FOR ANOTHER YEAR.

From Wednesday's Daily.

Rev. E. H. Pontius, who has been the pastor of the United Brethren church, south of this city, was at the conference at York, which has been in session the past week, and has been returned to the charge here. This is pleasing news to the members of the church for which he has ministered, as he's proven an able, conscientious worker with the ability to do the work which is expected of him. Rev. Pontius is a man of more than ordinary ability and coupled with it a desire for work, makes him a strong man for the position. The membership are well pleased with his year's work, and are glad to have him for another year.

APPOINTS EARL NICHOLS.

From Wednesday's Daily.

Last evening the thirty-seven boys who were to go this morning to Camp Funston, Kansas, were lined up in the front of the court house when they reported at five o'clock and Sheriff Quinton, appointed Mr. Earl Nichols as the one to have charge of the company going to Camp Funston. The listing and allotting to the different hotels for the night and giving checks for their baggage being completed they dispersed until the time for the banquet, which was at the Riley Hotel at seven o'clock. Many from out in the county were in with their sons, brothers and neighbors, to say the last good byes, as they departed. We were observing the boys, when our attention was called to a farmer out in the county whose boy was called. The young man twenty-two years of age, had earned for himself, a team, and had married and was farming for himself but staying at his father's house. Yesterday morning the father was at the barn, when the young man came in, and not knowing that any one was present, bid good-bye to the team which he had raised from colts, putting his arms around their necks and patting them said "Well I will have to leave, you just like I have to leave the wife and baby, so good bye." This sturdy old farmer in relating the incident could not keep the tears from his eyes, but still he wanted his son to do what his country called him to give his service for the same home which he had been making for his wife and child and all he loved.

ASKED TO GO WITH BOYS.

From Wednesday's Daily.

George L. Berger, of Elmwood, he says, it is the best town in the state and we are not going to quarrel with him on that score, was in the city last evening, coming down with some of the boys who are to go to Camp Funston today, and showing that his heart was in the right place, he stayed until after the banquet in honor of the boys and with one of his neighbors, Fred Kunz, returned home last night, while two others who came with them William Albert Kunz, is to go today, and Joseph Cazemack, a cousin, has asked that he may go also, though he had not been called, but asked to go at this time because he would be with his cousin, William Albert Kunz. This is a demonstration of good patriotism.

BUILDING AN OIL DERRICK.

From Wednesday's Daily.

The men who, in this section some time since invested in town lots at Francitas, Texas, as well as in lands near there are fortunate in their investment, for oil and gas had both been discovered in the immediate vicinity. A number of persons here have lots and lands there, among who are F. G. Fricke, F. R. Gobelman, and E. S. Setz. At this time the company is erecting an oil derrick which has reached the height of 112 feet, and will be built 185 feet high and when completed will begin drilling for oil, the above three gentlemen have lots but a few blocks from where the well is to be drilled. They also have a share of stock in the company, which is drilling the well. Just at this time the prospects for striking an abundance of oil is good.

Why Do You Strive for Quality Products?

Why Not Raise Ordinary Livestock, Ordinary Grain or Ordinary Fruit?

It costs extra money to start and maintain a herd of blooded cattle, hogs or sheep.

It takes extra time and care to select quality seed corn as a basis for a quality crop.

It takes extra money, time and care to start and keep up a quality fruit orchard.

You could do away with this extra expense by being satisfied with just ordinary products. Why do you seek quality?

Here is the reason: You pin your faith to quality because you know that the extra expense entailed by the effort for quality is more than offset by the extra profits that quality products return.

Quality is profitable in what you raise to sell. It is just as profitable in what you buy to use.

We have at your service a stock of highest quality farm implements. There is nothing of the ordinary in these implements. Their quality has been recognized for years throughout the world.

If you were fully satisfied with raising ordinary products, we might deal in ordinary implements. Quality in what we had to sell would not attract you. But knowing that you appreciate the worth of quality, we are here to serve you with quality goods. You will find the quality of our stock and the quality of our service, both profitable to you. And remember you can see before you buy.
