

Rheumatic Aches

Drive them out with Sloan's Liniment, the quick-acting, soothing liniment that penetrates with-out rubbing and relieves the pain.

FIVE PER CENT FARM LOANS.

I am prepared to take applications now for farm loans to be closed not later than January 1st, at 5 per cent. Inquire of Chas. C. Parmele, at The Bank of Cass County.

NOW HAS NEW 1918 MODEL.

From Friday's Daily. George M. Hild sold to M. Kellenhuit of Nehawka, one of the famous Crow-Elkhart automobiles which he delivered and which is one that will make an elegant car for Mr. Kellenhuit and his family.

Mr. Hild departed yesterday for Omaha for another car which are very difficult to get at this time but he was fortunate in that he was able to secure 1918 models, which has some added improvements and different body lines, but in addition is costing a little more money, they being listed now at \$935.00 and is worth the money.

REPORTS ON Y. M. C. A. DRIVE ENCOURAGING

CAMPAIGN MANAGER JONES, OF OMAHA, WIRES RESULTS ARE SATISFACTORY

NEBRASKA RANKS FIFTEENTH

All Leading This State Have Much Larger Apportionments—We Are Close to Top in Percentage Given.

From Thursday's Daily. Returns from the entire state up to last evening put the amount of money raised in Nebraska during the first two days of the big Y. M. C. A. war work fund drive at one hundred and seventy thousand dollars, and entitles this state to fifteenth place of all the states in the among realized.

Scottsbluff reported the raising of twenty-five thousand dollars, which places that district, number eighteen, ahead of all other districts in the state.

The school boys of the state yesterday raised sixty-six hundred, the amount they have now raised totaling eleven thousand, while their apportionment is thirty thousand.

Withal, Campaign Manager Jones advises us not to be too optimistic, as the most difficult portion of the drive is yet to come.

In Cass County.

In Cass county the work is going along nicely. Enthusiastic meetings are being held almost nightly at different points and are productive of good results. No more worthy cause was ever advocated and our people will be most generous in their response.

AN UNBELIEVABLE CONDITION.

From Thursday's Daily. It has been said and justly, at that, that "every child is entitled to be well born." Nor is this all every child had a heritage that no one, it does not matter who it is has a right to deprive them of, a fair and a square deal, during their period of helpless childhood or infancy, and he who would steal this heritage of a helpless child, would pluck the stars from the crown of an Angel. In this city where we pride ourselves as being enlightened, where we over subscribed a fund for the Y. M. C. A. war work, there is an aggregation of people, the parents and offspring, five in number, we are not privileged to call them a family. The parents, who are guilty of bringing children into the world, and not caring for or attempting to care for them are not entitled to the appellation of Father and Mother.

The conditions as they are were called to the attention, of some of the citizens, and with the police, two ladies and one man, with the police went to the house, and this is the conditions which they found. A four room house, in one room, no furniture, a dirty straw tick, upon this tick, an infant less than two years of age, with no clothing but a little piece of a sweater, no under-clothing, while another child probably three years of age, no clothing except a dirty piece of an apron around its neck, allowing to fall as low as it could, not even sufficient to cover its nakedness. Nothing in evidence to eat with the exception of a skillet partly filled with dirty dough. The woman did not seem to know, but that they were well cared for, nor did she seem to care.

The man who visited the place reported conditions under which no one ought to live. It looks as though it were the duty of some one to take those children and place them in a decent home, for it is their heritage. If we saw them in a burning building and didn't rescue them we would consider ourselves inhuman, but how much worse off would they be, even in a burning house than under such conditions as now exist.

Certain Cure for Croup.

Mrs. Rose Middleton, of Greenville, Ill., has had experience in the treatment of this disease. She says, "When my children were small my son had croup frequently. Chamberlain's Cough Remedy always broke up these attacks immediately, and I was never without it in the house. I have taken it myself for coughs and colds with good results."

PIONEER FARMER ADVISES CURING OF SOFT CORN BY FREEZING IT

From Thursday's Daily. William Campbell of Auburn, Neb., who located in Nemaha county in 1867, and who is one of the most successful corn raisers in the state, says:

"Speaking of the soft corn situation, it is very much like it was in the fall of what is known as the grasshopper year. All of the corn was soft that year and I remember that other farmers, as well as myself, permitted our soft corn to remain in the field until it was thoroughly frozen. We then harvested it and we found that it was in excellent shape and made the best of feed. Corn that is harvested before it is cured in this manner will sour from fermenting in the crib and loses its food value. When conservation is so essential as it is now this should prove a valuable tip to those who have not had the experience of the pioneers of the grasshopper days, and should be given the widest publicity.

