Big Help for Red Cross.

Murray and Rock Bluffs precinct have sure done their part toward the Red Cross fund. After the meeting held a few nights ago, at which time C. A. Rawls, Judge Begley, Dr. Will Brendel and Mr. Graham made addresses, and the organization was thoroughly launched, the home committee got busy right away. After the meeting closed \$635 was raised, in a very few minutes. Murray and Rock Bluffs' proportion of the big Red Cross fund was placed at \$1,200. W. G. Boedecker was selected as chairman of the rustling committee, and with the following members got busy the next day, when \$1,414.75 was raised. The committee were, W. S. Smith, T. S. Barrows, Lloyd Gopen, C. D. Spangler, James DelesDernier, C. H. Boedscker, John Lloyd, O. A. Davis and J. H. Brown. Most everybody in the entire precinct was seen by one of these men, and most everyone gave something, as there are in the neighborhood of 150 names on the list, which we would like to print, if we had the room and time to get them in type, for a community that came to the front like this is certainly worthy of much praise. It demonstrates that there is a great deal of patriotism and willingness to "do their bit."

Electric Lights.

Will Murray have electric light in the very near future? This seems to be the leading question at the present time. The committee appointed to interview the citizens on the very important question are being met most favorably, but they are short of the desired amount needed. There has been a great advance in all electric equipment during the past two years, and this seems to be the only delay in the completion of all plans at the present time. Light is badly needed in Murray, and now is the time to install a plant, the chances are it will not be cheaper for many years, if ever. If you have not already contributed your share of the cash and energy, get into the harness right now and get busy. A good light plant will add more to the town than any other one thing that you can do. Dr. Gilmore and L. H. Puls were in Omaha Monday taking the matter up with the dealers, and will sure have the exact figures of cost and plans for a light plant suitable for Murray at the next meeting.

BARE GERMAN PLOT TO DESTROY SHIPS ON GREAT LAKES

Washington, D. C., July 2.—Secret investigation by government agents has disclosed the existence of a conspiracy to destroy or hinder shipping on the Great Lakes and delay organization of American war armies and check the flow of food and munitions material from the western states to the Atlantic coast.

No conspirators have been captured and the identity of none has been made public, but it was learned today that the state, navy and justice departments are co-operating to bring the offenders to punishment and that the Canadian government probably will be called upon to help.

This plot, engineered by Germans, assisted by sympathizing American citizens, is believed to have been responsible for the succession of "accidents" to lake shipping a month ago. Three vessels have been sunk, one burned and another disabled.

MANCHU EMPIRE IS RESTORED TO POWER IN CHINA

Deposed Prince Hsuan Tung Placed On Throne Again.

General Chang Hsun, Dictator, Orders President to Abdicate.

London, July 2.—General Chang Hsun, says a Reuter's limited dispatch from Peking, has informed President Li Yuan Hung that he must retire because the Manchu emperor, Hsuan Tung, has been restored to the throne. Another dispatch says that Hsuan Tung issued a mandate Saturday morning announcing his succession.

General Chang Hsun, military governor of Anhwei province, has taken a prominent part in the recent internal troubles in China and a dispatch from Peking, June 18, said that he had assumed the power of dictator. At that time it was reported that President Li Yuan Hung was virtually a prisoner and that his friends were not permitted to enter the palace.

General Chang Hsun is reputed to be the strongest of the military governors of China, and there has been reports that he would make an attempt to reinstate the Manchu dynasty.

General Li Yuan Hung succeeded to the presidency of China June 6, 1916, after the death of General Yuan Shi-Kai. The present difficulties of President Li arose over his refusal to uphold the decision of the cabinet to break with Germany and it had been reported that he was opposed to the entry of China into the war.

Under Father's Regency. Hsuan Tung, the son of Prince Chun, ascended the throne of China, December 2, 1908, under the regency of his father. On December 6, 1911, Prince Chun abdicated as regent, and February 12, 1912, the youthful emperor abdicated the throne and the Chinese republic was established. Since that time the emperor had virtually been a prisoner of President Yuan and Li.

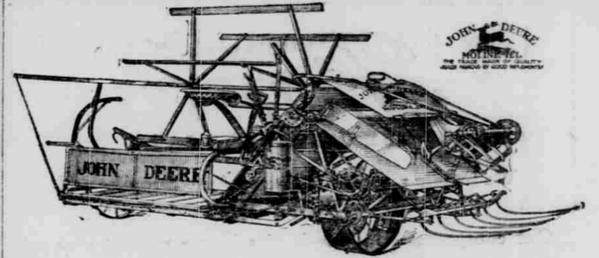

In February of this year, it was reported that Hsuan Tung would be brought to the United States to complete his education, and it was said that President Li had approved the plan for the Manchu emperor to come to the United States.

Hsuan Tung was born in 1904. He first bore the title of Prince Pu-Yi and took the name of Hsuan Tung when he was enthroned as emperor in 1908.

EXPLOITATION TO RAISE PRICES IS JURY CHARGE

Chicago Grand Jury Pays Special Attention to the Elgin Board of Trade.

Accusation Made Consumer Forced by System to Deal With Middle-Men.

Chicago, Ill., July 2.—Exploitation of war conditions to raise food prices to consumers "for the benefit of the few who are handling food products" was reported to the federal grand jury today after an investigation of several weeks.

The Elgin board of trade, where are fixed butter prices taken as standard throughout the country, received special attention from the grand jury, which pointed out that the board holds only one fifteen-minute session each week.

"It is a question whether the Elgin board is a real and bonifide market for the purchase and sale of butter," comments the report.

Trading in canned goods, the grand jury found, is carried on under a system which compelled the consumer to deal with middle-men and prevented trading directly with the canner.

Selling of Canned Corn. One result of this was given in the price of canned corn, which sold from

canner to wholesaler in 1916 at 65 cents a dozen, is now selling to the retailer at \$1.75 a dozen and to the consumer at a still higher price.

The report urged legislation to prohibit cold storage companies from holding large amounts of perishable food products in warehouses, which the grand jury said leads to speculation and higher prices. Reports under oath to the government on the amounts of food in cold storage was recommended.

Because of the short time the grand jury had for its work a thorough examination was not possible which would have warranted indictments. Robert W. Childs, special assistant attorney general, said another jury would be called soon to continue the investigation.

Circulars Sent Out.

Among documents obtained by the grand jury in its investigation were two circulars sent by two wholesale food dealers to jobbers and salesmen. One of these said:

"Raise your prices now on everything we have advised you will advance. You can get the extra price this week as well as next."

Another circular read: "Our customers have very unusual profits within their grasp at this moment. Will they throw them away or tuck them away?"

"Of what earthly uses are futures if the benefits are wantonly wasted?" "No man ever got very far on the road to competency who was a wise buyer, but a spineless seller."
