The GMC line presents trucks from 1,500 pounds to 5 ton capacity. In no other factory can such a variety of trucks be found. From no other factory can better quality be had.

The records of their service furnish a dependable guide in determining what GMC trucks can do for you.

Sour Stomach.

This is a mild form of indigestion. It is usually brought on by eating too rapidly or too much, or of food not suited to your digestive organs. If you will eat slowly, masticate your food thoroughly, eat but little meat and none at all for supper, you will more than likely avoid the sour stomach without taking and medicine whatever. When you have sour stomach take one of Chamberlain's Tablets to aid digestion.

The above statement was given April 10, 1912, and on February 22, 1916, Mr. Hatt said: "Doan's Kidney Pills are surely all right, and what I said in my former endorsement holds good. When my kidneys cause me any trouble, Doan's soon put me right."
