Prepared in the Interest of the People of Murray and Surrounding Vicinity Especially for the Journal Readers

If any of the readers of the Journal know of any social event or item of interest in this vicinity, and will mail same to this office, it will appear under this heading. We want all news items—Edw. Cook

THRIFT **SAFETY**

Women Are Businesslike

Statistics show that the number of women depositors is rapidly increasing.

We realize that women today are a big figure in the business world.

We pay special attention to their accounts.

Courteous tellers and clerks will gladly explain anything women want to know in the banking line.

Four per cent interest on time deposits. Our deposits are protected by the State Guaranty Law. **MURRAY STATE BANK**

H. C. Cresmer was an Omaha visitor Wednesday.

Charles McReynolds was looting after some matters of business in the county seat Wednesday.

William Troop shipped two cars of cattle to the South Omaha market Tuesday evening.

Minford & Cresmer shipped two cars of cattle to the South Omaha market Tuesday evening.

The storm of Tuesday night tore down trees that were a foot through on the Young place east of Murray.

Ben Dill was shelling and delivering his corn Tuesday. The farmer believes that the high dollar is now on and they are all anxious to sell.

Owing to the heavy storm of Tuesday evening we were unable to make our regular trip to Murray Wednesday, thus the cause for the shortage in news in the Murray department this week.—The Publisher.

Tuesday was registration day in Murray and while all male citizens of the proper ages registered there were exemptions filed all the way from the man with the wife and family down to the man who as financially embarrassed.

Dr. G. H. Gilmore and H. C. Cresmer made an auto trip to Plattsmouth Wednesday morning just after the heavy storm of the night before, and it was a sure some trip. The mud and water in some places was up to the axle of the car, but they came through. They claim the worst place between Murray and the county seat was just south and about a quarter of a mile east of the parsonage. These two bad places are most always in very bad shape and certainly need the attention of the combined efforts of the county commissioners and the road overseer.

Mrs. Roy Burton has been seriously ill for the past few days.

Henry Shoemaker was in Omaha with a car of hogs last Friday.

Miss Thorpe departed Monday for Lincoln, where she will take a training course in the State university.

John Schwartz from near Nehawka was a Murray visitor Tuesday evening, visiting at the home of Gus Hollenberg and family.

Elmer Hallstrom, who has been in the Murray State bank for some time, severed his connection with the institution last Saturday evening, going to his home in Plattsmouth for a few days' visit before taking up the duties of his new position in Omaha.

W. G. Boedecker and A. L. Baker, who served on the registration board Tuesday, gave their time gratuitously to the cause, as no doubt many of the members did throughout the state. This is a very commendable act and displays the proper spirit upon their part.

Miss Jessie Barrows has accepted a position in the Murray State bank as assistant to Cashier Boedecker, and entered upon the duties of her new position Monday of this week. Miss Barrows is one of the accomplished young ladies of Murray, and will prove her capability by making a valuable assistant in the banking business.

Ab Murdock, from near Nehawka, was stranded in Murray for several hours Tuesday night and Wednesday morning. He was on the M. P. freight train with a shipment of stock when the 16-hour work limit came upon the train crew, and they took the siding and left the train. There was no crew available for several hours and the train was left in Murray until after noon Wednesday.

GRAND TIME IN MURRAY REGISTRATION DAY

Registration day in Murray made a gala occasion, that was in marked contrast to the attitude in a number of the larger towns, and the event was the most patriotic in every way. All the business houses and homes of the town were liberally festooned with American flags, and as the young men of the community came forward to register they were greeted with words of praise from their friends and neighbors. One of the features of the day was a flag raising held in front of the postoffice in the morning. Here a flag pole forty feet in height had been erected from which to fly Old Glory, and the day selected was certainly a fitting one. The address was delivered by Dr. Jackson of the Presbyterian church, an old soldier, and was filled with inspiration to the young men who were preparing to defend the principles for which he had fought on the battle fields of the civil war. To add to the occasion a number of the patriotic songs were given that stirred the enthusiasm of the auditors, and as the fluttering folds of the American flag were planted at the top of the flagstaff, the cheers of the audience was tremendous. The patriotic people of Murray had provided a granola for the occasion and as the men appeared at the poll place to register they were greeted with the strains of "The Star Spangled Banner" Murray and First Rock Bluff precinct enrolled seventy persons for the selective draft.

MURRAY TEACHERS AND PUPILS MEET MIGHTY TOUGH TIME

From Friday's Daily.

In commemoration of the successful year in their work in the high school at Murray this year, the teachers, Miss Thorpe and Miss Livingston, arranged with the students a treat on the last day—Friday—a trip to the state fisheries in Sarpy county, just north of South Bend.

Starting when the sky was darkened by threatening clouds, three cars loaded with picnic baskets and passengers, headed westward at 8:30 a. m. Walker Gilmore drove the pilot car carrying Miss Thorpe and Miss Livingston, teachers, and Ed Krueger. This was followed by Oliver Gapsen with the second car, carrying Catherine Brown, Grace Long and Mae Loughbridge. Ivan DelesDernier with his Overland brought up the rear guard, hauling Inn DelesDernier, Elmina Engelenmeier, Jessie Brown, Lucan Davis and Nita Cook.

