REICHSTAG MAJORITY GROWS STILL BODLIER

Its Representatives Warn Government Again Certain Reforms Must Come Soon.

Kaiser's Speeches and Foreign Office "Denials" Freely Criticized in Committee.

Copenhagen, Aug. 31.—A warning that unless the German government heeds demands of the reichstag for reforms, the majority parties will take measures, was given before the reichstag main committee on Wednesday.

Resolutions of the majority introduced by Dr. Karl Heine, socialist demanded for the fourth or fifth time abolition of the political censorship and limitation of the military censorship to facts connected with the conduct of the war and criticism thereof. This was held to be necessary because it is notorious that the military authorities exercise a sweeping political censorship of the German press on the pretense that publications of a political nature may affect the military spirit of the people. Dr. Heine gave the government four weeks until the assembling of the reichstag to mend its ways. Otherwise he said reichstag majority will be forced to take steps.

The government has received some half dozen earlier warnings of a similar nature and its response in the present instance will not be an unfair test of the influence of the present majority in the reichstag.

Speeches and pronouncement of Emperor William were criticised in the debate on the censorship. Matthias Erzberger, centrist leader, and Dr. Heine called attention to the effect caused by the emperor's impulsive statement which sometimes ran counter to ostensible policy of the government.

Although not mentioned in the censored accounts of the committee's proceedings, the emperor's critics probably had particularly in mind his recent utterances in regard to England, which he pointed out as Germany's arch enemy, which must be defeated at any cost.

Dr. Heine appears to have demanded freedom for the press to discuss such utterances of the emperor.

Herr Erzberger asked whether Chancellor Michaelis assumed responsibility for what was said by the emperor. Foreign Secretary Von Kuehlmann replied that the representative at Great Headquarters of the foreign office as informed concerning the speeches and that the chancellor assumed responsibility.

As had been expected, the misleading "denials" by the foreign office of Premier Kerensky's statement that a separate peace offer had been made recently to Russia and of the message said by former Ambassador Gerard to have been sent by Emperor William to President Wilson at the outbreak of the war, were brought up for criticism. Herr Erzberger said the official communication were coming into wide discredit abroad owing to the many self evident contradictions in them.
