Catarrhal Deafness Cannot Be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Medicine acts thru the blood on the mucous surfaces of the system. We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Medicine. Circulars free. All Druggists, 75c. F. J. CHENEY & CO., Toledo, O.

TWO MORE CASS COUNTY FARMERS TOP OMAHA MARKET

Two of the progressive farmers of Cass county have topped the market at South Omaha the past week for the price received for their hogs and these two gentlemen were Louie and Philip Born, who had a carload of hogs on the market one day last week. Both the Messrs Born are practical and energetic farmers and have had years of experience in this line of work, that has resulted in their having the greatest success in their farm work. Both gentlemen have splendidly stocked farms and their hogs are among the best in this section of the county, their worth being shown by the top market price received on the Omaha market.

How Can the Vacuum Furnace Save 1/3 of the Coal?

Are all the furnaces good that are sold by the other stores? Sure, but they use one-fourth to one-half more coal in the cellar where it is not only wasted but is detrimental to the goods stored there.

See the outer casing on the Vacuum which keeps the heat in the upper rooms.

Again we can put in the Vacuum in one day and cut just one hole, saving \$50.00 on this alone.
