GET LAND NOW!

The signs of the times tell you that you will have to pay a lot more for good farm lands within a year and that it is going to be much harder than now for you to get hold of a Government irrigated farm in the Big Horn Basin.

THE NEW GOVERNMENT IRRIGATED FARMS AT DEAVER

Owing to war conditions it so happens that there are yet available for homestead entry probably 50 Government irrigated farms near Deaver, Wyoming, out of a total of 184 that were opened for settlement September 20th. These have excellent soil and are located on our main line, adjoining the prosperous Government irrigated locality of Powell, Wyo. If you will take steps quickly—within 30 days—you can secure one of these farms. Nothing like this chance will occur on the Burlington Route for several months. Land is free, 20 years payment no interest, for a permanent water right. At the Government opening of this new locality, \$20,000 worth of town lots at Deaver, Wyo., were sold in one day and over 100 farms were filed on.
