C. A. RAWLS AD-DRESSES THE METH-ODIST BIBLE CLASS

From Wednesday's Daily.
The Young Men's Bible class of the Methodist church enjoyed a very pleasant time at their rooms in the basement of the church on Monday evening and one in which a considerable number of the members participated. The evening was spent in listening to an address from Attorney C. A. Rawls who chose as his subject "Our Inheritance" and was one of the best it has been the pleasure of the class to hear in some time. The speaker carried with his remarks an impressiveness that could not but make a deep impression upon his auditors and the boys of the class were unanimous in voting it one of the most entertaining lectures that it has been their pleasure to hear. The address occupied an hour of the evening and the remainder was enjoyed in a social way with visiting and music, which completed a very enjoyable time for every one present. Every member of the class feels very grateful to Mr. Rawls for his delightful address.

WILLIAM BECKER INDICTED FOR MUR-DER OUT ON BOND

Information from Mason City, Illinois, states that William Becker, who was indicted there for the murder of his parents, has been released under a \$50,000 bond for his appearance for trial before the district court of Mason county, next November. The press dispatches from Mason City indicate that a great deal of doubt is entertained as to the justice of the charges against Mr. Becker and his bond was signed by fifteen of the business men of that city whose wealth aggregates \$2,000,000 and which was accepted by the state attorney and the court without question. Mr. Becker will spend the next few months in seeking out evidence as to his innocence and to place the guilt for the crime.

WILL LOOK INTO MATTER

Those who have been looking into the proposition of the O'Brien-Hicks company to come to this city with their re-tinning factory, seem very well pleased with the outlook for the success of the proposition. The factory which is now in operation in Omaha seems to be having much success in the orders on hand and has the prospects for an increase in business in the next few months. The matter of the factory will be very carefully investigated by the Commercial club before they go ahead and recommend the acceptance of the proposals for the factory.

RAILROADS WILL NOW ASK FOR IN-CREASED RATES

Washington, D. C., March 20.—Congress, at the coming extra session will be asked to pass a law granting increased freight and passenger rates to reimburse the railroads for \$50,000,000 in increased wages they will be compelled to pay under the Adamson eight-hour law, railroad heads and officials of the interstate commerce commission declared today.

"Since the supreme court has decided that congress has the plenary power to fix wages for the trainmen then it also has the right to legislate railroad rates," a prominent government official said.

The eight-hour commission, created by the Adamson act to investigate the effect of the eight-hour law on the railroads, is powerless to grant increased rates.

This commission, consisting of General Goethals, George B. Rublee and Edgar E. Clark, has been at work since January 1, when the Adamson law became effective, but operation of the law was interfered with as a result of the injunction, and the commission was not able to gather much information regarding the effect of the law.

THE RIVERS AND STREAMS MOVING VERY SLOWLY

The manner in which the rivers and streams is moving is very pleasing to the railroad officials of the lines in this portion of Nebraska as well as to the residents who make their homes along these streams. If the present conditions prevail for a few days longer it is believed that all danger from flood damage to property will be past.

At this place and to a point far below St. Joseph, Missouri, the ice has broken up in the Missouri river and moved down stream without doing any damage. In the river above this point the ice is beginning the great movement southward and melting and disappearing on the way to the outlet of the river.

Advices to railroad headquarters are that the ice in the Platte has broken in the vicinity of Ashland, great field of ice, twenty to thirty inches thick, have moved out of the channel and generally have lodged on sandbars, where it is expected it will remain and melt unless within the next few days high water from the upper river comes along and floats it off into the Missouri.

In the upper stretches of the Platte the ice remains firm, and this is also the case in the Elkhorn and the Loup.

Accidents will happen, but the best regulated families keep Dr. Thomas' Eucletic Oil for such emergencies. Two sizes, 25c and 50c, at all stores.
