GOVERNOR DECIDES DRY LAW MUST PASS

House and Senate Told Special Session Will Be Called if Prohibition Bill Fails.

Lincoln, Neb., April 14.—Governor Neville took the bull by the horns this morning and sent a communication to both branches of the legislature informing them that unless the legislature passed the prohibition bill that he would call a special session.

He declared that he would introduce a new bill and that as the conference committee, which had agreed upon everything but one section, could not get together, he urged a new committee.

It is understood that the hitch is on Section 1 of the bill, which describes intoxicating liquors and the "near-beer" proposition is the cause of the disagreement.

Deadlock Over Near Beer.

According to a statement tonight by Representative Flansburg, who speaks for the other members of the house conferees on the prohibition bill, the question over which the committee is at loggerheads is the manufacture and sale of "near beer."

The senate members of the conference committee hold that the manufacture and sale of near beer is not prohibited by the amendment because it is not intoxicating, while the house members insist that any beverage containing alcohol of any per cent is capable of intoxication and therefore prohibited by the amendment submitted.

Outside of this one item the committee is together in reporting the bill.

Read the Evening Journal. Only 1 cents a week.

WITNESS FINE PRODUCTION.

Misses Sophia Hild and Rose Mae Creamer were in Lincoln Saturday to attend the performance in that city at the Oliver theater of "The Diplomat," which was presented by the Kosmet club of the state university. The music for this play was written by LeRoy Meisinger, a son of J. B. Meisinger, a former resident of this county. The music is pronounced as most charming and tuneful and reflects great credit upon the young man who has the honor of composing the score. Mr. Meisinger is very active in musical circles at the university, and his play will be repeated by the Kosmet club in Omaha in a short time, when a large number of relatives and friends from this county can have the opportunity of enjoying it.

Nature Cures, the Doctor Takes the Fee.

There is an old saying that "Nature cures, the doctor takes the fee," but as everyone knows you can help Nature very much and thereby enable it to effect a cure in much less time than is usually required. This is particularly true of colds. Chamberlain's Cough Remedy relieves the lungs, liquefies the tough mucus and aids in its expectoration, allays the cough and aids Nature in restoring the system to a healthy condition.

DEPARTS FOR UNKNOWN PARTS

Superintendent Tams of the county farm reports that Herman Finder, one of the residents of the farm, has once more hied himself away from the farm, leaving no word as to his destination or intentions. He has made several previous excursions away from the farm and while his absence is not great regretted it makes quite an annoyance to Mr. Tams in having him looked up.

HONOR MORTON IN GALA ARBOR DAY

Nebraska City Prepares for Celebration On Twenty-third of April.

Special Train to Run From Lincoln—Governor to Plant Tree.

Nebraska City, Neb., April 15.—Arbor day originated in Nebraska in 1872. The late J. Sterling Morton, of Nebraska City, is known through the nation as the father of Arbor day. Back in the early seventies he prevailed upon the state to set aside a day for tree planting. In 1893 Mr. Morton was called by President Cleveland to his cabinet and made secretary of agriculture. During the four years of his incumbency he accomplished much in the development of forestry, not the least part of which was the popularizing of the Arbor day idea, and before his administration ended he had it adopted by practically every state in the union. His devotion to tree planting made him a benefactor to the denuded regions of our western country.

Nebraska City was the home of J. Sterling Morton. After his death in 1905 the appreciative citizens of the nation, by their contributions aggregating \$20,000 erected here in beautiful Morton park a noble monument in bronze to his memory. President and Mrs. Cleveland, with the cabinet graced the occasion of the unveiling of the monument with their presence. Mr. Cleveland delivering the oration. It was the city's greatest day, when the nation's great and the state's prominent citizens met within her borders to do honor to the memory of her first citizen.

This year, in connection with the semi-centennial celebration of Nebraska's statehood, Nebraska City proposes to observe Arbor day, April 23,—upon a scale that will draw the eyes of the state and somewhat of the nation toward her. Her gates will open wide and the public is invited to participate with her in the celebration. The following program will be carried out:

In the afternoon a monster parade of historic floats, the overland stage coach, decorated automobiles, public officials, Company B, the bands and school children of Otoe county will lead the way to Memorial center in Morton park, where historical and patriotic exercises will be held. Dr. S. P. Cresap presiding as chairman. Arbor day odes will be sung by the men's chorus and the school children of the county. An address will be delivered by Governor Keith Neville. The governor will plant a tree near the historic tree set by President Cleveland, and Senator John Mattes will make a concluding address.

In the evening the program will be in the Overland theatre. Judge Paul Jessen of Nebraska City chairman, and will consist of Arbor day and historic odes sung by the mixed chorus and ladies glee club, and historical address by Hon. John L. Webster, of Omaha; presentation of the pioneers; display of Indian and historic relics.

