The barn was pretty well filled with hay, and it is believed that the new alfalfa was the cause of the fire; there is no other origin attached to the cause. One stallion and a jack was also burned, being all the stock that was in the barn at the time. TWO THRESHING OUTFITS.

From Tuesday's Daily.

R. L. Probst is energetic in all things, when he goes after a proposition with the idea of getting the most out of it, and he is demonstrating this fact by the manner in which he is handling his business. He has two threshing outfits, both of which are running full blast. One of the machines, in charge of James Speck, is at the farm of Oscar Gopen, and threshing out oats, reported to be turning out a good yield of fine grain. The other is manned by Frank Blatzler, working at the Dovey section, where it is doing fine work and also getting good grain.

FROM PERU NORMAL.

On Thursday, August 2, Honorable Jaul Jessen of Nebraska City, will deliver the commencement address. On that date six students will complete the work for the degree of Bachelor of Education; forty-six will receive diplomas; twenty-six, the Junior certificate; three, the Trainers' certificate, and 163, the professional life certificate. Out of approximately 800 graduates from the four state normal schools during the last two years, Peru will have graduated nearly 400.

A fine motion picture machine will be installed in the normal school this fall.

One of the most recent movements in Peru for the benefit of worthy students is the organization and development of a student loan fund association. Already several hundred dollars is in sight to start the work. Interested and loyal friends of the normal school and members of the alumni are placing money at the disposal of the student loan fund board, to be loaned at a low rate of interest.

The infirmary department of Peru will be really organized somewhat this fall. A course in the Red Cross work will be offered by the newly elected nurse, who is a Red Cross nurse. This course will be open to the students and other citizens of southeastern Nebraska.

Miss Rose Clark will do institute work in Cass county. She is Peru's very efficient teacher of geography.

The Cass County club had a very enjoyable picnic supper Tuesday of last week. About thirty were present.

The carnival for the benefit of the Y. M. C. A. army fund netted \$100. This sum, added to the contributions of the faculty and business men brings Peru's contribution up to \$350.

The boys of the normal challenged the faculty to a base ball game, and which was played Monday evening. When the smoke of battle had cleared away, it was found that the boys had won, by a score of 11 to 5.

CALLED AWAY ON ACCOUNT OF DEATH.

From Wednesday's Daily.

John Wichman received a message a few days since telling of the death of his brother, Dave Wichman's, daughter, who lived near the city of Brainerd, Minn. Mr. John Wichman departed yesterday for that place to attend the funeral of his niece. David Wichman will be remembered to have lived here years ago, and was employed in the Burlington shops, but who left here for the north, and has since been engaged in farming. The daughter is a young lady probably about 25 years of age, but as to what was the cause of death is not known.

TO WINTER IN CALIFORNIA.

Mrs. Ed Johnson, who has been visiting in this city, from Denver, and has been a guest at the home of Elmer E. Taylor for the past week, departed this morning for Burlington, Ia., where she lived before moving to this town, over forty years ago. After completing her visit there she will go to Oklahoma for a month's visit with a daughter before returning to her home in Denver. After a short stop in Denver she will go to California and spend the winter with her son, William Johnson.

SPEND WEEK IN WEST.

Chas. Good, the blacksmith, of Murray, who has been in the west, visiting while away at Cheyenne and Denver, Colo., and Billings, Mont., and other points of interest in the west, said that the hottest place he visited was at Billings, and that he was glad to get back to old Cass county again. He came in this afternoon, and after visiting here with friends for a few hours, departed for his home in Murray.

PUTTING IN HEATING PLANT.

From Tuesday's Daily.

Henry Boeck is having a larger heating plant placed in his cellar for the Boeck building, which comprises the store of E. A. Wurl and the apartments above, which Mr. Boeck occupies and rents. Mr. John Reuland is doing the work of installing the new heater, and while help short, Mr. Boeck, although now 84 years of age, is doing the tending for the mason. This evidences a good deal of pep for Mr. Boeck, for it is a real man's work to tend a mason and especially where the difficulties are as great as they are in this case.

It is inexpensive; it lasts a lifetime; it is guaranteed to do precisely what we claim for it, so don't take any risk. If you are not satisfied with your bargain we will take back the oiler and cheerfully refund your money.

Lice spread from hog to hog and multiply most as fast as you can count; they keep hogs thin and lean looking and make them restless. Hogs tortured by lice can't take on weight or develop into stock that bring the best prices, because these pests don't give the animals a chance to develop in a natural way.

RUN INTO A FIERCE STORM.

From Wednesday's Daily.

Yesterday James Marucek and wife were visitors in Omaha, going in their car, their object being to visit with Mrs. C. M. Manners, who is at the Immanuel hospital. They spent the day with her, and found that lady doing nicely, and with hopes of being able to leave the hospital in the near future. When they started to return home, the storm of last evening caught them just this side of South Omaha, where it was violent, and nearly blew the car over. The storm was so bad that they had to stop for a while, until the fury of it was somewhat abated, before they could continue their journey home.

MRS. A. D. HASS IMPROVING FROM AUTOMOBILE ACCIDENT

From Tuesday's Daily.

Mrs. A. B. Hass, who it will be remembered suffered from an auto accident in which she was thrown out of the car, and which passed over her, is still at the hospital in Omaha, where she was taken. Mrs. Hass has had a severe time with her injuries, having had to undergo three operations. At the beginning the broken limb could not be set on account of feared blood infection. The thigh bone was allowed to knit, and afterward an X-ray picture taken of it, showing only a thin cartilage connecting the ends of the bone, which had slipped past each other. The bone was broken to be set, which had to be repeated after a space of time, and later, when it was found that the healing was not responding as was desired, a piece of fiber tissue for the growth of bone was grafted in order to grow a stronger bone at the point of breakage. She is now showing signs of improvement, but will have to remain in the hospital for some time yet.
