HOW THE LITTLE RIPPLE GROWS!
If you cast a stone into a pool it starts a ripple, that expands in constantly widening circles. How like that stone is this store, and how like the pool is this community in which its fortunes are cast.

Our little circle on entering has widened and widened, and is still widening, and as it increases, so does this store expand to accommodate its broadening trade.

But we've only begun. We expect to grow broader, bigger still, with your help, of course. To earn this help, we pledge you the same fair dealing, the same fair service, the same splendid values that have been a part of our store keeping system since the first ripple started.

WHAT CAN I DO IN AN HOUR?

Without leaving your home town, in some cases without passing through your gate or crossing your threshold, you can serve your country in working units which, properly directed, can be made to form a woman army, defensive and offensive, without precedent in the history of our country.

Together, you women scattered through forty-eight states, and we, a handful of workers in a city skyscraper, can turn out an army of a million intelligent, earnest, organized women on which our country can depend for service which its men cannot render, which the nation's bonds cannot buy.

Will you enlist with us in this service?

Your country needs you. The colors call to each one of us. You may not hear the call today, but sometime it will reach you, no matter where you are, behind a desk, a counter or a loom; in the noisy city, the quiet village, or the lonely farm.

So, why wait? Why not answer the call today and help, when your government is mobilizing its forces for victory? Wouldn't you rather be in the first big drive for home defense, than to wait until your individual circumstances force upon you the realization that you must serve, or suffer? Wouldn't you rather volunteer than wait to be drafted? Join, and help the Red Cross.

\$100 Reward, \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is cataract. Cataract being greatly influenced by constitutional conditions requires constitutional treatment. Hall's Cataract Medicine is taken internally and acts thru the blood on the mucous surfaces of the system thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in the curative powers of Hall's Cataract Medicine that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. HEAVY FIGHTING ON THE RU-MANIAN LINE

Petrograd Announces Desperate Engagements with the Germans Beaten in Center.

Paris Declares French Resume Counter Attacks North of Quentin.

Desperate fighting between the Russo-Rumanians and the Teutons continues in southern Moldavia.

Field Marshal von Mackensen is using strong forces in an endeavor to break through the entente line toward the railroad junction of Tecutchiu. The Russians and Rumanians are resisting valiantly, but have been forced to give up positions north of Fokskani.

A Russo-Rumanian retirement to the villages of Maraschti and Furenti, on the Sereth river, is reported by Petrograd. In counter-attacks preceding their retreat the Russians took 1,200 prisoners.

Take 6,700 Prisoners. Berlin says that Von Mackensen's troops captured more than 6,700 prisoners as well as eighteen cannon and sixty-one machine guns.

Around Oena, near the Transylvanian border, there has been intense fighting with the Teutons forcing a Rumanian retirement northward to Oena. The Russians have assumed the initiative at the confluence of the Buzen and Sereth rivers, south-east of Folshani and in the region of Galatz. Part of the Teuton positions were captured by the Russians, who also took some prisoners, four cannon and eight machine guns.

Repulse Teuton Attacks.

Petrograd, Aug. 12.—Desperate engagements are being fought by the Russo-Rumanian forces and the Austro-German armies along the Rumanian front. In the center of this battle line, according to today's Russian official statement, the Russians and Rumanians yesterday repulsed strong Teuton attacks along the Fokshani-Maraschti railroad and then counter-attacked and captured 1,200 Germans only to retire later in the evening.

In southwestern Moldavia the Russians took the offensive, smashed the Teuton lines and captured a number of prisoners and four guns.

In western Moldavia the Austro-Germans after battles of great intensity, forced the Rumanians to retire to Oena.

A BIRTHDAY PARTY.

Friday evening a number of friends of Mrs. G. R. Olson gathered at her home and tendered her a very pleasant surprise, it being her birthday anniversary. Much pleasure was derived from music, social conversation and progressive high five, which was indulged in for several hours. At a suitable time delicious refreshments were served, and at a late hour the guests dispersed, wishing Mrs. Olson many more happy birthdays. Those in attendance were Mesdames F. G. Egenberger, J. V. Egenberger, J. Hinz, R. Guthmann, Wm. Weber, Elizabeth Guthmann, Henry Steinhauer, H. G. Heneger of Carroll, La.; Eugene Setz, J. Hadraha, Blanche Price and daughter; Misses Helen Egenberger, Janet Weber, Helen Hadraha, Esther Haufman, and the niece of honor, Mrs. Olson and daughter.

SURPRISE FOLKS HERE.

J. R. Smith, wife and family, of Norton, Kansas, surprised their cousins here, Mr. and Mrs. Guy Smith, and Mr. Sam Smith, when they dropped in upon them today with their car, coming from Norton, Kansas, in the last two days. They will also visit at Auburn, with the parents of Mrs. Smith, Mr. and Mrs. Chas. Osborn, after they have completed their visit in this city. Mr. Smith was agent for the Dodge Bros. motor car last year in his home town in Kansas, but has not been selling the car this year. Having one left when he quit selling them, he kept it for his own use and is now using it to tour the country with.

