The recent cold snap has been playing havoc with many of the auto radiators for the past few days. The freeze has proven entirely too much for them.

Mrs. J. W. Edmunds underwent a minor surgical operation at her home in Murray last Wednesday morning, at which time a growth that had been forming on the side of her face and troubling her for some time was removed. She is getting along very nicely.

Mr. and Mrs. Chris Murray are rejoicing this week over the arrival of a fine baby girl at their home on last Friday, December 8th. The little lady is one of the finest in the land and the Journal hopes the little one may live to be a great comfort and joy to the happy parents in their declining days.

Born—to Mr. and Mrs. Harry Valentine, on last Saturday, December 9th, a baby girl. "Dady" Valentine is no doubt very proud and happy over the arrival of the little lady, but we will wager a "coon skin" no more so than "Granddad" Hansen, who is of the opinion the little Miss Valentine is the only baby in the land.

UNSUCCESSFUL SNIPE HUNTER.

Snipe hunting has been pretty good in this locality for the past few days, although those who have been holding the sack have not been very successful, as John, the village tonsorial artist will testify. Snipes have been seen by some of the hunters in great quantities, but John has never seen a single snipe, although he held the sack for fully one hour last Friday evening when he accompanied Earl Barger, Ray Henry and Henry Rice, over near the Wheeler place, where he was stationed with the sack while the other three rounded up the birds of the air. John held the fort for fully one hour but not a snipe came his way and none of the boys returned to help him home with the game either. John was fortunate in not being compelled to walk back to Murray, he caught a friend returning with a car. John was told by his pals that snipe meat was not very good this season of the year, but the hides were very valuable, and they could no doubt bag a good number in a very short time. The unsuccessful hunt, the boys say, was due to the fact that John was told to warble every twenty minutes, and he failed to warble. No doubt John will pass the remainder of his days as an unsuccessful snipe hunter for he will wager a bunch of hides that he never tries it again.

Mrs. Joseph Cook was visiting with Plattsmouth friends last Friday.

Mrs. Chas. Carroll has been numbered with the sick for the past few days.

Mrs. F. M. Young, jr., has been suffering for the past few days with erysipelas of the face.

Mr. and Mrs. L. H. Puls were Plattsmouth and Omaha visitors Wednesday, driving to Plattsmouth, where they took the Burlington train for the city.

Dwyer Todd and Will Barger, Misses Jessie Barrows and May Loughridge autoed down to Peru last Sunday, where they spent the day with Miss Lydia Todd.

The M. P. railway are again running the three trick schedule at the Murray station, and W. A. Scott is again on duty, much to the satisfaction of his many friends in this locality, most of all who have dealings with the Missouri Pacific.

L. H. Puls, the Murray garage and light plant man, sold another one of his popular farm light plants to Ed. Gansemer this week and the same is being installed. This is one of the best farm plants on the market and will prove a great advantage for Mr. and Mrs. Gansemer.

Harry McCullough came near meeting with a very serious accident Wednesday of last week, when a pop bottle burst and the pieces of the glass struck him in the face. One piece struck him in the forehead, very close to the eye, and another near the ear, both of which made ugly wounds in his face. He might easily have lost an eye.

The little son of Mr. and Mrs. Ed. Shryder died at their home west of Murray, Wednesday morning. The little one was about eight months old, and took sick Saturday with bowel trouble, the case being a very serious one from the start. He was the only child of Mr. and Mrs. Shryder, and they certainly have the deepest sympathy of the entire community in this hour of their bereavement.

Mr. and Mrs. Albert Wheeler came near meeting with a very serious accident while returning home from Plattsmouth last Saturday evening in the auto. They ran over a stick lying crossways in the road, which became entangled in their car, raising the wheels of one side from the ground. After some delay in the dark and with the assistance of Dr. Gilmore and Frank Vallery they were righted for home. A light was the difficult proposition, but after the task of repairs was almost completed, Mrs. Wheeler came to the rescue with a Christmas gift for Albert, stating that she might as well give it to him now. It was in the shape of a dandy flashlight that would have been worth many Christmas gifts a few moments before.

Mrs. Dr. Jackson left Tuesday morning for Waterloo, to see her daughter, Mrs. Rev. M. G. He has been prominent for years in the activities of his denomination, the United Presbyterian church, although now past seventy-seven and for some years living in retirement at Loveland, Colo., he is yet quite vigorous. FOUR DEGREES BELOW ZERO HERE EARLY THIS MORNING

From Wednesday's Daily.
This morning the temperature at 7 o'clock registered 4 degrees below zero at the Burlington station, which is the lowest that has been recorded so far this winter and made everyone reach for their heavy garments and a good warm fire. The tail end of the cold spell is just reaching this section after spreading over the entire north-west, and the temperature here is mild considering what the other localities in the northwest part of the state have been having. It is a real touch of winter and a promise of what will be given later on by the weather man. The absence of wind or snow with the cold made it much more bearable, however, than it would have been otherwise.

A. T. FITT WHO WAS INJURED SUNDAY IN OMAHA IS BETTER

A. T. Fitt, who was painfully injured in Omaha last Sunday evening, is showing much improvement, and while he will be laid up for some time is feeling some better. Mr. Fitt sustained a fracture of both the right and left jaws as the result of an automobile collision in that city. He, with his family, were driving in their car when suddenly another auto bore down on them, and before the car could be gotten out of the way the second machine had crashed into them, with the result that Mr. Fitt, who was driving, received very severe injuries. He was hurried to this city, where the jaw was set and the patient made as comfortable as possible, although it will be some time before he will be able to enjoy very much pleasure. The auto that did the damage to Mr. Fitt did not stop to see how badly he was injured, but soon got away from the scene of the collision.

THE HUNTING AND FISHING LICENSES IN CASS COUNTY

The Hunters and fishermen of Cass county during the last year contributed the sum of \$239 to the office of the county clerk, and County Clerk Libershal will send the amount to Lincoln to be applied to the state funds in the care of the secretary of state. This amount does not represent all of the licenses sold in the county as several of the smaller banks throughout the county have these hunting and fishing licenses for sale at their banking houses, which saves the necessity of the prospective hunters and fishers coming to this city in order to get their license, but the greater portion of them are sold by the county clerk. The state derives a very neat sum over the state in the returns from the hunting licenses. These licenses represent the sum of \$1 each and make a total of 239 persons who have secured permission to hunt and fish in the county of Cass.

A UNIQUE CHARACTER GOES TO THE COUNTY FARM

Yesterday afternoon John Palmer, an aged resident of the vicinity of Union, was brought to this city to be placed in the county farm west of this place, for care. Mr. Palmer for years has been one of the unique characters of Liberty precinct, where he has resided and followed the vocation of wood-sawyer and doing odd jobs to get along. He was a firm believer in the teachings of the Seventh Day Adventists and for the past several years has traveled over the country on foot selling the tracts of this church, and is well known to almost everyone for miles around Union, and has often walked to this city to dispose of his books. He has been living in a tent east of Union, near the river, and the cold weather proved too severe for him as he is well advanced in years, and accordingly he came to the county farm to be cared for in comfort.