INTERESTED IN THE PLATTE RIVER BRIDGE

From Thursday's Daily. Today Hon. J. Mattes and August Young, both prominent business men from Nebraska City were in this city, looking after the move to purchase the Pollock Auto and wagon bridge, or build a new one by the state. They called at this office, and had a short talk with the editor, and talked bridge, in which they are intensely interested. Their idea is to purchase the bridge here if such can be done. If not to have an appropriation made at the next Biennial for the erection of one, as this is one of the direct routes of state and interstate travel. The gentlemen were consulting with the commercial club here, and will also consult with the same organization at Omaha.

PREACHES FUNERAL OF JOHN GARBER

From Thursday's Daily. Rev. Wm. Van Beuren, the pastor of the Methodist church at Clark-son, was a visitor in the city this morning for some time and spent the time as the guest of the Rev. Truscott, and other members of the church here. Rev. Van Beuren was formerly located at Nehawka, and was called to deliver the funeral oration over the remains of John Garber of that place, who died a few days since at Nehawka. Rev. Van Beuren stopped on his way home to visit here between trains.

74 YEARS OLD

From Thursday's Daily. Yesterday marked the 74th birthday anniversary of Grandpa Svoboda and in order that he might celebrate the happy event in a proper manner, his children and grandchildren gathered at his home in the evening and tendered him a most complete birthday surprise. An elegant birthday supper had been prepared and at an appointed time the merry company were invited to partake of this birthday supper, which was thoroughly enjoyed by Grandpa Svoboda, his children and grandchildren. The centerpiece consisted of a huge birthday cake, lighted with 74 candles, which was, also, a surprise to Grandpa Svoboda, as they had not kept him posted as to any of their plans. The remainder of the evening was devoted to a delightful social time, interspersed with selections on a phonograph contributed by Mr. Jiranek, which was very much enjoyed. As the hour was getting late, the merry company was compelled to wish Grandpa Svoboda many more as happy birthdays as this one and depart for their homes.

A DAUGHTER.

From Thursday's Daily. Last evening the Stork visited the home of Mr. and Mrs. Will Simons in the south part of the city and left in their care a fine little baby daughter. Mother and little daughter are getting along very nicely and Mr. Simons is wearing the smile that won't come off. Mrs. Simons is the daughter of Mr. and Mrs. J. R. Hunter and they are quite proud of their new granddaughter.

STRAYED.

From My Premises—One small black yearling colt. Has white spot on forehead and on legs. Any one knowing anything as to its whereabouts, kindly call Frank Schlichte-meier and I will forward the expense of caring for it. Frank Schlichte-meier. 11-14-2wkskly.

ITALIANS HOLDING ON PIAVE SECTOR

ROME REPORTS CHECK OF AUSTRIO-GERMAN ADVANCE AT CRITICAL POINTS.

Berlin Announces Gains In The Hill Region South of Fonzaso and Feltre.

New York, Nov. 15.—Indications in today's official news from the Italian front are that the Italian line is still holding on the Piave and on the critical Trentino front, while the straightening out process is being continued along the salient between the Upper Piave and the Sugana valley on the edge of the Trentino district.

Berlin's statement reports no change along the lower Piave where the Italian reports have shown repeated attempts by the Austro-German forces to pierce the river line and compel its abandonment and the consequent loss of Venice by the Italians. It has been pointed out that every day this line is held counts heavily in Italy's favor, as the Anglo-French contingent in Italy soon will be on the fighting line to support the Italian armies.

The Rome war office statement today throws a still more favorable light on the situation from the entente viewpoint. The frustration of new attempts by the invaders to cross the Piave is reported, while the comparatively small parties which previously had secured a footing on the west side of the river have been held fast virtually in their tracks.

Continuation of the German advance is announced in the hill region south of Fonzaso and Feltre, where Rome concedes the retirement of advanced posts to prepared positions. It is in this section that the Italian line forms an awkward salient in its east and west extension from the Piave, and there have been indications for several days that the Italians were drawing out of it.

Berlin makes no claim to further advances in the Trentino, where the Italians are holding the hill region safely so far against the threat of the drive aimed at the Venetian plain to outflank the Piave line.

BOMB AT CHICAGO OPERA CAUSES FRIGHT IN CROWD

Chicago, Nov. 16.—A bomb made of gaspipe and powder was picked up on the main floor of the Auditorium theatre where the opera, Dinorah was being sung, after an incipient panic which followed an unexplained burst of flame had been stilled by Director Campanini swinging the orchestra into "The Star-Spangled Banner."

The firemen finally concluded that the flames which caused the first fright had been connected in some way with the bomb, which also emitted noxious odors. It was found near the close of the first act when Galli-Curci was singing a Breton folksong. Nearly one-third of the patrons left their seats.

