ORGANIZE SOCIETY FOR RELIEF OF ARMENIANS

COUNTY ORGANIZATION PERFECTED FOR THE RAISING OF FUNDS.

Full Set of Officers Elected For Coming Term Are Promising.

From Wednesday's Daily.

William J. Shallcross of Bellevue, a minister of the Congregational church, and ministering at South Omaha, was in this city yesterday looking after the organization of a county and city organization, for the raising of funds for the 2,000,000 of Armenians and Syrians, who are starving. He addressed a number of people at the district court room yesterday afternoon telling of needs and the conditions, which have to be met, and what is being done elsewhere. This is the tenth county to be organized in the state. Mr. Shallcross stated that there are now urgent need of this work and the funds which is supposed it will raise. The Red Cross endeavored to do something, but while they have contributed \$300,000 per month for six months, it is so small that its effect is scarcely felt. The field in which the laborers are to be performed in is not in Christian territory although the Armenians and Syrians are Christians, and what work they would naturally do falls to the Red Cross instead of the Red Cross, and it is Turkish territory. Besides the nine other counties besides Cass county both Lincoln and Omaha are largely organized but not entirely, but the thorough organization of these cities are expected to be perfected in the near future. The relief which is supposed to extend over three months service, as there are 2,000,000 people to be fed and it seems impossible to feed them for less than five dollars per head, the thirty millions would last only three months.

C. H. Dodge of No. 1 Madison Ave., N. Y., is the head of the matter in America, and from the different states work, Mr. Shallcross states that while this nation, was giving lots, it could well afford to as it was not only the richest nation on earth, but came near being as rich as the rest of them. The wealth of the United States is estimated at \$325,000,000,000.00. In 1915 there were reported 14,000 millionaires in the

United States, while one year later the number was 22,000 for the year just past nothing had been learned, but it is supposed to have gone forward at the same rate. Upon organization of a permanent character, the officers were elected for the county, the election resulted in the following selection. Rev. H. J. Hargott chairman, F. M. Bestor, vice chairman, Robert M. Walling, secretary and Hon. R. B. Windham treasurer. The officers will attend the meeting at Weeping Water, on February 2nd, when the mass meetings for all the other committees to form an organization for the purpose of making the giving uniform and with them this committee will work. Discussing the matter of raising the money, it was the sense of the meeting that the amount which this county should raise was above 20 cents per every person, man, woman and child, or in all four thousand dollars. The committee will apportion the amount among the different precincts and wards.

WHO IS GOING TO DO IT?

From Wednesday's Daily.

Lincoln, Neb., Jan. 22, 1918.

To the Public:

Again an appeal is made to the people of Nebraska for help in a worthy cause. This time, it is a little different. Last week, I asked for a home for twin baby boys. The newspapers sent out the message and the little ones now have a good home. Not long ago, the newspapers helped find a real mother for a homeless crippled boy our Board had had in charge for several years. Another appeal caused over fifty homeless children to secure homes in Nebraska. There are other instances, all of which goes to show that the newspapers are real factors in doing good, and that the people with red blood in their veins are willing to do their full share.

Now, here's another: I know of a fine little Lincoln mother, perhaps thirty years of age, with a boy about eight, whose husband has gone to war, and she needs help. All she asks is work. She is a good seamstress and can do other work. She could handle a private telephone booth or do library work. But the little mother—she was raised in Lincoln—is afflicted with infantile paralysis and uses crutches a part of the time. She has been afflicted long before her baby was born. She is a sweet, lovable little woman and feels she cannot give up her boy.

Good people of our splendid state—let me appeal to you to see that this wife of one of our soldier boys, who is now somewhere in France, gets employment. I will supply name and address to anyone really interested, but not to the merely curious ones. Who will be the first to do his or her "bit" by coming to the front with employment this little woman can do? For information, address, Eugene O. Mayfield, Member State Board of Control, Lincoln, Neb.

MAY NOT RETURN THE RAILROADS TO FORMER OWNERS

DIRECTOR McADOO INFORMS THE SENATE COMMITTEE THEY SHOULD BE HELD.

Says Government Should Not Give Up Lines at Least Until Laws Have Been Enacted.

Washington, Jan. 21.—Director General McAdoo told the senate interstate commerce committee today he thought the government should retain operation of the railroads for some time after peace comes and not return them to private ownership until new and comprehensive laws had been enacted to govern them.

"It should be borne in mind," said McAdoo, "that by the end of the war the public and shippers will be accustomed to dealing with the government, and I am convinced that a thorough trial should be given at the end of the war before the railroads are turned back to their owners."

New Situation to Face.

An entire new situation, he thought, would be faced when peace came that would have to be met by new and comprehensive laws, and that it would be injurious to the stockholders to throw the railroads back into private operation without first adopting "comprehensive and rational legislation." This, he was of the opinion, would take time.

"Do you personally believe in government ownership," asked Senator Watson.

"No," replied Mr. McAdoo, "but I do believe it would be impossible to turn the roads back to their owners under exactly the same system by which they were operated when the government took them over. There must be some form of government control."

Principles of Operation Changed.

Senator Watson asked if the railroads, under government control would not continue to operate under their old management, except for orders given from time to time by the director general.

The fundamental principles of op-
