THE HOUSE MAY VOTE ON FINANCE BILL FRIDAY

Little Opposition to Measure Providing \$7,000,000,000 War Revenue.

Quantity and Classification of War Taxes Gives Greatest Concern.

Washington, D. C., April 11.—Assurances that the \$7,000,000,000 war revenue measure will pass the house quickly and that consideration of new taxation plans will begin immediately were given President Wilson and Secretary McAdoo today by congressional leaders.

Introduction in the house of the revenue bill authorizing a \$5,000,000,000 bond issue and a \$2,000,000,000 certificate of indebtedness preceded an unexpected visit of the president to the capitol by a few minutes today. Democratic Leader Kitchin introduced the measure, with a favorable report from the full committee and announced that debate on it would begin Friday morning at 11 o'clock. It is hoped to pass the bill before Saturday night, and possibly on Friday.

In evolving a new taxation plan for raising revenue to meet the certificates of indebtedness, however, much trouble is expected in getting republicans and democrats together. The first big question is what amount of revenue shall be raised by immediate taxation. The generally accepted plan has been to divide equally the cost of the first year of the war, roughly estimated at from \$3,750,000,000 to \$4,000,000,000, between the bonds and taxes, but the president has expressed himself as desirous of placing as much of the burden on the present generation as possible, and some members of congress are advocating the raising of 75 per cent of the first year needs by taxation.

Administration and congressional leaders generally are determined that the tax shall not be of a class character regardless of the amount. History, they said, shall not designate this as either a poor or a rich man's war.

House financial authorities are considering proposals to raise new revenue on increased income stamp tax and taxes of excess profits, inheritances, distilled liquors and beers, cigars and tobacco, amusement places, the postal service, soft drinks, and newspaper, billboard and other advertising.

Probably the most far-reaching proposal yet suggested is that the postal charges be raised. It has been proposed that the present 1-cent rate for drop and circular letters be raised to 1 1/2 or 2 cents and the regular 2-cent rate to 3 cents. No tax suggested, it is argued in favor of this proposal, would reach so many persons and be objected to by so few.

In connection with this postal plan is another to tax newspapers and periodicals in proportion to the amount of advertising they carry.

LATIN-AMERICA TO STRIKE REAL BLOW

See Genuine German Catastrophe in Break By South American Republics.

Geneva, April 11.—The Journal de Geneva commenting on the report that several of the South American republics will follow the lead of the United States in breaking with Germany said:

The essential factor is in the progressive expulsion of Germany from all continents today. Even if the British fleet did not exist, the Germans would not have a port of call outside Europe, except Siam. For an over-populated and over-productive country which lives by exportations and which would die if forced to fall back on itself, the loss of South America coming after that of China is a genuine catastrophe.

"It has often been said, 'in war victory alone counts,' but it is no longer true. The future counts more. Germany is victorious in Europe, but shut out of the rest of the world."

Rheumatism and lumbago are awful things and cause great pain and misery, but Foley Kidney Pills can rout them. Mrs. G. H. Eveland, Duncan, Mo., Ill., writes the following letter: "I was stricken down with lumbago and was unable to turn myself in bed.
