### MILUKOFF QUILTS RUSSIAN CABINET, FOREIGN MINISTER

Provisional Government Unwilling to Admit Soldiers' and Workmen's Element.

Petrograd, May 16.—Paul N. Milukoff, minister of foreign affairs, has resigned, leaving the cabinet altogether.

M. Tereschetenko, minister of finance, has been appointed foreign minister, and A. F. Kerensky, previously minister of justice, has been named minister of war and marine.

Having discussed the conditions under which representatives of the council of workmen and sailors' delegates would consent to enter the decided today that it was unable to accede today that it was unable to accept the first of these conditions. This called for the enunciation as a fundamental principle of a foreign policy openly pursuing the aim of reaching as soon as possible a general peace without annexations of indemnities, on the basis of the right of nations to work out their destinies.

The provisional government was unable to agree to such a principle because it did not consider possible any renunciation of principles set forth in its proclamation of April 9. The provisional government thinks it necessary to confirm the unity of all allied fronts and insists on an energetic struggle against anarchy. To the financial and economic reforms mentioned in the council of workmen's and soldiers' delegates the government raises no objections, regarding it as part of its task to realize such reforms.

The executive committee of the duma has approved this decision of the government.

The composition of a coalition cabinet proceeds.

The American commission is going to Russia in what amounts to be a race against time, with only two ob-

jects in view, it was stated on the highest authority today. These objects are:

The convey to the Russian people the gratification of the United States at the transformation of the ancient despotism into a republican form of government, and to render any helpful service it can to aid the new government rising from the ruins of the empire.

The commission has no purpose to sway the judgment of the Russian people, as to which faction shall control in the organization of a permanent government.

This statement was made to meet sinister misrepresentations by Germany in Russia which are calculated to provoke some of the Russian factions into making a separate peace before the American commissioners can arrive in Petrograd.

EVERY hour throngs of men and young men stop in front of our windows to see those engaging new Stetsons.

Then they come in to buy—scores of them. One of our customers said he had intended wearing his last year's selection in spite of the way hats were going; but one of the Stetson's in our window "got him."

And then he picked out two for us to send home.

Come in and try on several of them. We'll not be disappointed if you are not ready to buy.
