SPURN PEACE WITH THE UNREPENTANT

VISCOUNT BILNER DECLARES BRITISH WAR COUNCIL AGAINST PEACE WITH KAISER.

From Saturday's Daily.

London, Sept. 28.—Viscount Milner, minister without portfolio in the British war council, speaking today at American luncheon club, declared against any peace with the unrepentant German rulers. Touching on the entry of the United States into the Lord Milner evoked a tremendous outburst from those at the luncheon when he said:

"I feel that your country and mine are now united something far stronger than any written pact or alilance, namely, by an adequate unity of motives and aim."

Viscount Milner's speech obviously was an answer to the peace talk which has been filtering from German in past weeks. He declared that it was the intention of the entente allies to pursue "unfalteringly and resolutely to the end" their crusade, so that the "world shall be a better place to live in than before—a world dominated by other law than the law of the jungle."

"In the contest between German aggressiveness, naked and unshamed, with unbridled lust for power, one isde, and the awakened conscience of the rest of the world on the other, here can be but one war aim for us," Viscount Milner continued.

"Our war aim is this: That the kind of justice which Germany meted out to Belgium shall in the future be impossible on this earth. In the face of that war aim nothing else matters."

LESLIE HALL BADLY HURT.

From Friday's Daily.

At noon, as the school closed, Mason Wescott, who goes to Mr. Thomas Wilkinson's every day to draw water for the family, as the folks are both feeble, and Lesile Hall, volunteerd to go along. They were on their bicycles and started, Mason Wescott in advance down north Tenth street hill, and coasting down the steep hill acquired much speed. Mason passed on down the hill, and when he had reached the bottom, looked around, and observed some men carrying Leslie into J. C. York's house, he having struck a hugh rut and upset the wheel, and injuring the boy. When he was taken into the house, his head was found cut open in front and his shoulder badly bruised, as well as many cuts and abrasions of the skin on his face.

He was unconscious and did not recover consciousness for about thirty minutes. Andrew Kroehler with his car took Leslie home and while he is now conscious, is feeling pretty sore from his experience.

HE SAW MANY FORMER PLATTSMOUTH PEOPLE

From Saturday's Daily.

B. A. McElwain, the jeweler, and Arthur Baker, of Murray, accompanied by Jake Minear and wife, also of Murray, have just returned from a week's trip to the northern portion of the state, where they visited a large number of towns and saw a good many former Plattsmouth people, all of whom are prospering in their respective localities. With Mr. Baker's car, the merry crowd departed last Monday, going north, the objective point of their trip being Laurel. On the way they passed through and stopped in many towns, where they found people from Plattsmouth. At Plainview they found Fred Ebinger, a former Plattsmouth citizen, prospering in the hardware business and also Ed Barker, who for a long number of years was employed in the Burlington shops. He is engaged in the contracting and building business there. Mr. McElwain speaks very highly of the elegant home which Mr. Barker and wife have in Plainview. Their son, who was but a little boy when the family left Plattsmouth, is now engaged in business for himself in the east.

The party visited at Randolph and Coleridge, and at the latter place they met Will Lewis, who formerly lived near Murray, and who has been in the north for the past twelve years. Messrs. Baker, McElwain and Lewis made a trip from Coleridge to Plainview one day, staying until the next, when they returned to Coleridge for dinner at the Lewis farm home. From there they went to Hartington, where they took supper with another former Plattsmouth citizen. They also visited at the home of Mark Seybert, near Laurel, staying there the last night before beginning the return trip. At Coleridge they met John Lowther and John Young, the latter being engaged in the breeding and raising of fine blooded cattle. Mr. Young sold one animal the day before they saw him, which was but six months old, for the no small sum of $500.00. Bert said it was a red calf; we tried to find out what kind, and all he could tell us about it was that it was neither a Waltham, Elgin or a Waterberry, but was some kind of a red calf and a good one, he avered. You know Bert's mind runs more to watches and diamonds than to red calves, anyway, and we will have to excuse him.

The day they came home, they started from Laurel, which is 210 miles from here, in the morning, arriving at home at eight in the evening. They had a most enjoyable trip, and one worth many times the same mileage traversed by train.

U. S. CUTS COAL PRICE TO THAT PAID IN 1915

FUEL ADMINISTRATOR GARFIELD MAKES GOVERNMENT CONTROL OF FUEL COMPLETE TODAY.

WILL EFFECT A GREAT SAVING

Consumers Will Be Able to Buy at Reasoanble Prices.—Profits to be Limited.

Washington, Sept. 30.—Government control over the coal industry was made complete tonight by an order of Fuel Administrator Garfield limiting the profits of retail coal and coke dealers throughout the country. The order, effective tomorrow, directs retailers to fix their retail prices so as to limit their gross margains over cost to that average of such gross margins during the year 1915, plus a maximum of 30 per cent of the 1915 margin, provided that in no case shall the margin averaged during the month of July this year be exceeded.

Local committees, appointed by the federal fuel administrators in each state will see to it that the dealers comply with the order and the dealers themselves will be called upon to return sworn cost sheets showing the facts upon which they have based their prices.

Dr. Garfield selected 1915 as a normal year because the coal shortage which resulted in continued rises in prices did not begin until 1916. The additional 30 per cent is allowed to cover the increase in the retailer's cost of doing business, which has increased substantially during the last two years. Prices already fixed by the government for coal at the mouth of the mine are near those charged in 1915, and with the jobber's charge now limited to 25 cents a ton and the cost of transportation not materially increased, the consumer, in every community, should be able to get coal of any description at a very small advance over the price which he paid in 1915.

THE NEW BANK NOW OPEN.

The Farmers State Bank of this city opened its doors for business on Saturday, with Mr. T. M. Patterson, Mr. Leonard Meisinger, and Miss Vena Hatt, in charge of the new bank. The Banking room is one of the finest appearing in this part of the state, with all new and modern fixtures and equipment, and beautifully decorated with white and red roses. There were hundreds of visitors to the new bank and a good wish and a good word from all. Many who visited the new bank made deposits and opened accounts. The amount of the business transacted far exceeded all expectations of the officers of the new bank. Never was there an institution of the kind opened under more favorable circumstances and the very best of feelings existed, and all the stockholders were enthusiastic. Every one has a good wish for the Farmers State Bank.
