Thrift Stamps!

The war is costing the United States \$1,000,000 an hour. To offset this steady and tremendous drain upon the nation's cash resources, there must be a corresponding stream of dollars flowing into the national treasury.

Thrift stamps and war savings stamps offer the people an opportunity to deposit their daily, weekly or monthly savings with the government.

In return the government will repay the principal with 4 per cent interest, compounded quarterly. As an example of how the investor's money will grow, sixteen war savings stamps, costing 25 cents each, or \$4.00 in all, with 12 cents added, will entitle the depositor to \$5.00 on January 1, 1923.

As an investment, safety considered, there is nothing better on the market today. All the resources of the richest government on earth are behind the stamps.

PAN-GERMANS ARE BELIEVED GAINING LEAD

POLICY OF "BLOOD AND IRON" FRIGHT AND LOOT TO BE PUSHED TO LAST.

ALL GIVE IN TO THEM NOW

Vorwaerts Thinking Military Dictatorship Coming; Supreme Trust in Force.

Control of the destinies of the German empire, press accounts from neutral countries agree, is passing into the hands of the militarists or the leaders who want to hold what has been gained by might and the sword. Chancellor von Hertling, the aged incumbent of the chief political office, again is reported ill and is preparing to resign, while the militarists and pan-Germans are demanding the dismissal of Dr. von Kuehlmann, the foreign secretary, who has headed the German delegations at Brest-Litovsk.

In connection with the reported illness of the imperial chancellor, it is reported from Berlin that Count von Hertling's address before the main committee of the reichstag has been postponed for several days. It was said previously that the chancellor would answer the recent war aims statements of President Wilson and Premier Lloyd George before the main committee on Wednesday.

Coupled with these reports is the fact that the German emperor and the crown prince have been holding conferences with the political and military leaders. It is reported also that the German ministers to Denmark and Holland have arrived unexpectedly in Berlin. Indications are that the present turmoil within the German ruling class will result in the acceptance of a military policy, either favoring the militarists or the more peaceful elements, with the probability that the pan-Germans will be victorious. The socialist Vorwaerts believes a military dictatorship is in the making.

No explanation has been vouchsafed by either the Germans or the Russians as to the reasons behind the temporary halt in the peace negotiations. Nor has it been announced officially why the conferences, if continued, are to be resumed at Warsaw. A Bavarian newspaper says, "Egyptian darkness enshrouds" Germany's peace terms.

Amsterdam (Monday), Jan. 14.—The Wolff bureau, the semi-official news agency of Berlin, publishes a Brest-Litovsk dispatch regarding the three last sittings on Friday and Saturday.

The Wolff bureau report covers nearly 5,000 words and shows that the discussion concerning the date of the evacuation of territory was broken off by the parties failing to agree. A long discussion, concerning which parts of the occupied territory should be evacuated, also resulted in a disagreement.

A prolonged debate arose over the question of admitting representatives of Poland, Courland and Lithuania to the negotiations, and on the question of what constituted self-determination by these provinces. The discussion became embittered and the only result was a protest by General Hoffmann of the German delegation, against the tone of the Russian delegation, which he said "speaks as if it stood victorious in our countries and could dictate conditions."

General Hoffmann reminded the delegates that the bolshevik authority, as much as the German, was founded on force, as instanced by what he termed the attempts to suppress the white Russia and the Ukrainian attempts at self-determination. General Hoffmann finally declared that the German supreme army command must refuse to evacuate Courland, Lithuania, Riga and the islands in the Gulf of Riga.

Dr. von Kuehlmann, the German foreign minister, then declared that he must reserve a further statement of the position of the central powers on all points. He protested against the position the Russians had adopted of presenting their views in written declarations and said that the conference must be adjourned in order that there might be a consultation between the Teutonic allies. No date for the resumption of the conference was fixed.
