There is now a new carpentering and contracting firm in Murray, and from the senior member of the firm we learn that they have all the work that they can possibly do. Bert Root & Son is the name of the new firm and the junior member arrived at the Root home on November 27th, and from his long power Bert says that he will be able to make more sense than the boss for a few years, and unable to take his place in the construction work for some time. However, he will prove a comer and will take his place as a valuable partner of his "dad" when the time arrives.

During the lecture last Saturday evening the speaker asked the large audience how many there were in the room who could sing the national airs, "America," and "The Star Spangled Banner," and there were only two hands in the gathering that went up. In the future those two liberty loving songs will be sung daily in the Murray schools, and an effort will be made to teach every scholar that passes through the school to sing them both. This alone would be worth the cost of the entire lecture cost for the season. They will have a tendency to create a more patriotic spirit among the patrons and children of the schools. The teachers should see that this worthy resolution is carried out.

It begins to look as though Murray will sure have an electric light plant in the very near future. The citizens have held several meetings during the past few days, and the soliciting committee has raised over \$5,000 for the installing of the new plant, and there seems to be no doubt but that the balance needed to insure the enterprise can easily be raised. A committee, composed of Dr. B. F. Brendel, George Nickels, L. H. Puls, L. D. Hiatt and Frank Vallery was appointed to investigate the matter and a trip was made to Omaha to ascertain the cost of machinery and installation. Let everybody help and we will soon have light. You will then wonder how we ever got along without it. The busy men for the community welfare have sure been at work, but they need your help.

### An Everybody at Church Month.

A few years ago almost every community in our country observed what was called "An Everybody's at Church Month," that is a Sabbath upon which every person in the community was expected to attend church for at least one service. The results of this, as attested by many both laymen and ministers were excellent, as the attendance on the day named was largely increased over what it had usually been, and then that increase was in part maintained by the new interest which had thus been aroused in church services. Now as that "Everybody at Church Month" proved to be a good thing, we believe that an "Everybody at Church Month" would be yet better, having larger and more permanent results, and we therefore venture to designate the month of December as the "Everybody at Church Month" in the Murray community, and very earnestly urge that every person in the community, regardless of his or her present relation to the church, observe the month by attending at least one service in some church each Sabbath. Those who on any of these days attend service in either of the churches in Murray will be cordially welcomed by both pastor and people of these congregations, and it will be our effort to preach to all the gospel of Christ. However, if there are any who do not come to join with us in the worship of God, we hope these will attend some of the several churches outside of our village, and yet within convenient distance of the different parts of our community, and at which we are quite sure all will be cordially welcomed, and will hear the gospel. While the churches need and will welcome this increased attendance, it is also true that every individual of the community needs to thus wait upon God in public worship, to hear His word, and also be prepared for His service in this life and for the enjoyment of His presence and glory eternally. As we invite and urge every one in the community to be in the house of God for one or more services each Sabbath of December.

At that time he had just been mustered out of the National Guards, having been ordered service during the Mexican War. Finally a letter was received from headquarters at Washington and there received his address, which is A. L. Sattler, 142 Co. B, Camp Bowie, Ft.