In addition to the regular Burlington and Missouri Pacific trains, the Burlington railroad will run a special train from Lincoln for the occasion, leaving Lincoln at 8 a. m. and returning leaving Nebraska City after the evening entertainment. The special train will stop at all stations, going and returning.

NOTICE TO TRESPASSERS.

To All Citizens of Plattsmouth: You are hereby notified to remove all fences in streets, whether paved, curbed and guttered or otherwise, and to maintain same at the lot line. If you fail to comply with this notice, the street commissioner is directed to proceed by ordinance and remove such fences as are found to be in the street.

By Order of the City Council. JESS F. WARGA, City Clerk. 4-16-17kd

C. H. VALLERY SOME BETTER.

C. H. Vallery, who has been quite sick for the past several weeks suffering from a growth on the neck, is reported as being somewhat improved and the last week has felt better than for some time, but is still in quite serious condition. The many friends of Mr. Vallery will sincerely trust that he may soon recover from his malady.

DANIELS WANTS 100,000 MEN FOR NAVY BY MAY 1

Washington, April 15.—One hundred thousand men by May first. Secretary of the Navy Daniels confidently set that as the figure of recruiting to be reached by May first—the day Admiral Dewey fought and won the battle of Manila. It will take 2,000 enlistments daily to do it.

He hopes that throughout the country there will be especial efforts to stimulate recruiting in the next two weeks and was particularly desirous that newspapers help insofar as they can with local campaigning.

THE FIGHT ON BOOZE TO AID BIG WAR

Would Divert Grain to Food Channels and More Men Into Army Ranks.

Washington, April 15.—Assault on the liquor strongholds of the country to bring about war prohibition was formerly launched tonight. To divert enormous quantities of grain from liquor manufacture into food channels, to turn the labor of men employed in distilleries and breweries to other occupations and to increase the "man power" of the nation is the hope of the campaign.

The program to be pursued, according to the national legislative committee of the anti-liquor forces is as follows:

Stop the sale of liquors to soldiers and sailors, establish "dry" zones around the camps, prohibit interstate shipment of liquor, prohibit grain and food material from being used to make liquor during the war and place a prohibition tax on not only the men, but also the sale of liquors.

The new campaign carries with it an appeal to "the patriotic prohibition forces of the country" to urge action in congress which will safeguard our resources and make our country sober, strong and efficient in this hour of national peril.

Fully \$500,000,000 war revenue will be raised in this way at once and later there probably will be still further increases. This sum is about twice as large as that derived from internal revenue tax.

According to present plans secretary McAdoo will recommend that taxes on liquors be increased from \$1.10 to \$2.00 a gallon, while the tax on beer from \$1.50 to \$2.00 a barrel as a starter.

SIGNS OF DANGER

That Should Be Heeded By Plattsmouth People.

There's serious danger in neglecting any weakness of the kidneys. The warning that Nature gives should not be overlooked. If troubled by too frequent passage of the kidney secretions; burning or scalding; if the secretions are highly colored and contain sediment when left standing—if you have backache, too, with frequent headaches and dizziness, make up your mind that your kidneys are affected and begin using some reliable kidney remedy. Deaths from kidney disease have increased in the United States alone, 72 per cent in the last 20 years. The risk is great—you can't afford to delay. Plattsmouth people recommend Doan's Kidney Pills. Can you ask for better proof of merit than the statement of this Plattsmouth resident?

Mrs. J. M. Hiber, 1403 Vine street, Plattsmouth, says: "Once in a while I get a dull ache across my kidneys, but a few doses of Doan's Kidney Pills soon overcomes this trouble. I couldn't recommend a better medicine for backache and kidney complaint." Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Hiber had. Foster-Milburn Co., Props., Buffalo, N. Y.

PRESIDENT NAMES CENSORSHIP BODY

George Creel to Head Censors of United States War News For the Public.

Untimely Announcements of Campaign Would Frustrate Plans, Say Critics.

Washington, April 15.—The machinery of a "velvet glove" censorship was set in motion by order of President Wilson today.

Without waiting for sanction by congress the president named a board to prevent the publication of policies, plans and specific activities which might constitute a source of danger. The board starts its work at once.

It includes Secretary of War Baker, Secretary of State Lansing, Secretary of the Navy Daniels, and George Creel, civilian chairman.

At the request of the three department heads, President Wilson created the "committee on public information," by executive order.

The committee is to proceed immediately with the framing of regulations "to safeguard all information of value to the enemy and at the same time to open every department of the government to the inspection of people as far as possible.

