**BEST COUNTY FARM IN STATE.**

E. M. Johnson, secretary of the board of state charities and corrections, was in the city today looking after the institutions and inspecting the working of such institutions as came under this class. Mr. Johnson, who has been in this city a number of times and is well known to many of our people is a gentleman well qualified to act in the capacity for which he has been chosen. He this morning inspected the county jail, and says that its condition is all right, and he also inspected the Masonic Home, and the Eastern Star Orphanage, which were pronounced in good condition.  
His visit at the county farm was one which surprised him as to the nicely appointed building which is there and to the way in which the farm is conducted. In speaking to the reporter he says that the County Farm here was the best conducted of any in the entire state.  
We have known for some time that we had the best regulated and conducted county farm in the state, but the stamp of endorsement coming from the inspector is worth something, as he added, Your county farm is ideal, both in appointments and the way it is conducted.

**PABST CHARGES THAT "PROFESSIONALS" ARE MISLEADING PEOPLE**

Atlantic City, N. J., Oct. 3.—Charging that "professional prohibitionists" are "deliberately trying to mislead the people by falsifications, by taking advantage of war conditions and industrial emergencies," President Gustave Pabst, of Milwaukee, speaking before the opening business session of the war convention of the United States Brewers' association, today urged delegates to unite in the national fight for existence.  
Mr. Pabst pointed out that the association had offered its co-operation to all the departments of the federal government and the "subscription by brewers of millions of dollars for Liberty bonds at a time when the very life of the brewing industry was being threatened with destruction" was substantial proof of the attitude of the industry toward the government and its war aims.  
The president called upon brewers all through the nation to leave no stone unturned to secure the rigid enforcement of all prohibition and regulatory laws regarding the shipment and sale of beer.  
Mr. Pabst observed that there are a great "many indications that the people are getting tired of professional prohibition leaders" and that the "reaction is shown by the demand for constructive measures that shall lead to permanent improvement."
