**DRAFTED MEN TO HAVE YET ONE COURT OF APPEAL**

Washington, D. C., Sept. 19.—Men summoned for service under the draft and who have been denied discharge by local district boards because of dependents, have still another means of appeal where they can show there has been error or misapplication of the law in their cases. On such a showing, governors of states to whom appeal may have been taken are authorized to request local boards to reopen cases.

There is no appeal to the president, however, except where exemption has been sought on the ground of industrial employment and denied by the district board. The rulings communicated last night to state officials make this clear in the following language:

"The only cases in which there is

a right of appeal to the president are cases of claims for exemption, exception or discharge based upon engagement in industry or agriculture. Further than this it is impossible to go. If any of the millions of individual cases within the original jurisdiction of local boards are to be considered in Washington then all ought to be open for consideration. This is impossible. Therefore administrative authority will not address itself to particular cases in the jurisdiction of local boards.

"The president has directed the war department to decline cases pending before local or district boards or entertain any communications, suggestions or statements concerning them."

**TROOPS EXPERIENCE AGREEABLE HOLDUP**

Farmington, N. M., Sept. 19.—This section of New Mexico experienced a new sort of a holdup today when sixty-five citizens from Rosa, N. M., tied an automobile across the Rio Grande tracks near here and stopped a passenger train carrying a contingent of drafted men from the San Juan basin. When the train slowed down truckloads of tobacco and provisions were put aboard and the coaches were decorated with bunting. Then a big demonstration was begun. The men from Rosa made the sixty-mile trip to the scene of the "hold-up" in motor cars.

Scientists tell us that ninety per cent of all sickness may be traced to the stomach. If you have, for instance, fits of great mental depression and your efficiency is broken down, if you suffer from dizziness and headaches affecting only one part of the head, remember that stomach disorders are at the bottom of your sufferings. Triner's American Elixir of Bitter Wine is the best remedy for stomach troubles. It cleans out the intestines and keeps them clean, helps digestion, restores appetite and braces up the entire system. If you suffer from chronic constipation, severe stomach gases, nervousness, insomnia, general weakness, even if other remedies have failed, Triner's remedy will never disappoint. **CANTONMENT LIBRARIES TO BE ESTABLISHED SOON**

PLATTSMOUTH WILL DO ITS FULL SHARE IN FURNISHING THE BOYS BOOKS, ETC.

Meeting of the Library Board Last Evening to Take Up the Matter—To Raise Funds.

The Plattsmouth Public Library board met last evening and held an interesting meeting, taking up the question of collecting books for the soldiers and otherwise aiding in the establishing of 32 camp libraries at the thirty-two cantonment camps located over the United States. Special buildings will be erected to house each of these libraries and the plan is to open them to the embryo soldiers very soon now. Libraries will be furnished to every camp, whether large or small, wherever groups of soldiers are located. This is to be done with the co-operation of state and local libraries, each public library being apportioned a pro rata amount to furnish for equipping the new libraries. The American Library association, which was organized during the past summer, thru its War Service committee, is raising one million dollars to be used in carrying on this work. The plans to raise this fund are now being perfected and will be given to those in charge in time for the opening of the campaign, which is scheduled to begin September 24th and continue for one week. This week will be designated as "Camp Library Week."

A budget has been prepared as carefully as possible by the Finance committee, showing just how the money will be spent. The biggest item is for periodicals and books, which will require one-third to one-half of the entire \$1,000,000.00. The preparation of the books for use, including the necessary supplies, will be a big item. The annual maintenance of the libraries will be in the neighborhood of \$150,000, covering such items as personal service, transportation, rent, printing and miscellaneous supplies.

Each library is expected to do its share, and apportionments have been made for all libraries, the amount allotted to the one here being \$429. This sum is to be raised by the patrons of the Plattsmouth library in this city and adjacent vicinity. This is a laudable endeavor and should meet with ready response from people all over the country, as the work can be accomplished easier by all than should some fail to do their part. Plattsmouth will not be lagging with the amount apportioned to its people in this matter.

**ORGANIZED FOR WORK.**

The winter Lyceum Course committee are now organized for actual work and have gotten busy, and have landed a course which is of the highest standard, and while everything else has gone up in price this has actually been reduced, not that the price has been placed lower, but has remained the same. Let them be giving more for the price. Heretofore the course consisted of five numbers, and now there are six. The first number will appear on October nineteenth and will be a musical number, well worth while as a number of this character.

The officers are W. A. Robertson, A. W. Cloldt, O. A. Moore and Lynn Miner, while the stage superintendent is Professor DeWolf.

**TO SOW MUCH WHEAT.**

Mrs. C. H. Schopp and family departed this morning for Imperial, Chase county, Nebraska, where the family expect to make their home in the future. They will remain there only for a time—long enough to see what winter wheat they can put in, returning here until spring when they will go to make their home there. It will be their aim to put in as much wheat this fall as it is possible with the equipment, which they are taking with them will allow—which is two tractors, and plows for same.

They think it will be possible to get three hundred acres seeded before the weather shall get so they cannot work longer. This with the other large acreages which Plattsmouth and Cass county people are putting in the west should count for much in the total amount.