The following letter signed by the three secretaries recommended the action. Dear Mr. President:

"Even though the co-operation of the press has been generous and patriotic, there is a steadily developing need for some authoritative agency to secure the publication of all the vital facts of national defense. Premature or ill-advised announcement of policies, plans or specific activities, would constitute a source of danger.

Little That is Secret. "While there is much that is properly secret in connection with the departments of the government, the total is small compared to the vast amount of information that it is right and proper for the people to have.

"America's great present needs are considerable, enthusiasm and her voice and these needs will not be met completely unless every citizen is given the feeling of partnership that comes with the full and frank statements concerning the conduct of the public business.

"It is our opinion that the two functions—censorship and publicity—can be joined in honesty and with profit, and we recommend the creation of a committee on public information. The chairman should be a civilian, preferably some writer of proved courage, ability and vision, able to gain the understanding co-operation of the press, and at the same time rally the authors of the country to a work of service: Other members should be the secretary of state, the secretary of war, and the secretary of the navy, and an officer or officers detailed to the work by them.

"We believe you have the undoubted authority to create this committee on public information without waiting for further legislation and because of the importance of the task, and its pressing necessity, we trust that you will see fit to do so.

To Frame Rules. "The committee, upon appointment, can proceed to the framing of rules, and the creation of machinery that will safeguard all information of value to an enemy, and at the same time open the development of inspection to the people as far as possible. Such regulations and such machinery will, of course, be submitted for your approval before becoming effective."

The president's executive order creating the board was made public at the White House tonight as follows:

"I hereby create a committee on public information, to be composed of the secretary of state, the secretary of war, the secretary of the navy, and a civilian who shall be charged with executive direction of the committee.

"As civilian chairman of the committee, I appoint Mr. George Creel.

"The secretary of state, the secretary of war and the secretary of the navy are authorized each to detail an officer or officers to the work of the committee."

ROOSEVELT READY TO HURRY TO FRONT

Willing to Raise Volunteer Expedition to Join Allies in Four Months.

Washington, April 15.—Colonel Roosevelt, in letters today to Senator Chamberlain and Representative Dent, chairman of the congressional military committees, detailed his plans for raising and accompanying a volunteer expedition to join the allies on the western European battle front. He heartily approved the administration's compulsory service program for providing a war army, but insisted that volunteers could be put on the firing line in four months and that the American flag should be there at the earliest possible moment.

When here last week, Colonel Roosevelt saw the military committee chairman after his conference with President Wilson and they asked him to submit his views in writing.

"I most earnestly and heartily support the administration bill for providing an army raised on the principle of universal obligatory military training and service," said the letter. "But, of course, a great system of this kind, a system entirely new in this country cannot be immediately inaugurated. Many months, probably at least a year or over, must elapse before the army thus raised would be available for use in Europe.

"Meanwhile let us use volunteer forces in connection with a portion of the regular army in order, at the earliest possible moment, within a few months, to put our flag on the firing line. We owe this to humanity. We owe it to the small nations who have suffered such dreadful wrong from Germany. Most of all we owe it to ourselves, to our national honor and self-respect.

"For the sake of our own souls, for the sake of the memories of the great Americans of the past we must show that we do not intend to make this merely a dollar war. Let us pay with our bodies our souls' desire. Let us, with one hour's unnecessary delay, put the American flag on the battle front in this great world war for democracy and civilization and for the reign of justice and fair dealing among the nations of mankind."

The colonel said he did not seek to have the volunteer system interfere with or substitute for the obligatory plan, but that except in certain expected cases the volunteers should be composed of men who would not be taken under obligatory service.

Colonel Roosevelt proposed an amendment to the act of March 2, 1899, providing for the raising of 35,000 volunteers, so as to authorize the president to raise a force of not more than 100,000 (or 200,000 to 500,000 later) for three years or the duration of the war.

"Under this act," the letter continued, "I should ask leave to raise, for immediate service overseas with the first expeditionary force, an infantry division of three three-regiment brigades and one divisional brigade of cavalry, together with an artillery brigade, a regiment of engineers, a motorcycle machine gun regiment, an aero squadron, a signal corps, the supply service, etc I should request the War department for the detail of say, two officers for every thousand men.

"I believe that, acting under the direction and with the aid of the department, I could raise the division and

ARGENTINE MOB ATTACKS LEGATION

People of Buenos Aires Break Windows and Damage Buildings of German Envoy.

Buenos Aires, April 15.—The German legation and consulate here have been attacked by a mob, as have the newspapers Deutsche La Plata Zeitung and La Union. The windows of the building were broken. The police dispersed the manifestations, making numerous arrests. The editor of the German newspaper was wounded, as were several of the demonstrators.
