MR. FARMER!

A half million dollars' worth of perfectly good farm machinery is thrown in the scrap pile every year in Nebraska.

Farm work is the hardest work there is on machinery.

Castings break, bearings wear out, shafts bend and break. Things get dull and pill hard, gears rattle, smash, bang and crash, paint gets dull.

Many farmers throw away machinery and buy new, because they are not aware that we can in nearly every case re-make such machinery equal and in many respects better than new.

We do not care how bad your machinery is smashed or worn, they all look alike to us; we re-make them as good as new and save you money.

A dollar saved is a dollar earned; keep your money at home and you may get it back again, besides it helps us to employ home labor.

Put your machinery troubles up to us; we have the best equipped machine shop in the country; if you don't believe it, call and see us. Visitors are always welcome.

We make everything in metal. Now is a good time to overhaul things for the spring rush.

HOHENZOLLERNS TOO POPULAR IN GERMANY TO BE DETHRONED

Berlin (Via London), May 15.—In the debate preceding Dr. von Bethmann-Hollweg's address, Herr Roesicke, conservative and president of the German farmers' union, in bringing forward, on behalf of his party an interpellation in connection with Germany's war aims, said:

"While our brave troops maintain with streams of blood our territorial gains, the social democratic party urges the imperial chancellor to conclude a peace without any indemnity and without any annexation. The imperial government has met the socialist democratic demands to such an extent that this party enjoys preferential treatment beyond that accorded the other parties, and the imperial word 'I know no parties' is rendered valueless."

Herr Roesicke denounced the socialist aims as sinister and antinational and as tending to a prolongation of the war, since, he said, the entente based their hopes on German disunion.

"President Wilson," Herr Roesicke continued, "wants no peace with the Hohenzollerns, but the monarchy is too deeply rooted in German hearts for the malignity of the entente or of President Wilson to be capable of destroying it."

Herr Roesicke said the Germans acknowledged that Russia was maintaining loyalty to her allies, while from Germany disloyalty to the monarchs was expected. Proceeding to denounce

the socialist aims and expressing doubts as to the government's "will to victory," Herr Roesicke continued: "The desire for renunciation of annexation and indemnity gives our enemies a charter to prolong the war without risking anything. A rejection of the renunciation proposals by the reichstag will be a manifestation of our strength and of our will to secure an enduring peace which will safeguard Germany's future. The nation demands a clear reply." The speech provoked cheering from the conservatives and hisses from the members of the left.

PUBLISHERS HAVE THEIR SAY IN NEW WAR TAX CRITICISM

Washington, May 15.—The war tax bill provision to greatly increase postal rates on newspapers and magazines again today was under fire in congress.

In the house general debate on the bill was nearing its final stages while before the senate finance committee newspaper publishers continued their attacks on the bill's postal rates provision. Samuel Gompers, president of the American Federation of Labor, presented the protest of the labor press.

In a formal statement on behalf of publishers throughout the country the committee was told that the publishers are willing to be taxed to any extent that would not destroy their business.
