

## JERUSALEM MAY BECOME THE NEW HAGUE AFTER WAR

A LEAGUE OF NATIONS WILL CENTER ABOUT CALVARY, SAYS THIS BRITON.

Surrounding Moral Forces of Historic Biblical Place Would Help Eliminate Bad Diplomacy

London, Dec. 21.—"I believe that Jerusalem, after the war, will become the moral center for the world," said Sir Mark Sykes, a British authority on the affairs of the Near East, in an interview here.

"There is today throughout the world," he explained, "a deep rooted desire that this war shall be the last war. But if this hope is to be realized, there must be some force which will control nations. People talk of The Hague Conference, and yet we know that hitherto these conferences have been, and may be again in the future, just hypocritical conversations between lawyers, diplomats and soldiers preparing for fresh hostilities.

### Higher Moral Force There.

"Moral force and physical must be at the disposal of whatever authority mankind desires to set up to shield the world from war. But the physical force of a League of Nations must be at the call of a moral force higher than The Hague. If you look at Jerusalem, are there not moral forces there stronger than any man could imagine—the moral forces of Calvary and sacrifice, the moral forces of Zion and eternal hope, the moral forces of Islam and obedience?"

Sir Mark believes that there will be a series of pilgrimages to Jerusalem after the war more extensive than that city has ever seen before.

"We have the seeds, Jew, Moslem and Christian, of a trinity of impulses, which all tend Jerusalem-ward. After the war Jews will go in tens and hundreds of thousands, not as colonists, but as visitors, to see where the little seed of Zionism is being planted. Russians will visit Jerusalem in a flood rising perhaps to two or three hundred thousand. I can imagine even that the pope himself might call his children to a pilgrimage of repentance, and untold numbers responding to the call. I can imagine also the followers of other Christian churches going Jerusalem-ward. And I can see Islam participating in the pilgrimage. Jerusalem is a lodestar which affects all these peoples.

### Turkish Rule is at An End.

"After the war we shall have a civilized regime in Palestine, for I cannot imagine even the Central Powers declaring that there can be no peace unless the Turk returns to Jerusalem. The Turk has been there since the days of Selim the Grim, and consequently there have been at work forces which have used Jerusalem for the purpose of fomenting discord in Christendom, of holding Jewry at arm's length, and promoting war and ill feeling among all men.

"What of the future? We need not question who is going to be in Jerusalem. It is sufficient to know that the Turk has gone, and that Jerusalem is therefore minus a strong positive force for ill. The war will give the Turkish clique a great setback in Islam, and that means a

spiritual revival in Islam of a nature different from anything we have seen before. The intellectual, spiritual Arab and Indian will play a great role. Moslems will think more of the Word than the Sword."

### ROY SOUTH AT BOSTON NOW.

From Monday's Daily. Roy South, who has been on the Nebraska for some time past as one of the gunners, will be placed upon a merchant ship for some time, as the Nebraska, has been placed in Dry Dock, for extensive repairs, which will require some three or four months to complete. Their station is Boston and, while the Nebraska is being repaired, the crew or portions of them will be used elsewhere. Roy likes his work very well, and will see some different kind of service now, on the Merchantman, that was given on the battleship Nebraska. The Chicago and Northwestern Railway vs. Borden Keteisen, Perry E. Thompson and Fred Graeber, for difference in the amount of a freight bill arising on account of the error of the billing clerk, who places weight of car load at 30,000 pounds when it should have 56,600, thus making a difference in the rates. The contention is but little less than it would cost the litigants, but they must have the fun of being in a law suit.

## The Value of Chase County Land!

The above facsimile of check represents the landlord's share from 74 acres of the 1917 wheat crop grown on part of the S. W. Quarter of Section 2, Township 7, Range 41, Chase County, Nebraska.

Mr. Ernest Jones, of Macedonia, Ia., bought this land from me on February 24th 1917, for \$20.00 per acre. At the time of purchase there was 74 acres in cultivation and seeded to fall wheat; the purchaser was to receive delivered to market without expense 1/3 of the crop.

This means that the 74 acres cost Mr. Jones \$1,480.00 and from the first crop and within ten months paid him on the investment \$1,225.21; the renter who farmed the land retained 2/3 of the crop, amounting to \$2,450.42. Total returns from this 74 acres \$3,675.63, practically \$50.00 per acre or 2 1/2 times the original cost of the land.

We are still selling land of this class for \$30.00 per acre.

This seems to have been a wise movement on the part of the city school board of that place, for the stitch in time which they are now taking will in the end save many more by reason of going after the plague rightly at the beginning.

## 132 BRITONS ARE RESCUED AFTER A BIG NAVAL FIGHT

TWO TURKISH VESSELS REPORTED SUNK YESTERDAY WERE MINED IT IS SAID.

British Aircraft Continues to Bomb Stranded Vessel—172 Rescued from the One Sunk.

London, Jan. 21.—One hundred and seventy-two members of the crew of the Turkish cruiser Midulla, formerly the German Breslau, were rescued after the action between the British and Turkish forces at the entrance to the Dardanelles, in which the Midulla was sunk, it was officially announced tonight.

Of the total of 310 men on the British monitor Raglan and the small monitor M-28, lost in the action, there are at present reported 132 survivors, the announcement states.

Both the Breslau and the cruiser Sultan Selim, the former German Goeben, the other Turkish vessel engaged were mined, the statement adds. The Goeben is now being continuously bombed by British aircraft in the narrows of the straits where it stranded after it hit the mine.

The Goeben and the Breslau, the statement explains, had emerged from the Dardanelles on Sunday morning to attack British naval forces north of the island of Imros. After the Raglan and the small monitor had been sunk the Breslau was forced into a British minefield.

The Goeben headed at full speed toward the Dardanelles, striking a mine near the entrance.

Turkish destroyers coming to the assistance of the Breslau were engaged by British destroyers and driven off.

Some time ago Guy White and sister, Lillian, departed for the southwestern part of the country, where they visited for awhile. Her brother, however, concluded he would return even though it was cold, and so arrived in Plattsmouth yesterday with a wealth of experiences from the sunny southwest, which he says is nice and warm, with no tinge of the winter that has besieged us on all sides.
