## FRENCH STRIKE SHARPLY THREE POINTS ON LINE

And Capture Last of Observation Posts Dominating the Ailette Valley.

British Are Quiet and Supposed to Be Preparing for Another Blow.

The second phase of the great battle of Arras, the Ailette and Champagne has ended in the failure of the costly German efforts to stem the tide of victory now setting against them.

The net result of Field Marshal Von Hindenburg's supreme effort to regain the initiative has been that the British and French have tightened their grip on the German line and have placed in great peril the key positions held by the Germans in northern France.

The customary lull which separates all major operations in modern warfare has now come and the expectation is that it will be broken by a British blow on a great scale against the Drocourt-Queant line, already practically outflanked.

In the meantime the usual crop of peace rumors which marks these lulls has made its appearance. Reports from different sources tell of offers from Austria to Russia, Germany to Russia and Austria and Germany to the collective entente powers.

The latest German-Spanish crisis has subsided with the receipt by Madrid of assurances from Berlin which Premier Prieto announces as satisfactory. Germany promises to respect Spain's rights in her territorial waters, but the text of the communication is not made public.

Paris, May 23, 2:06 p.m.—The official statement follows:

"We made spirited attacks with good results yesterday evening at three points on the front. On the Vauclere plateau and on the California plateau our troops conquered the last of the observation points dominating the Ailette valley. They enlarged considerably their positions on the northern slopes.

"We carried three lines of German

trenches east of Crevreux during the night. A counter-attack by the enemy on our new positions on the California plateau was stopped by our fire, which inflicted heavy losses on the attackers. We captured 350 Germans of whom eleven are officers. "An enemy attack on the slopes southwest of Eparges was checked."

## RESIGNATION OF HUNGARIAN

CABINET WITH TISZA AT HEAD

London, May 23.—A Central News dispatch from Amsterdam says that the Hungarian cabinet, of which Count Tisza was premier, has resigned.

Count Tisza, the "iron man" of Austria-Hungary, has been for many years the leader of the pro-German party in the dual monarchy and was the last survivor of the little group of statesmen who surrounded Emperor Francis Joseph when the European war began. On the accession of Emperor Charles, the majority of the officials of the previous regime were either dismissed or resigned. There have been persistent reports from many sources that Emperor Charles keenly resented the dominance of Berlin in Austro-Hungarian affairs and that Count Tisza was the one great obstacle which prevented him from freeing his empire from the influence of Potsdam.

## DANCE MAY 26.

## BRITISH SAY U-BOATS BEATEN—U. S. DOES 'BIT'

Admiralty Gives American Navy Operating in European Seas Share of Credit.

## BIG FALLING OFF IN SUBMARINE RAVAGES

London, May 23.—The American navy operating in the European U-boat war zone has been given its share of credit for what the British admiralty believes to be the failure of the German undersea campaign to crush the allies by starving England. German naval heads had freely predicted that England would be on its knees by June 1 and that before that date famine would be the certain fate of Great Britain and France.

June 1 is nearly here and the admiralty report for the last week, ending Sunday, shows that for the third week in succession submarine losses have been held substantially below the large losses that caused so much alarm last month.

The statement of shipping lost by submarine and mine follows:

"For the week ending Sunday: Arrivals, all nationalities, 2,664; sailings, 2,759.

"British merchantmen of 1,600 tons or over sunk by mine or submarine, eighteen; under 1,600 tons, nine.

"British merchantmen unsuccessfully attacked, nine.

The destruction of eighteen vessels of more than 1,600 tons, five of less than 1,600 tons and three fishing vessels was shown in last week's statement.

The heaviest losses were shown in the report of April 26, which announced the sinking of forty vessels of more than 1,600 tons each.

There has been a constant improvement in the methods of the allies in opposing and suppressing U-boat activity, and these methods have become more and more successful with longer days and finer weather and increasing familiarity on the part of the skippers of merchantmen with the methods of naval control.

Part Played by U. S. Fleet. An admiralty official, speaking to the Associated Press, said:

"The American destroyers are playing no small part in the anti-submarine warfare and our officers have expressed the greatest enthusiasm at the spirit, enterprise, acumen and quick wittedness with which the American unit has taken up its work.

"The Americans are already thoroughly conversant with our methods and we hope they soon will begin teaching us some new angles. Of course there is little to be said to the public regarding the methods. But thus far we are working on the principle that there is no royal road to success against U-boats.

"Hard work and infinite pains is

our recipe. It is the old American doctrine of keeping everlastingly at it.

"The Germans, who at first said they would strip us of our tonnage by June 1, have now advanced the date to October, and we are confident they will be under the same necessity of advancing the date again."

## SAYS HERE ARE CRACKS IN THE IMPERIAL EDIFICE

Geneva, Via Paris, May 23.—Things are going badly in Germany and the imperial regime is threatened, according to Dr. Aristides Aguerro, recalled Cuban minister to Berlin, who arrived here on his way to France. Dr. Aguerro said:

"I bring good news. I have been fourteen years in Berlin and you can easily realize that I have been able to thoroughly study the character of our enemies. Things are going badly on the other side of the Rhine. The facade of the imperial edifice seems solid enough from abroad, but in reality there are cracks in it."

## ANTI-DRAFT AGITATORS ARE IN CUSTODY IN WEST TEXAS

Fort Worth, Texas, May 23.—News reached here today of a mass meeting at Goree last night to take action against forty men alleged to have been implicated in the West Texas conscription plots.

Thirty of the forty at Goree, it is said, have turned over to the authorities much of the organization's literature and have revealed the oath of the society. Snyder, Texas, merchants, it is said, in a dispatch received today, have employed watchmen for each block of the business district to protect property and life from the anti-government plotters.

## Had a Very Bad Cough.

This letter should interest every reader: "Last winter I had a very bad cough. I used medicines, but they did me no good. I took one bottle of Foley's Honey and Tar and it cured me. (Signed) V. ## Comfort

A ride in any of the Willys-Overland models will enable you to understand the luxurious riding qualities of these cars.

All details having bearing on the comfort of these cars have been harmoniously balanced.

- ample wheelbase and large tires
- shock-absorbing cantilever rear springs
- deep soft upholstery
- roomy body with side seats
- proper balance in construction

Each one of these features does its important part in absorbing the jolts of rough roads. You ride smoothly in solid comfort.

Every model in the comprehensive Willys-Overland line is built to a rigid standard of performance, appearance and comfort. Each car is, we believe, the dominant value among cars of its kind.
