows:

First—The appointment of Justice Brandeis, George Rublee, and Justice Clarke appeal strongly to all forward looking citizens.

Second—A new system of federal taxation has been devised and the declaration in the progressive national platform of 1912 for an income and inheritance tax is now the law of the land.

Tariff Revised Downward.

Third—The tariff has been revised downward as promised by the repub-

licans in 1908 and by the democrats in 1912. Steps along lines indicated in the progressive national platform of 1912 have been taken to eliminate the tariff from politics through a non-partisan tariff commission.

Fourth—The new federal reserve act is a credit to the legislative program of any nation, and popular control of the finances of the country has been secured and retained.

Fifth—The new federal trade commission is in line with the principles outlined in the progressive national platform of 1912, and business men today enjoy the greatest prosperity in the history of the country.

Farmers Prosper.

Sixth—Farmers have prospered under Woodrow Wilson's administration. The right of farmers to organize has been established and the new rural credits law will be of great service to our agricultural population.

Seventh—Labor also has been recognized. The Clayton act takes account of the human element in industry and makes clear the fact that labor is not a commodity to be bought and sold in the market place. Labor organizations have been withheld from the provisions of the Sherman act, and injunction relief granted. The eight-hour law for railway employees and the eight-hour legislation for the women of the District of Columbia are important steps toward the desired reform of an eight-hour day for labor, and are directly in line with the progressive national platform of 1912.

Steps for Social Justice. The child labor law, employers' bureau, and seaman's act all indicate a willingness to take definite steps toward social and industrial justice and should have the support of all progressive citizens.

Eighth—Again, the shipping bill, Alaskan railway, physical valuation of the railroads are highly pleasing to progressives. They indicate a decision to free the transportation of the country and make experiments looking toward government ownership.

Ninth—As to equal suffrage, the president's position is satisfactory to Dr. Anna Shaw, Carrie Chapman Catt, Jane Adams and Ella Flagg Young, who are supporting his re-election. He made a special trip to New Jersey to vote for the suffrage amendment. His declaration before the Atlantic convention enlists him in behalf of this great reform.

Force Not Used in Mexico.

Tenth—The Mexican situation cannot be divorced from the whole South American problem. Our relation to the republics of the western hemisphere is now of vital concern. Any move toward forcible intervention in Mexico would undoubtedly complicate the whole situation and create fear and distrust where peace and friendly relations are of supreme importance. The downtrodden masses of Mexico, due in many instances to American greed, need the help and assistance of the people of the United States in this crisis in their affairs, and the doctrine of force in these new relations sister republics should give way to arbitration and co-operation.

Prevented Militarism. Eleventh—President Wilson makes a strong appeal on the issue of peace and war. True, large expenditures for the army and navy have been made, and the army was ordered to the border, but by so doing he has in a measure, at least, backfired against the spread of the war issues in this country, and has prevented the program of the militarist for complete preparedness and universal military service from being carried out.

Twelfth—He has won the greatest diplomatic victory of the age and has established his position without war and bloodshed. He has demonstrated that he may be safely trusted with the final settlement of the issue.

Preparing for Future.

Thirteenth—He is making preparations for the long future, and is formulating a program looking to international co-operation and a league of nations. The new world political organization means that no nation may hereafter wilfully disturb the peace of the world without first submitting

its grievances to the deliberate judgment of civilized men.

To this splendid record of peace, prosperity, progress and new world relations, I, as a progressive, subscribe and favor the re-election of the great president who has made it possible.

ARTHUR G. WRAY.

MAJOR A. HALL.

George P. Meisinger of the vicinity of Cedar Creek was visiting relatives and friends and attending to some important business matters in this city today.

George A. Kaffenberger was among those going to Omaha this morning to spend a few hours looking after some matters on the live stock market.

Albert Wheeler, manager of the Farmers' elevator at Murray, was among those going to Omaha this morning to spend a few hours with friends in that city.

Peter Meisinger and wife of the vicinity of Cedar Creek, were here Saturday for a short time visiting with friends and looking after some trading with the merchants.

Catarhal Deafness Cannot Be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarhal deafness, and that is by a constitutional remedy. Catarhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation is caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Medicine acts thru the blood on the mucous surfaces of the system. We will give One Hundred Dollars for any case of Catarhal Deafness that cannot be cured by Hall's Catarrh Medicine. Circulars free. All Druggists, 75c. F. J. CHENEY & CO., Toledo, O.

MUSIC BY HOLLY ORCHESTRA

RESIDENTS OF HIGH SCHOOL HILL ANNOYED BY ROWDIES

The residents in the vicinity of the high school grounds have complained a great deal of late of the annoyance of persons who congregate there at night and indulge in concerts that are not only lacking in harmony from a musical standpoint but the songs are not always as select as they might be and the neighbors are sometimes shocked at some of the outbursts. It would be a good thing if the parties who are in the habit of gathering at the school grounds would lay off of the musical stunts as

it is likely to result in their arrest as the police have been notified of the matter and will be on the lookout hereafter for the nightly concerts.

ISSUES MARRIAGE LICENSE.

County Judge Allen J. Beeson issued a marriage license this morning to Mr. Hall A. Pollard and Miss Violet St. John, both of Nehawka. The young people are among the most popular residents in that section of the county and belong to two of the most prominent families in the county. Mr. Pollard is a son of Malcolm H. Pollard, while Miss St. John is a daughter of Mr. and Mrs. C. D. St. John. The young people will be married Wednesday at Nehawka.

What Prohibition Has Done!

IN SEATTLE, WASHINGTON, UNDER PROHIBITION:

"There are no desirable buildings vacant anywhere in the business section of the city."

IN NORTH DAKOTA, UNDER PROHIBITION:

"Drunkness, profanity and obscene language are no more heard in public places. Poverty is well nigh banished."

GOVERNOR TOM C. RYE, OF TENNESSEE, SAYS:

"Drunkness upon highways, streets, railroads, and other places with accompanying profanity and obscenity has practically disappeared."

GOVERNOR LOCKE CRAIG, OF NORTH CAROLINA, SAYS:

"The benefits accruing to the state of North Carolina because of prohibition have been very great and are continually increasing. Since prohibition was enacted in 1908 twenty-one more children out of every one hundred of school age have enrolled and twenty-one more children out of every one hundred of school age have actually been at school each day. The school fund of the state has increased more than 85 per cent.

"The capital stock of state chartered banks has increased about fifty per cent. The deposits in the same banks have increased 100 per cent. The stock building and loan association has increased in value more than 250 per cent."