HORSE KILLED BY LIGHTNING.

Just before the storm which covered this vicinity last Saturday evening, and which was accompanied by such a downpour of rain, the lightning was vivid and flashes seemingly covered the whole sky, accompanied by peels of thunder, the sky looked very threatening. A valuable horse, owned by Mr. C. F. Vallery and which he had in the pasture not far from his home, was struck and killed by lightning. The horse had been purchased not long ago at a price of \$200. An insurance policy was carried on the animal, which will practically remunerate him for its loss. While the getting of a portion of the value of the horse in money is a god thing in case of loss, it does not open a way for the purchase of another animal, which is badly needed on the farm, for horses such as one wants are often difficult to obtain.

SPURS WAR PREPARATION

Hoover Plans Assault on the Strongholds of the Wheat Speculators

War Department Centers Attention on Delayed Army Cantonments and Will Rush Them to Early Completion.

Washington, Aug. 12.—The end of tonight far advanced in its preparation another week found the government ready to battle kaiserism to its knees.

The food control and survey bills having become laws, Herbert C. Hoover was laying the ground work for a vigorous assault, beginning the first of the week on the strongholds of the wheat speculators in the country. The agricultural department has already launched a nation-wide survey to determine actual food need and the amount of supplies. Admitting a shortage of 250,000,000 bushels of wheat looms ahead, far-reaching steps are to be taken to conserve the supply. Available supplies in other countries also are being inquired into.

The shipping board, having approved today great contracts for additional tonnage—both wood and steel—began preparation of estimates for nearly a billion dollars more from this congress. At this time it was officially admitted that the requisition of vessels flying the American flag already has begun. The first of the vessels being taken over by the government are to be used for the transport of the supplies for the U. S. camps in Europe.

Some delay threatens in moving the national guard south for training. Guard camps scheduled to open August 15, will not be ready for from two to four weeks after that date. A detailed report submitted to the war department today shows that only one camp—Greenville, S. C.—is ready. Advance detachments have been sent there to pitch camp.

Postponement of guard training makes it almost certain a majority of these troops will not see service in France before spring. Some, however, will go to France this fall.

Reports gathered from all continents by the United Press today indicate most of these will be ready for the new national army, the first 200,000 of which will leave for the training quarters probably September 5th. The bomb in war work was met with a threatened peace outbreak in congress—supported by the members of that group termed the "willful twelve." Some want a re-statement of peace terms by all allied governments. LaFollette started the movement with a resolution calling for such declaration today.

HELD FAMILY REUNION.

Yesterday at the home of Mrs. F. D. Lehnhoff and daughter, Miss Tillie, occurred a meeting of all their immediately family, as well as Mr. and Mrs. A. C. Frampton, of Lincoln, and Miss Nellie Lehnhoff, also of that city, who are cousins. Mr. and Mrs. Frampton have just been to Lake Okoboji, Iowa, for a two weeks' outing, and stopped in this city for a visit over the week-end with their cousins. Mr. and Mrs. George B. Lehnhoff and children and Mr. and Mrs. Fred W. Lehnhoff came down yesterday morning from Omaha in their car, making a good sized crowd at the old home. The Lehnhoff boys and families returned home last evening in their car, while Mr. Stranton departed for home this morning. Mrs. Frampton and Miss Lehnhoff went on to Schuyler this afternoon.

You will find a fine line of birthday cards at the Journal office.

HOT FIGHTING ON WESTERN FRONT AGAIN RESUMED

Germans, French and English Renew Fierce Activities Following Recent Inaction.

Forces of the Central Powers and Russo-Sumanian Troops in a Deadlock on East Front.

London, Aug. 12.—After a period of almost winter-like deadlock on all fronts, due in part to weather conditions, active fighting is now in progress with offensive movements being launched at various points by both allied and Teutonic forces.

From Flanders on the west front on across the battle line to the Aisne and Champagne regions, the British, French and German armies are exchanging blows.

In Galicia Russians, Rumanians and Germans and Austrians are locked in a series of battles, which have been in progress for four days.

Both British and French progressed today, despite counter-attacks launched by the Germans, who claimed ejection of the English in the region of Westlook.

A local reverse was reported by Field Marshal Haig tonight.

"North of Ypres-Menin road enemy attacks on our new positions, after heavy fighting, resulted in pressing back our lines to Glencourse wood," his statement said.

Teutons Lose in Flanders.

Heavy fighting was again in progress north of St. Quentin. Near Flanders, the war office announced, the Germans were thrown out of a greater part of the gains they made on the nights of the ninth and tenth. South of Ailles, a brilliant attack won important trenches for the French. Several counter-attacks were repulsed.

