Known To The Nation As The Sensible Six

\$945 F. O. B. FACTORY.

Possesses important feature of design which are found also in those higher priced cars as embodying the very latest and best engineering practices. These superior features, which for two years have distinguished the Oakland Six as a car of unusually advanced design, and which are now employed in the latest models of many of the more costly cars, not to be found in their entirety, in any of the other cars in the Oakland price-class. As a result, the Oakland Sensible Six, in the estimation of the buying public, is raised above the plane of its price, and naturally is compared to and competes with cars of considerable higher price than its own.

RESOLUTIONS.

Whereas, There was published in the Plattsmouth Journal on September 1st and 3rd, 1917, a resolution purporting to have been adopted by the Cass County (Nebraska) Chapter of the American Red Cross, condemning the Plattsmouth Library Board as being "unpatriotic and un-American," and

Whereas, Said resolution contained false charges, in this: That the Library Board refused the Red Cross permission to meet in the Auditorium of the Plattsmouth Public Library, and based the charge thereon that the Library Board is unpatriotic and un-American. The truth is that the Red Cross society never requested of the Library Board permission to use the Public Library for its meetings and no action one way or the other was ever taken on the matter, nor has the Library Board ever instructed its President or individual member to grant or refuse permission for the Red Cross society to meet in the Library; that the members of the Library Board are members of the Red Cross and contributors to the same.

Therefore, Be it Resolved, By the Plattsmouth Public Library Board in special meeting assembled, that the resolution of the local Red Cross society is false, unjust, unkind and ill-advised.

That these Resolutions be for-

warded to secretary of the Red Cross, a copy thereof be forwarded to secretary of the National Red Cross, officials at Washington, D. C., and that a copy be sent to the Plattsmouth Evening and Semi-Weekly Journal for the same publication as given to the Red Cross.

ATTEND STATE FAIR.

Cornelius Benger, and family, were visitors at the state fair yesterday, and saw the great display of the products of the state. The family went overland in their big six Overland car, and starting early had a fine ride, getting there early and seeing the entire fair, and which was a great fair, having in attendance thirty-three thousand persons. In the evening they returned, making the distance in a short time and having spent good day at Lincoln, were home in good time. This would have been impossible a few years ago, but with a car like they have is easily made in a few hours.

THREE WEEKS IN THE WEST.

From Wednesday's Daily.
After visiting in the west for the past three weeks, Mrs. Val Burkel returned home yesterday afternoon, and reports having had an excellent time on the Pacific coast. Mrs. Burkel was visiting at Tacoma, Washington, with her sister, Mrs. F. D. Foster, and was there most of the time while away.

She tells of visiting the camps, near the city of Tacoma, where 40,000 troops are quartered, and of the building of ten houses per day for barracks, and that there will be 1,500 permanent houses built for the officers, which are to be at that place. Going through the place where the work is in progress is like going through a boiler shop, and nearly as deafening. Mrs. Burkel thinks Tacoma a wonderful place, and especially lively since the preparations for war is in progress.

On her return trip, Mrs. Burkel stopped along the route to visit with friends, and was at Spokane, where she visited with the mother of Mrs. P. F. Goos, Mrs. G. C. Wilkie. Here she had an excellent time and was like meeting some one from home to meet one of the folks of a neighbor.

OUR NEW SUPERINTENDENT.

The county commissioners yesterday evening appointed Miss Alpha Peterson, county superintendent of schools to succeed Mrs. A. L. Cockel, who handed in her resignation to the position some days since, and which was acted upon yesterday by the county commissioners now in session. In the appointment of Miss Peterson to the position of county superintendent, commissioners have demonstrated their keen knowledge of the requirements of a person for that position, and knowing those requirements were possessed in this young lady. Miss Peterson has lived in this city for over twenty-five years has been connected with the Plattsmouth public schools for more than twelve years as an instructor, in the different schools of this city, and knows well their requirements. In making this appointment the commissioners were unanimous in their decision, which speaks well for the one appointed. Miss Peterson comes to this office well equipped to care for the position, having an

abundant experience as a teacher, and commanding good executive ability, and a determination to progress. She is continually studying out of school branches, which have added to her efficiency, and at all times, when passing an examination in what ever branch of learning, the percentage has been near the highest possible. True this has cost hours, days, weeks, months, and years of hard study, but she has been willing to apply herself that she might be in position for better work, and she so succeeded.
