That new school bell that was bought some time last year seems to have been a joke. After being used some seven or eight months it has a crack in it big enough to let all the ring out of it. Next time why not purchase a Sears "alloy" bell and have a good one, "at half price."

### Milk in Winter.

Why do your cows give less milk in winter than they do in summer? Just because nature does not supply them with grasses and green food. But we have come to the assistance of Dame Nature with B. A. Thomas' Stock Remedy which contains the very ingredients that the green feed supplies in season, only, of course, in a more highly concentrated form. We guarantee that this remedy will make your cows give more milk, and better milk with the same feed.

# FRANK MASSIE, NOW A GOOD ROADS BOOSTER

Saturday evening Frank M. Massie and wife from Mt. Pleasant precinct were in the city for a short time looking after a few business affairs, as this is the first time they have had an opportunity of visiting the city for sometime. The trip to this city from their farm home was male by auto and everything went fine until they reached the Peterson hill, in the south part of the city when the automobile skidded quite a good deal on the icy hillside, and while the car was slightly damaged from the trip the occupants were not injured and the damage to the machine will be very slight. Mr. Massie has become an enthusiastic good roads booster and is anxious to see the roads put in first class shape but he does not think that crowding up the hillside roads is a very good policy for the winter as it causes automobiles to skid and slide too much in wet and slippery weather such as prevails during the winter months. After a short stay here Mr. and Mrs. Massie returnel to their farm home.