Galli-Curci lead in singing the national anthem, the patrons joining in, until repose was restored.

A woman who was sitting near where the bomb was found said she remembered stumbling against some object as she passed to her chair. It is believed that the bomb contained some mechanism that caused it to burst into flames when moved slightly. No arrests have followed.

SHOOTING MATCH!

50 turkeys, 100 geese, 102 ducks, and a fine large beef. Also a turkey barbecue, Saturday, November 24th, one mile east of Weeping Water. Target and trap shooting. Shoot starts at 10 a. m. Sharp. So come early and enjoy a day's sport! W. J. PARTRIDGE.

An Old Man's Stomach.

As we grow older and less active, less and less food is required to meet the demands of our bodies. If too much is habitually taken, the stomach will rebel. When a man reaches the advanced aged of 85 or 90, you will find that he is a light eater. Be as careful as you will, however, you will occasionally eat more than you should and will feel the need of Chamberlain's Tablets to correct the disorder. These tablets do not contain pepsin, but strengthen the stomach and enable it to perform its functions naturally. They also cause a gentle movement of the bowels.

RUSSIA IS CUT OFF BY WIRE FROM THE REST OF WORLD

DISPATCHES FROM COPENHAGEN GIVE GERMAN REPORT THAT SIBERIA DECLARES FOR FORMER CZAR.

The internal situation in Russia still remains obscure. Although dispatches sent out by the Finnish telegram bureau assert that Premier Kerensky again is in control in Petrograd, other reports are to the effect that he has set up his government in Moscow and that fighting still continues in the capital. No advices have been forthcoming from provisional governments sources.

Czar Nicholas Again. Copenhagen, Nov. 14.—The Ber-linske Tidende's Haparanda correspondent in a dispatch received here says:

"Officers at Tornea, Finland, say that Siberia has declared its independence and proclaimed former Czar Nicholas as emperor. Cossacks have occupied Kiev."

Wires are Cut Off.

Stockholm, Nov. 14.—Telegraphic communication with Petrograd has been interrupted since Tuesday afternoon. The cable station at Ny-stad, Finland, reports that no response could be obtained from Petrograd to its signals. It is presumed that the Petrograd station is occupied by military forces.

Legation Stands Pat.

Amsterdam, Nov. 14.—The Russian legation at The Hague announces that it refuses to recognize the Maximalist government in Petrograd.

OYSTER SUPPER.

An oyster supper and program will be given at the Taylor school house, 3 1/4 miles west, on the Louisville road, Saturday evening, November 24th. Program at 8 o'clock. Supper 20c. Everybody invited. 11-17-2td1twkly.

CEMETERY.

We are now prepared to make your monument, markers and lot corners right at home. Cass County Monument Co., W. T. Wassell, manager. Hotel Riley block, Plattsmouth, Neb.

SEIZE MORE I. W. W. RECORDS OVER UNITED STATES

HAVE FOOT HOLD IN BOTH CHICAGO AND SEATTLE, IT IS DECLARED.

A Dangerous Foe of the Nation—Scatter Propaganda and Try to Oppose Government.

Seattle, Wash., Nov. 15.—In a hotel raid last night federal agents and city detectives seized what are believed to be the complete records of the Industrial Workers of the World, covering the activities of the organization in the Pacific Northwest.

Chicago, Nov. 15.—A truck load of pamphlets, files and mailing lists, seized in last night's raid on the offices of the League of Humanity, was to be presented to the federal grand jury today.

Included in the papers confiscated was a complete file of the Republican, said to be the official organ of the city administration.

The league is said to have been active in organizing farmers to violate the Selective Service Law and in spreading literature attacking the British government. Daniel Wallace, who was its head, is serving a 20-year sentence in Leavenworth prison for violation of the Espionage Law.

BLACK FOX FUR LOST

Lost, last Saturday evening from Wagner's restaurant to the moving picture show. Finder please notify this office or Mrs. John Lloyd, Murray, Nebraska.

FOR SALE.

7 thoroughbred pigs. Call Phone 385-J. n8-1wdaw

—SALE STARTS AT 1:00 SHARP—

TERMS—Suitable terms will be given all purchasers desiring same, which will be announced at the opening of the sale. G. E. BERGER, Owner COL. W. R. YOUNG, Auctioneer.

Can You Grubstake \$1 or More for Oil and Copper at Gallatin, Missouri?

