CRUSH PLOT TO NULLIFY DRAFT UNDER U. S. HEEL

Government Orders All Federal Officers to Prosecute Anti-Military Agitators.

EVERY CITIZEN ASKED TO SEE LAW OBSERVED

Officials Call It German Conspiracy to Prevent Forming National Army.

Court Sweeps Aside Plea of Draft Slavery.

San Francisco, Cal., May 30.—The claim that the selective draft passed by congress, May 17, violates the federal constitutional provisions prohibiting "slavery and involuntary servitude," advanced by Ferdinand Claudius of Oakland, Cal., was characterized by the state supreme court today as "utterly without merit."
Claudius applied today for the second time for a writ of prohibition to prevent Mayor John L. Davie of Oakland from compelling him to register for the draft on June 5. Claudius declared he would appeal to the United States supreme court.

Washington, D. C., May 30.—Attorney General Gregory today instructed United States attorneys and marshalls throughout the country to use their utmost efforts to arrest and prosecute all persons responsible for the agitation which has manifested itself in localities from New England to Texas against the registration June 5, of men subject to selective draft.

This agitation has made itself felt somewhat in many sections, but thus far there apparently is little connection between the outbreaks. Officials have undertaken an exhaustive investigation to determine if the whole anti-draft sentiment is not rooted in extensive machinations of German propagandists in this country having a central headquarters.

Expect 100 Per Cent Registration.
Word to this theory is lent in some degree by the marked similarity in the methods of procedure in widely separated communities. Some officials believe that the entire agitation is manufactured by German agents, who, baffled in their original program calling for an armed uprising of German reservists in this country upon America's entry into the war, have turned their energies to this method of hindering the military plans of the government.

If such is the case the conspiracy will come to nothing, officials believe. The department of justice, it was authoritatively announced tonight expects virtually 100 per cent of eligibles to register and prompt prosecution under the criminal provisions of the law will be instituted in the few cases where the law is not observed.

All Asked to Report Slackers.
To bring out the full registration, Attorney General Gregory today invited the entire nation to constitute itself a committee of the whole and every man of military age a committee of one to report slackers.

"Attorney General Gregory invites all young men of the country to cooperate in the enforcement of law as a part of their patriotic duty," reads an official statement.

"Determined to crush in incipency every movement designed to thwart or interfere with registration, as provided for in the law, the department is having its officers throughout the country arrest promptly all agitators against compliance with the law.

Will Honeycomb Nation.
"The department is not dependent entirely upon its agencies to discover disloyal activity. State and municipal police are co-operating and members of national patriotic and commercial organizations, which were enlisted after the declaration of a state of war, to guard against all acts inimical to the general welfare are engaged in bringing to the attention of the United States attorneys and marshalls all instances to discourage registration.

"These several agencies will be on duty June 5, honeycombing the country to see that every man subject to registration complies with the law and that every official delegated to carry out its provisions performs his duty properly."

John Carlson and sisters, Misses Ellen and Julia Carlson, came down yesterday from their home at Havenlock to visit over Decoration day with old friends.

Don't Blame the Stomach!

In many cases of indigestion the stomach must be acquitted of all blame. Many people devour food without any attempt of mastication and such hasty swallows are the real inciters of gastric rebellion. It is a very bad habit, but we must reckon with it and look for a sure corrective.

Triner's American Elixir gives a quick relief. This remedy cleans out the bowels; restores appetite and aids digestion. If you suffer from constipation, flatulence, headache, nervousness, loss of energy, general weakness, try it at once. It is a remedy, no beverage. Price, \$1.00. At drug stores. FROM PERU NORMAL

Summer school begins June 11, and a big enrollment is contemplated as usual. In spite of reports to the contrary, the full summer school program will be carried out exactly as listed in the catalog.

The commencement exercises begin with the open program of the literary societies Friday evening. Saturday is senior class day; Monday, festival of music; Tuesday, the semi-centennial celebration, and Wednesday, commencement day, at which time approximately 190 people will receive diplomas and degrees.

The historical pageant to be given Tuesday evening is an enterprise of great magnitude and necessarily requires a small admission fee. The net proceeds are to be turned over to the Red Cross and the army Y. M. C. A. veterans of the civil war will be honor guests and will be admitted without charge.

It is confidently expected that thousands will attend this pageant. Arrangements are being made for the free parking of automobiles on the athletic field, which is near the pageant grounds.

A cafeteria with lowest possible prices will be run in the new training building June 2 to 6.

A faculty committee has arranged for a chautauqua to be held in Peru June 29 to July 4. The chautauqua programs will be budget events and will take the place of a summer lecture course.

A splendid recital was given last week by students from the department of voice, piano, and expression. The skillful manner in which the numbers

were rendered testifies to the character of the work being done in these departments.
