Thrift Stamps!

The war is costing the United States \$1,000,000 an hour. To offset this steady and tremendous drain upon the nation's cash resources, there must be a corresponding stream of dollars flowing into the national treasury.

Thrill stamps and war savings stamps offer the people an opportunity to deposit their daily, weekly or monthly savings with the government.

In return the government will repay the principal with 4 per cent interest, compounded quarterly. As an example of how the investor's money will grow, sixteen war savings stamps, costing 25 cents each, or \$4.00 in all, with 12 cents added, will entitle the depositor to \$5.00 on January 1, 1923.

As an investment, safety considered, there is nothing better on the market today. All the resources of the richest government on earth are behind the stamps.

For some time past there has been a number of children in Murray that seem to have gotten clear out from under their parents' control, or else their parents do not try to control them. At least this is the complaint that has come to the publisher of the Journal. We have been authorized to inform all parents and children as well, that in case there is not something done in the very near future in the way of handling such children, the proper authorities will be notified and they will be dealt with accordingly. A little care at this time may save your children a great deal of grief a little later on.

TOLD TO BEWARE OF POISON IN COSMETICS

Washington, Jan. 27.—Warning to the public to be careful in the use of hair dyes, rouge, hair removers and similar cosmetics because many of them contain poisonous ingredients, was given by the bureau of standards.

"Rouge for cheeks or lips has been the cause of serious mercury poisoning," says the bureau's statement, owing to the presence of vermilion (mercury sulphide). Hair removers are in general quite corrosive in character, such as calcium sulphide and sometimes poisonous as calcium hydroxide with arsenic trisulphide. Dyes used in blackening gray hair generally contain one or more of the salts of silver, lead, copper, iron or bismuth, and can cause serious poisoning when taken internally. It is well to treat all materials of this character as poisonous."

The percentage of substitute flour used by baking establishments will be increased gradually until a twenty per cent substitute is reached on February 2. As substitutes the bakers may use either some other cereal or flour made from potatoes or beans.

Hotels, restaurants and other public eating places will be required to observe the regulations laid down for baking establishments.

MANY RAILROAD ATTORNEYS LOSE THEIR JOBS

Washington, D. C., Jan. 28.—Railroads were ordered by Director General McAdoo tonight to discontinue services of legislative and political agents and all attorneys not engaged in performance of necessary legal work, and to observe strictly the law regulating free passes.

This, the first economy order under government operation of the railroads, will cut off large and well paid staffs maintained by many companies and eliminate from payroll hundreds of lawyers throughout the country who draw annual retainer fees. If it is complied with to the letter, as the director general's office intends to see that it is, thousands of free passes now held by state, county and municipal officials and others will be cancelled.

The order sets forth that during the period of possession, operation and government control of railroads it is necessary that officers, directors and agents of railroad companies be very careful in the handling of moneys and in the dealing with transportation matters.

KAISER HEARS CRIES FOR PFACE ON HIS BIRTH ANNIVERSARY

Amsterdam, Jan. 28.—Yesterday was the kaiser's fifty-ninth birthday if fragmentary dispatches from the German border signify half the things their hidden hints imply.