Personal Statement of John W. Everman

Since the discovery of Oil and Copper on the 15,000 acres of land we have near Gallatin, I have been asked so many questions and have had so many propositions put up to me that I am taking this public way of explaining just how I propose to develop the land, and make money for myself and my associates. Also I offer a few people the opportunity to "grub stake" with me; and have arranged with the Farmers Exchange Bank of Gallatin to take care of the money, so people who do not know me can deal with the bank. Probably you have heard exaggerated rumors, also stories about Eastern Capital "grabbing off" the leases, but the facts are good enough to interest anyone who is willing to risk a little money for the chance of getting big money quick;—also I do not want any "promotion" or "stock selling scheme," etc. If the plain facts are not good enough and a straight, clean-cut, neighborly developing proposition does not appeal to any man, then I advise him to buy stock from a regular promoter; as I am not and never will be a promoter. Personally, I expect to make my everlasting fortune out of this Oil and Copper wealth that nature has put at my doors.

If anyone cares to come in with me on an "Even Steven" break, and put up some money against my land for development, I will share even with them, interest for interest, on a basis of \$1 up, and the bank to take care of your money until we pay it out to the drillers, etc. I do not know or care anything about "marketing stock," etc. I know if you have oil and copper you can sell them; and as the world wants oil and copper, it looks good to me, to make our money by selling what we've got.

We have two wells producing some oil, and two farmers, boring for water in the same neighborhood, struck oil at a depth of 160 and 240 feet, respectively. L. W. Powell, a farmer, was boring a well for stock-water, and struck oil, which ran out down the hill side and on into the river, covering everything it touched.

We have 15,000 acres of land leased in this vicinity, covering these wells, and our leases also cover land on which we have discovered a ledge of metal of some kind; this substance is about 8 to 9 inches thick, and lays 30 feet underground. It lays under a hill and this land as well as the surrounding is rough as thunder. I recently sent a sample from this ledge to the Bureau of Geology and Mines at Rolla, Mo., and herein you will find a copy of their reply to me regarding this substance:

STATE OF MISSOURI Bureau of Geology and Mines.

Rolla, Mo., August 23, 1917.

Mr. John W. Everman, Gallatin, Mo.

Dear Sir:—

In the absence of Mr. Baehler, I beg to acknowledge receipt of your letter and sample submitted August 15th. The sample is pure native copper, and I judge it lies in the drift above the bed-rock, where you found the principal mass. I can easily realize your difficulty in detaching this small piece. If you have a large enough boulder of the substance, better bring it up to the top, as copper is now

bringing no mean price. Very truly yours, (Signed) M. E. WILSON.

When you've got 15,000 acres of mineralized land; when you've got sure copper on the surface; when you've got oil bubbling up from 150 to 250-foot wells, I think you've got something that will make any man that touches it rich. Hence I am going to drill wells, produce oil; sell the oil; going to mine the copper; sell the copper; and whoever wants to go shares with me to cover the cost of drilling and digging out the metal can come in now on a basis of \$1 per share—sending the money to the Farmers Exchange Bank, Gallatin, Mo. As many as come in on this offer, I will incorporate and issue shares to, as the law requires, the bank acting as your trustee in the matter.

I do not know how much you will make out of your \$10 or \$100 or \$1,000 that you put in, but if you will come here and see what I have, you will be as excited as all of my neighbors are; and I'll guarantee you will put up every cent you'll dare to risk. I haven't any literature or "hot air" to put out; hence, if you want to "COME IN," simply clip the coupon and send for as many shares as you want to the Farmers Exchange Bank, Gallatin, Mo. When we produce oil and copper you will get your dollar for dollar. If you would like, come to Gallatin and look at your property. How all the "smart" promoters, etc., will laugh at this way of getting developed—but I think the common horse sense of the American people will tell them it is just about the kind of a deal that makes "REAL MONEY" for everybody—and makes it quick.

Write to me if you want to know anything more, but to the bank, if you are to talk "Turkey."

(Signed) JNO. W. EVERMAN.

FARMERS EXCHANGE BANK, GALLATIN, MISSOURI.

Find \$.....for.....shares at \$1.00 a share in Mr. Everman's proposition—you to hold this money as my trustee until the state issues charter and stock can be issued; all this to be done in sixty days from date or the money to be refunded to me.

NAME.....

ADDRESS.....

Notice the Following Standard Estimates of Oil

A 500 barrel oil well earns \$272,350 per year. Oil is one of our greatest producers of fuel resources. Fortunes are being made today in Oil, especially open to the small investor. Here are some samples: Had you invested \$65 in the Coline Oil Co., you would have gotten back \$30,950. \$65 invested in the Quaker Oil Co., would now be worth \$13,000. In April, 1916, the Quaker Oil Co. paid a cash dividend of \$2,800 on each \$50 share of stock. \$65 invested in the Kern Oil Co. has paid over \$16,000 in dividends. \$65 put into the Home Oil Co., would have made you \$26,000. The Slick Oil Co. paid over 130 per cent dividends during the past twelve months.
