Known To The Nation As The Sensible Six

\$945 F. O. B. FACTORY.

Possesses important feature of design which are found also in those higher priced cars as embodying the very latest and best engineering practices. These superior features, which for two years have distinguished the Oakland Six as a car of unusually advanced design, and which are now employed in the latest models of many of the more costly cars, not to be found in their entirety, in any of the other cars in the Oakland price-class. As a result, the Oakland Sensible Six, in the estimation of the buying public, is raised above the plane of its price, and naturally is compared to and competes with cars of considerable higher price than its own.

### THE CASS CO. CONTINGENT IN "DANDY SIXTH" AT OMAHA

From Saturday's Daily.

The Cass county contingent of the Sixth Nebraska infantry which is in the machine gun company of the organization, has not as yet experienced any of the hardships of real warfare beyond the inoculation for typhoid fever and the vaccination which was administered to them at the Auditorium, where the headquarters are maintained, on last Tuesday. The boys were very much under the weather for a few hours, but are now feeling fine and ready to mix with the old Kaiser over in Berlin. Time has hung rather heavy on the hands of the boys, most of whom have been used to active lives in different trades and professions, but with the commencing of the drilling and training to be soldiers there will not be a great deal of extra time for them to waste. Each night the bugle sounds "lights out," and the lads retire to dream of future days on the European battle fields, until the morning call summons them to arise, clean up the barracks, make the beds and prepare for their breakfast. The machine gun company has been given the best of attention and are fed good and plenty, and each mealtime Sergeant Mackay, with his meal tickets, is a most welcome visitor.

The ladies of Omaha yesterday treated the boys of the Sixth to a treat in the shape of 600 pies, which were divided up and given out to the cheering and delighted members of the different companies.

The fact that no one from Cass county was rejected is a showing that the county can be well proud of, and the members of the regiment from this county will see that there is a good record made for old Cass on the battle field.

The machine gun company will be fully uniformed by next week and ready for the orders, "On to Deming," and to Berlin via France.

### FAREWELL BANQUET TO DR. E. W. COOK THURSDAY NIGHT

From Saturday's Daily.

Thursday evening at their hall in the Coates block, the Fraternal Order of Eagles gave a farewell banquet to Dr. E. W. Cook, and had a general good time. Dr. Cook has been the examining physician for the order since its organization, and the friendship of the members for their doctor has grown with the years. As testimony of their esteem this banquet was arranged. During the progress of the feast Mayor J. P. Sattler, in a few well chosen remarks, made a presentation address, in which he told of the feelings of the order for the member who was soon to leave Plattsmouth, and said that "they wished to leave with him a token of their feelings toward him," and presented him with a gold-headed umbrella with his monogram engraved upon the handle. Dr. Cook responded to the address and told the members how he appreciated their friendship, and this expression of it. He also wished the lodge and all its members prosperity and happiness in the years to come.

### Cosmopolitan Give Banquet

From Saturday's Daily.

Last evening at their rooms, the Cosmopolitan club of this city gave a farewell banquet to their member, Frank H. Smith, who has joined the "Dandy Sixth" regiment and goes to the army to uphold the cause of the United States. The club, of which Mr. Smith has been a member since its inception, desiring to extend him their best wishes and to show with what regard they hold him, gave this banquet in his honor. There were present about twenty of the members, and the evening was very enjoyably spent in speechmaking, with Mr. W. R. Holly as the toastmaster. Many of the members responded to different toasts, at which they proved themselves very proficient. At the last Mr. Smith responded with a clear cut exposition of what the "Dandy Sixth" expects to do to the Kaiser when they go to France. From the tone and spirit of his utterances, no one could help but know where he stood on the question of patriotism. The best wishes of the club go with him as he steps forward to respond to the call of the country. The banquet was served by the Wagner restaurant.

B. Hempel. After she had gotten so she could be up and around, the physician thought she would progress faster here than in Omaha, as here she could be where she could be more quiet and rest her nerves, as she has been suffering from severe nervous strain while in the hospital. Her many friends here will be pleased to know that this good lady is again on the road to good health.

### Garages Must Keep Record

From Saturday's Daily.

It is understood that several garages are paying but little attention to the new law which requires owners and keepers of garages to maintain a record book in which shall be entered a description of every car brought in for repair or storage, together with the name of the owner, his home, destination and other necessary information. County attorneys throughout Nebraska have decided that these records must be kept carefully and that every garage shall keep its record on display for ready reference. The purpose of the law, of course, is to prevent thefts as much as possible, for cars with changed engine and license numbers can be traced in this manner quite readily. The garage owner who says it is too much trouble to keep the record is quite likely to get into serious trouble if he neglects his duty in this regard.—Nebraska City Press.

### THE EXEMPTION BOARD.

The board will be in session again Monday taking up the further work of passing on the various claims which have been accompanied by affidavits. The time limit for the filing of the affidavits is August 17, at which time the last must be examined, while the others who have complied with this part of the proceedings will be passed upon at an earlier date.

### HAS COME TO STAY.

From Saturday's Daily.

How merrily the hammers play on the steel plate in the steel car shops now-a-days, especially when the big hammer is wielded by John Rhoades. Why, do you ask? Well, the stork left a wee bit of humanity at his home yesterday and John and his wife are going to keep it for their very own. It cannot say, "Papa" as yet, but it does make a kind of a noise which John understands. Here is to you, our dear little Miss Rhoades, hold the boards as long as you can; you can have the floor now.

### Buys a Home in Plattsmouth

From Saturday's Daily.

Theodore B. Farmer, who has lived in Plattsmouth for the past three years, and has been engaged in the Burlington shops for the time, has thought Plattsmouth a good enough place to make his home; and the other day purchased a piece of property for that purpose, the consideration being \$1,000, and is enabled to pay for the same at a figure by monthly payments, which is no more than he would have to pay in rent. The place secured is what is known as the "Old Peter Raven Place," situated on South Seventh street, purchased from Mrs. Dan Moore. In the purchase of this place we consider Mr. Farmer has exercised good judgment, and many other men who are working in the shops or elsewhere, could thus have a home at small cost, but little above what they pay in rent. Then they have an interest in the city, and are for it, and thus incidentally are helping to make the town in which they live "The Best Town."

And our people will all have good crops." He also stated that he thought the corn nearer the river is looking slightly better than that further out.

Mr. Nickel is engaged in conducting an opera house at Peoria, while he makes his home at Pekin. He is spending a few days with his uncles and looking over the west. From Saturday's Daily.

George R. Sayles, who operates the Oreopolis and Cullom elevators for the Duff Grain company, was out to Cullom the other day, and having gotten through with the matters in hand, thought he would stroll down to the "East Sand Pit" and see what was doing. Here he found the men busy, with G. A. B. Hicks among the busiest. Mr. Sayles watched them load sand, and the manner is by pumping the sand and water from the pit with huge pumps into the cars. One would scarcely think it possible to load a car so rapidly, as it is not a rare thing that an 80,000 capacity car can be filled in from seven to ten minutes. When noon came Mr. Hicks insisted that Mr. Sayles stay for dinner with him. Mr. Hicks and John Heiner, the engineer, batch, in a bunk house which has stood there for thirty years, and never had a speck of paint upon it.
