

GIVE OUR BOYS A FIGHTING CHANCE With Military Training, Says Wrigley.

(By Wm. Wrigley, Jr., Chicago) How fortunate it would have been had we adopted universal military training five or ten years ago. It would have meant much in the present crisis—it probably would have kept us out of the war. But it's no use to cry over spilt milk.

GOES TO CHASE COUNTY.

Blythe Rosencrans, the young real estate man of the W. E. Rosencrans firm, made a trip to Chase county last Sunday evening with a party of land seekers.

Nationally, we need a little foresight, a keener appreciation of the necessity for providing for future contingencies. We cut ice in the coldest sort of weather when nobody wants ice, for we know it will be demanded a few months later; so we prepare in mid-winter, for our comforts during the heated period of summer.

The plan of universal military training as outlined in the Chamberlain Bill would make available at all times, millions of young men who have had sufficient military training to enable them to become excellent soldiers with a few weeks of additional training. This would safeguard the nation and prepare it against any contingency that would probably arise, and if one should never arise, the training and discipline would be the very best experience that any young man could have.

Judge Beeson says feeling is running high and it is hard to tell how the verdict will result.

FLAG RAISING THIS MORNING.

The ceremonies of the flag raising this morning at the school grounds, was one of quite a good deal of interest. This is the day which is under the auspices of the High school, and under the general supervising of Mr. Charles Richardson the principal of the high school. The members of the high school marched out in order, and under the direction of the instructor in athletics, C. E. Spate, a number of patriotic songs were sung, and as the flag went to the top of the pole, all saluted the Emblem of Liberty and our banner of the Republic. E. H. Wescott made an address, in which he impressed upon those who surrounded the banner, that whether they were to be generals, leaders in action or thought or were to take a part in some other position, their work would be necessary, and in Doing Their Bit, it would be necessary for them to put into all their acts, their entire vital force, doing what they did with a vim and energy which should bring success. And to bring success is to do the thing at hand the best it can be done, whether that is large or lesser act. The public schools have been equipped for your benefit, and to afford you an opportunity to make the best of life and its work. You all are expected to do this.

"LATTER DAY SAINTS," AT THE METHODIST CHURCH

Last evening a goodly number gathered at the prayer meeting services at the Methodist Church. The Rev. Mr. Truscott showed reasons why he was not a Latter Day Saint. He mentioned the barbarities, blasphemies and corruption of mormonism, in general outline with but few details. A member and elder of the Latter Day Saints was present and asked permission to explain that while all Mr. Truscott said of mormonism was true yet, the reorganized church hof which he, Mr. Jones, was a member headquarters of which is in Missouri, is free from those corruptions.

But Mr. Jones acknowledged that the reorganized church has faith in the utterances of Joseph Smith, the founder, believes he was a prophet of God, and believes the book of Mormon to be the word of God as the scriptures. Next Wednesday Mr. Truscott will continue to tell why he is not a latter day saint.