The object of this story is not to tell of what a pleasant time they had. That was in evidence when they returned twenty-four hours later looking like mud-heavers on a Mississippi levee. On their return trip from the fisheries the rain hit them at Louisville. The downpour became so violent when they reached the Chilton school house they were compelled to seek shelter there, and made preparations for an all-night stay.

While the main army was making preparations for bivouacking "somewhere on the Cass county highway," Walker and Ed volunteered to seek the nearest wireless station and convey a cipher message to anxious parents at home. Before they returned to camp the storm abated, and order was issued to break up in units of four and "get home any way you can."

It was a good time anyway and long to be remembered by the students. They took the slippery roads, car troubles, soaking, and all hardships hilariously. To encounter and overcome without grouch is the school spirit.

CAR OF F. W. YOUNG IS DESTROYED BY FIRE

Last Saturday an automobile belonging to a son of F. W. Young, of near Union, was wiped out of existence by fire as the result of the explosion of a composition supposed to be carbon remover and from the result it certainly did the job of removing all right. The sons of Mr. Young had been to Union and secured the can of remover and on returning home it was poured into the cylinder of the engine in their Overland car. It was only a few seconds until the composition exploded and covered the car, as well as the two boys, in a sheet of flame, and it was with difficulty that the two young men were able to make their escape, and at that their clothing caught on fire. The garage was totally destroyed and all that was left of the automobile was a few scraps of the frame. The neighbors hurrying to the scene were able to check the flames and prevent them spreading to the other buildings nearby. This car is the one that was secured by the son of Mr. Young in the Nebraska City News auto contest, and was a very valuable one. The loss of the auto was fully covered by insurance in the company handled by J. W. Holmes, of this city.

EXCITEMENT AT MURRAY.

This morning the entire population of Murray was aroused to a fever heat when someone discovered the Farmer's elevator wrapped in a cloud of dense smoke, and the alarm was at once given that the building was afire. Stores were locked up hurriedly and the residents of the town left their homes to hasten to the scene of the fire. The surprise of those who raced to the scene may be imagined when it was found that the smoke was occasioned by an engine of the great Missouri Pacific railway, which was switching on the east side of the elevator, and which was rolling forth great clouds of smoke and which caused the impression that the elevator was afire.

The Solar Sanitarium offers treatments equal to any along similar lines, and may be had at moderate cost. Endorsed by leading physicians. Write for full information. Address: **H. A. WAGGENER, M. D.** 410-412 Brandis Bldg. Omaha, Neb.

OLD LADY FEELING FINE

After Taking Four Bottles of Cardui, The Woman's Tonic.

Cobden, Ill.—"Having used Cardui, the woman's tonic, in my family, for a number of years," writes Mrs. Kate Metz, of this town, "and always with such good results, I feel it my duty to write you about it, so that you may publish my letter.

My mother is living with me, and she is 52 years old. For the last three or four years, she has been troubled a great deal with cramping spells, and for days at a time, she would have a severe headache.

She read of how much Cardui has helped other women who were sick and ailing, and decided to give it a trial. She began taking it three times a day, and since then has been getting along simply fine.

My mother only used four bottles of Cardui, but she is no longer troubled with the severe headaches, and her stomach is so much stronger that she can eat most anything.

We both feel that any lady who is not strong and well, would be greatly benefited by the use of Cardui."

Try Cardui. NCS

CROPS VALUED AT \$33,000,000 GROWN ON RECLAIMED LANDS

The Department of the Interior authorizes the following:

At present the price of foodstuffs are higher than records and purely selfish considerations call on the farmer for the greatest production in his power. Patriotic motives make the same demand and the project farmers are responding in earnest to the government's call to put in cultivation the largest possible acreage.

They are meeting the shortage in labor by unifying by districts all farm labor, equipment, and stock, with the view of transferring the same from place to place in order to cover the least possible area with the least possible waste of time and effort. Merchants, bankers and others are raising funds to guarantee the notes of needy farmers for the purchase of seed, supplies and farm equipment, and some state governors have appointed committees to assist in the work.

The result of the recent crop census on the Government irrigation projects is of particular interest at this time, when serious shortage in the food supply the world over is threatened.

In 1916 the government projects irrigated upward of 970,000 acres, the crops were harvested from 856,500 acres, the balance being in young alfalfa and in orchards which have not yet come into bearing. The value of these crops to the farmer was nearly \$33,000,000, or \$38.25 per acre cropped. The corresponding figures for 1915 were \$18,000,000 and \$24. The government also furnished water to canals not operated by the Reclamation Service, making the total acreage furnished with irrigation water from government systems of at least 1,000,000.

Our Service and What It Means to You!

A TWO-NAME GUARANTEE—OURS AND THE MANUFACTURER'S

As a rule you would rather take a two-name note than a single name note, wouldn't you?

No matter how well you might know a man nor how much confidence you might have in him, if he wanted to give you his note guaranteeing future payment of a loan, you'd just a little rather have some other reliable party share the responsibility with him.

When we sell an implement, we guarantee it to be all we claim it to be.

But behind us stands the manufacturer of that implement—he shares the responsibility with us. This two-name guarantee applies to every implement we sell—no matter whether it be an engine plow or spike-tooth harrow. Big and small purchases are protected equally.

We wouldn't handle goods of the manufacturer who wouldn't stand back of everything he claimed for them.

And so you have real assurance that you are getting just what we say you are getting when you buy from us. Both our and the manufacturer's reputations are at stake.

Drop around to the store some day—we want you to see what we have.
