A Hint to the Aged.

If people past sixty years of age could be persuaded to go to bed as soon as they take cold and remain in bed for one or two days, they would recover much more quickly, especially if they take Chamberlain's Cough Remedy. There would also be less danger of the cold being followed by any of the more serious diseases.

WAR FINANCE BILL TO PREVENT 'UNCOVERED' LOANS

Washington, Feb. 8.—Secretary McAdoo, before the Senate finance committee explained the War Finance corporation bill as purely a war measure contemplating the lending of money through banks for operation of enterprises necessary to the successful prosecution of the war.

Under the bill's provisions, he explained, should a bank lend money to a munitions factory, the bank could obtain through the war finance corporation a loan amounting to 75 per cent of the sum advanced. These loans could be made to any bank, whether a member of the federal reserve system or not.

Direct loans to concerns engaged in war activities could be made under specified restrictions if it were shown that banks were discriminating against them.

Similar legislation now in force in England and France has been most successful, Secretary McAdoo said. Senator Penrose observed that in England there had not been any issues of "uncovered paper."

"At least the covering is so thin you can't see it," remarked Senator Smoot, "and that is exactly what we are coming to in this country."

Mr. McAdoo said the bill sought to prevent that condition.

Some of the committeemen showed a marked disinclination to have the directors of the war finance corporation appointed by Secretary McAdoo, as the bill proposes, and insisted they should be appointed by the President. Mr. McAdoo said he did not object to amending the bill to meet the objection.

The purpose of the legislation was not to restrict existing borrowing facilities, but to enlarge them, the secretary said. Insurance companies would also be enabled to obtain relief by obtaining loans from the corporation on railroad or war industries securities.

APPLIED FOR CITIZENSHIP.

From Friday's Daily.
Wm. Wegener from Louisville was in this city this morning looking after some business at the court house, coming to take out his first citizenship papers. Many years ago he took out the first papers but allowed them to lapse, by reason of time, and now finds himself in the position of being an alien and is compelled to register as such, after having made his home here for more than twenty-five years. But a little neglect will some times cause much trouble.
