### VARALLO-GROSS ORCHESTRA COMPANY.

Will Appear Here Soon in a Musical Program.

John B. Varallo, manager of the Varallo-Gross Orchestra Company, though not old in years, has done little else but entertain the public musically. He was first introduced in the lyceum by that shrewd judge of talent and men, Giffen, and for years John B. and his brother, Michael, with two others, made up Giffen Troubadours. After leaving the Troubadours and for about five years, the Varallo brothers and Miss Gross, the cellist, did vaudeville work, giving wholly musical programs. As their work was legitimate and high class, it was only a short step back into the lyceum work. Besides the two men, John B. and Michael Varallo, there are two ladies in the company, Miss Goldie Gross, cellist, and Miss Claire Contant, reader.

The combination of violin, cello, harp and piano is certainly a most excellent one and the popularity of this company cannot be overstated. In addition to the variety possible in the instruments, Miss Claire Contant will present costumed readings.

GOLDIE GROSS, Varallo-Gross Orchestra Co.

Miss Gross is a little body of just twenty summers, just as sweet as she is talented. At the age of ten she was regarded as a child prodigy on the piano and cello in the city of New York. She received many fine articles of praise from such journals as "The Musical Courier" and other high-class musical publications. Several prominent musicians of New York City predicted great things for Miss Gross. That she has fulfilled these predictions we leave you to judge.

## Why Do You Strive for Quality Products?

Why Not Raise Ordinary Livestock, Ordinary Grain or Ordinary Fruit?

It costs extra money to start and maintain a herd of blooded cattle, hogs or sheep.

It takes extra time and care to select quality seed corn as a basis for a quality crop.

It takes extra money, time and care to start and keep up a quality fruit orchard.

You could do away with this extra expense by being satisfied with just ordinary products. Why do you seek quality?

Here is the reason: You pin your faith to quality because you know that the extra expense entailed by the effort for quality is more than offset by the extra profits that quality products return. Quality is profitable in what you raise to sell. It is just as profitable in what you buy to use.

We have at your service a stock of highest quality farm implements. There is nothing of the ordinary in these implements. Their quality has

been recognized for years throughout the world.

If you were fully satisfied with raising ordinary products, we might deal in ordinary implements. Quality in what we had to sell would not attract you. But knowing that you appreciate the worth of quality, we are here to serve you with quality goods. You will find the quality of our stock and the quality of our service, both profitable to you. And remember you can see before you buy.
