### IN MIDST OF THE ROCKIES.

From Saturday's Daily.  
For two months Rachel Livingston, and Deulah Sans, were in the heart of the Rockies, amidst solitude, on one hand and grandeur on the other. The Rockies with their towering cliffs, reaching the sky, gave a person an impression of the greatness of the Maker of it all. In Estes Park, they spent a great deal of time, in viewing the wonders of nature, going often on foot many miles per day, and with the swiftness of the mountain air, made it a pleasure instead of a task to walk miles a day. From Estes Park they went to Denver, where they saw a mighty city in the midst of the mountain fastness. To Colorado Springs, and vicinity was the next place to which they went. Here is the delight of all tourists, and it is here that Pike's Peak shows to the eternal snow can be seen any clear day from its streets.

Manitou, with its wonders is an ever interesting place for the traveler, and here they spent a while in the museum of the world, made by Nature. From there to Pueblo and Boulder, all interesting and instructive. This kind of trip gives the teachers a fund of information which enables them to interest the most uninteresting pupil, and reclaim him from his pranks, and dislike to study. They returned home a few days since thinking that the time spent was well paid in the benefits to health, and information which they received.

## ITALIAN TROOPS ARE CONTINUING HEAVY FIGHTING

Austrians Pushed Back On Monte San Gabriel and in Bresto-Vizza Valley—636 Men Taken.

### FRENCH HOLD THEIR POSITIONS

Berli Reports Russian Failure of Offensive Southeast of Dvinsk On Eastern Front.

### TEUTONS BEATEN AT LENS

Rome, Aug. 31.—Heavy fighting continues on the Bainsizza and Carso plateaus. The war office reports advantages were gained on Monte San Gabriel and in the Brestovizza valley, and what 636 more prisoners were taken.

### French Fire Effective.

Paris, Aug. 31.—East of Courcy a German patrol which attempted to approach our lines was repulsed by our fire," says today's official statement. "There was active artillery fighting on both banks of the Meuse. In Alsace an enemy attack south of Hartmannsweilerkopf was repulsed completely. There is nothing to report from the remainder of the front."

### Germans Halt Slavs.

Berlin, Aug. 31.—Operations undertaken by the Russians yesterday at Narocz lake, sixty miles southeast of Dvinsk, resulted unsuccessfully for them says today's official report from the eastern front.

A portion of the ground recently gained by the British south of Leclercq has been recaptured by the Germans, the war office announces.

### British Stop Enemy.

London, Aug. 31.—The repulse of a German raid on the front below Lens is reported in today's official communication. The statement follows: "The weather is unsettled. During the night the enemy heavily shelled our forward positions near Arleux-En-Gohelle (five miles southeast of Lens) and at an early hour this morning attempted to raid our lines. The German troops were repulsed completely."

### Gen. Maurice's Weekly Report.

London, Aug. 31.—The last week has been marked by a pause on all the western front—a pause which was inevitable after the great successes of the previous week, a pause accentuated by the bad weather that affected the operations all the way from the North sea to the Italian seacoast," said Maj. Gen. F. B. Maurice, chief director of military operations at the war office, in his weekly talk to the officials.

"At the moment it is the Italian front where the situation is the most interesting. Here also, after a really important advance, there now comes a pause pending the readjustment of the artillery positions. There is much more to be done during these pauses. The problem is whether General Cadorna will be able to get his guns posted for the renewal of operations before the Austrians get up adequate reserves, some of which are being brought from the Russo-Rumanian front. That is the problem in the pauses in all these battles—the race between the preparation of offense and defense.

"In Flanders the process of wearing down the Germans by continuous bombardment, continuous air fighting and continuous infantry raids, is being kept up and is having a far greater effect than is generally realized. This effect is shown in the constant necessity imposed on the Germans of withdrawing and replacing units.

"We now are in the first phase of the Flanders battle. We are exhausting with good success the German reserves, and later will come the second phase to which we are all looking forward confidently."

"On the Russian front there has been another regrettable incident," namely, the voluntary withdrawal of certain Russian units near Czernowitz. The result was negligible, but it serves to show, in conjunction with General Korniloff's speech, the state to which the Russian army has come and makes it even more remarkable that the Germans have been unable to achieve more.