The Germans launched an attack on a three kilometer front, after heavy bombardment in the region of Corbillet. They made several attacks, coming forward in waves, but the French broke down the advancing lines with heavy losses. The French then advanced their line, repelling strong counter-attacks. The Germans raided Nancy from the air, but there were no casualties.

British aeroplanes bombarded the Ghistelles aerodrome, several railway stations and other military works.

On the eastern front the Germans attacked in the Brody region. Their assaults were broken down, Petrograd reported. The Rumanians have displayed stubborn resistance in the battle that is raging on that front. After giving way in the Suchitza river section, the Rumanians returned to the attack and regained the lost ground.

French Hold Lines.

Paris, Aug. 12.—Continued German attacks against the French lines in the Aisne region were unsuccessful the war office reported tonight. In Belgium lively artillery duels are continuing.

"North of St. Quentin and east of Fayet, a German attack was repulsed. About Mount Traut Friday night two enemy attacks were unsuccessful, as were attacks at Mount Blond," the statement said. "We downed two German aeroplanes yesterday and a couple more descended in their own lines badly damaged. We bombed the aviation ground at Schlestadt."

CASE AFTER CASE

Plenty More Like This in Platts-mouth.

Scores of Plattsburgh people can tell you about Doan's Kidney Pills. Many a happy citizen makes a public statement of his experience. Here is a case of it. What better proof of merit can be had than such endorsement?

Mrs. Harry Kuhney, Eighth and Pearl streets, Plattsburgh, says: "I couldn't say anything but good words for Doan's Kidney Pills, for I know from personal experience that they are all that is claimed of them. I use Doan's whenever my back aches and my kidneys are not acting as they should, and they never fail to give quick relief. We use Doan's Kidney Pills in our home whenever necessary for kidney trouble, and they always give good satisfaction."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Kuhney uses. Foster-Milburn Co., Props., Buffalo, N. Y.

RUSSIA GETTING ON FIRMER SOIL

Drastic Steps Taken by Government to Strengthen Her Foundation.

Washington, Aug. 12.—Russia is taking drastic steps to strengthen her military, financial and international situation, the Russian embassy here announced today.

Premier Kerensky has issued another order to all Russian commanders to spare no efforts, however rigorous, to eliminate treason and cowardice from the army.

The Russian government will issue orders to all Russian consular agents in the United States to restrict importations to Russia. The reason for the orders given by the embassy, is that promiscuous buying of goods destined for Russia has served to demoralize the exchange of commodities and lower the value of the Russian ruble.

The Russian Liberty loan is meeting with great success, the embassy announced.

Many regiments are subscribing to the loan.

Russia has abolished the office of procurator of the holy synod. Instead a ministry of religious cults has been created. M. Kartasheff has been appointed to fill the post. This is regarded as an important internal reform in the direction of religious tolerance.

STATE COUNCILS AT COAL PARLEY

Urge Sixteen Defense Councils to Attend the Illinois Conference.

Chicago, Aug. 12.—Illinois victory in effecting regulation of coal prices took on national significance tonight when councils of defense in fifteen states were urged by wire to attend a conference here Thursday to aid in establishing federal control of coal.

The councils invited include Indiana, Iowa, Kansas, Kentucky, Minnesota, Michigan, Missouri, Nebraska, North Dakota, Ohio, Pennsylvania, South Dakota, Tennessee, W. Virginia, Wisconsin and Illinois.

Illinois price cutting program is expected to receive its first test when Justice Carter of the Illinois supreme court state coal director, armed with power to fix mine mouth and retail prices, meets coal operators.

Operators have agreed to sell coal at a price to be named by Justice Carter and maintain a supply adequate for Illinois consumers, the telegram to the state councils says.

The terms under which the price cutting program is to be operated will be explained at the conference.

ALLIED FLIERS HIT AT HEART OF GERMANY

Paris, Aug. 12.—Two French aviators yesterday dropped bombs on Frankfurt-on-the-Main, one of the most important cities of the German empire, having a population of more than 300,000. A French official statement announcing the raid says it was in retaliation for the German aerial bombardment of Nancy and the region north of Paris.

Both French machines returned undamaged.

Frankfurt-on-the-Main is one hundred and sixty miles within the German lines.

Summer Complaint.

During the hot weather of the summer months some member of almost every family is likely to be troubled with an unnatural looseness of the bowels, and it is of the greatest importance that this be treated promptly, which can only be done when the medicine is kept at hand. Mrs. F. F. Scott, Scottsville, N. Y., states, "I first used Chamberlain's Colic and Diarrhoea Remedy as much as five years ago. At that time I had a severe attack of summer complaint and was suffering intense pain. One dose relieved me. Other members of my family have since used it with like results."
