## PETROGRAD SENDS PRAISES TO U. S.

Russian Government Congratulates Nation on Break With Germany.

Petrograd, Feb. 9.—The foreign office has given the following statement to the Associated Press in regard to the action of the United States in terminating diplomatic relations with Germany:

"The decision of the government of the United States to sever relations with a nation which has persisted in the violations and perversion of all the laws of warfare has produced a deep impression in Russia. We feel assured in advance that the United States would not tolerate this last threat of Germany but we are none the less appreciative of the prompt and decisive manner in which President Wilson has shown his disapproval of Germany's mad submarine program and his reluctance to continue on friendly terms with a nation which ignores the first principles of civilization and humanity.

"Whatever may be the further consequences of the present diplomatic rupture, Germany at least has been shown that any continuance of her past methods will meet the open hostility of the civilized world. It is impossible for any of the warring nations, however confident in the justice of the cause for which they are fighting, to remain insensible to the approval or disapproval of a great neutral power.

"For this reason we cannot too deeply acknowledge our appreciation of President Wilson's verdict. Every where men are fighting for the triumph of right and justice, the action of the United States will call forth new courage and consolidate their conviction of a necessity of finishing forever with German militarism and its atrocities."

## WILL KEEP PEACE UNTIL KAISER ACTS

Nation Will Not Go to War on Some Technical Violation By Germany.

Property of Aliens in America to be Carefully Guarded in Case of War.

Washington, Feb. 9.—Preliminary reports before the state department today on the sinking of merchant vessels without warning by German submarines contained evidence of technical violations of American rights, yet the government was holding its peace until some outrage presenting a more clear cut issue should compel it to act. Information on all ships torpedoed is being collected and it was officially stated that up to today the situation had not changed.

President Wilson pursuing his general policy of having the government refrain from any act which might be construed as being prompted by an ulterior motive in the crisis, authorized an announcement that bank deposits merchants ships and other private property of foreigners will not be seized even in case of war. This confirms a provision of the Prussian-American treaty of 1828 without actually re-ratifying the convention.

Officials were impressed anew with the apparent success of Germany's new campaign as they received reports of the aggregate tonnage sunk in the last few days, but they looked for early action by the British shipping or to take some other steps to lessen the destruction of her vessels.

## SOLVING THE RIDDLE OF A NEW CONTINENT

On Friday, February 16, at the Parmele Theatre, Lyman H. Howe will pilot the stay-at-homes into the depths to the seventh continent of the world—the Antarctic—via the most wonderful series of scenes ever recorded on any film. Spectators will accompany Sir Douglas Mawson's expedition into polar regions where blizzards rage with a velocity unknown anywhere else on earth. It is a wonderful film in its perfection and tense human interest. The amazing adventures and incidents that attended the 6 university graduates who comprised the expedition and who frequently were face to face with death are vividly depicted. Their struggles, privations and resourcefulness amid raging hurricanes, vast deserts of snow which was often carried on the winds until it totally obscured the sun, glistening mountains of ice, and among the strangest forms of bird and animal life, are all scenes which no spectator can ever forget. It is an epic story in pictures of human endurance that is without parallel, and yet with its tragic moments are interwoven comic phases that are all the more refreshing because they are not posed. The importance of the events that are here enacted may be realized when it is remembered that they solve the riddle of the land at the South Pole which hitherto was wrapped in mystery. The answer was the discovery of a continent twice as large as the United States. It abounds with some of the most majestic vistas of scenery of Alpine proportions that the world affords. As indicating that the perils and privations of polar explorations as shown here are greater even than those of war, it is worth while to note that 35 of the 66 men who accompanied Mawson on this expedition are now on the firing line in France and they complain of the luxury of the trenches.

Another feature portrays the grandeur of rivers rushing off precipices thousands of feet high in Yosemite National Park, amid the sublimity of stupendous cliffs springing vertically from the level valleys. Among many other subjects, the scenes of the most thrilling moments that occurred during the recent automobile race up Glat's Despair, at Wilkes-Barre, Pa., furnish sufficient "action" to satisfy the most exacting, and the sprightly antics of entirely new animated cartoon are quite as amusing as the other subjects which they burlesque, are amazing.

## THE K. K. K. CLUB ENTERTAINED BY MISS MOFFETT

The members of the K. K. K. club were entertained very pleasantly Saturday evening at a valentine party at the home of Miss Ruth Moffett, and in keeping with the spirit of the occasion the color scheme of red and white was used in the decorations of the rooms with red hearts being used extensively in the plan. The evening was spent in playing games as well as in the enjoyment of several musical numbers by the members of the party, and in the penny contest game Miss Iva Sutley was awarded the prize for being the most skillful. One of the clever features of the evening was the fact that each guest was dressed to represent some part of a valentine and this proved very entertaining to the members of the party. At a suitable hour a valentine luncheon was served by Mrs. E. B. Moffett, who was assisted by Mrs. Emmons Ptak. Those who enjoyed the pleasant occasion were: Misses Genevieve Whelan, Fae Cahn, Nellie Cowles, Theodora Kroehler, Lora Noble, Clara Mae Morgan, Marjorie Christinger, Grace and Virginia Beeson, Jessie Reynolds, Elizabeth Waddick, Alice Ptak, Janet Bajack, Pauline Bajack, Kathryn Waddick, Iva Sutley, Ruth and Carl Moffett.

About Constipation.

Certain articles of diet tend to check movements of the bowels. The most common of these are cheese, tea and boiled milk. On the other hand, raw fruits, especially apples and bananas, also graham bread and whole wheat bread promote a movement of the bowels. When the bowels are badly constipated, however, the sure way is to take one or two of Chamberlain's Tablets immediately after supper.
