## Thrifty Stamps--

The war is costing the United States \$1,000,000 an hour. To offset this steady and tremendous drain upon the nation's cash resources, there must be a corresponding stream of dollars flowing into the national treasury.

Thrifty stamps and war savings stamps offer the people an opportunity to deposit their daily, weekly or monthly savings with the government.

In return the government will repay the principal with 4 per cent interest, compounded quarterly. As an example of how the investor's money will grow, sixteen war savings stamps, costing 25 cents each, or \$4.00 in all, with 12 cents added, will entitle the depositor to \$5.00 on January 1, 1923.

As an investment, safely considered, there is nothing better on the market today. All the resources of the richest government on earth are behind the stamps.

MURRAY Misses Annie and Sophie Seivers.

Measles seem to be the popular disease in and around the village of Murray and numerous cases are demanding the attention of the physicians.

D. L. Adams, of Bethany, Nebraska, was in Murray the first of the week, shaking hands with his many friends and attending to a few matters of business.

Master Charles Boedeker, who is suffering with an attack of pneumonia, is showing signs of improvement, and with the aid of a trained nurse now employed to administer to his care it is to be hoped the little man will soon be out of danger.

Mr. and Mrs. Harry Creamer are confined to their home with a touch of the old time measles. This is sure tough on Harry, who likes to be up and coming in the open and to be compelled to stay indoors is a sentence imposed, which hurts as much as the ailment.

The wolf hunt, which was scheduled to have taken place on Tuesday, was postponed by its promoters, owing to the severe storm and rough condition of the roads. It is to be hoped this will not be dropped as these animals are very numerous this year, and are causing much trouble to stock on the farms.

## Conserve!

Your Government urges you to conserve on many of the things which you have been used to seeing on your table every day. Do not be hasty with your criticism, but give thought to what conservation NOW means for the future. It is better now while we have, than hunger later. And don't forget that the small sacrifice which you make at home is nothing compared with the sacrifice the boy has made who has shouldered a gun. Help him win. CONSERVE! CONSERVE! CONSERVE!

### WOMAN'S NATIONAL DEFENSE.

### WOMAN'S NATIONAL DEFENSE.

In an article on "Women and National Defense" in the January Bookman, Miss Louise Maunsell Field says pertinently: "Primarily, the Woman's Committee is an advisory committee to the Council of National Defense, and all its plans are submitted to that body before they are put into execution. But it has its own special objects: To eliminate any waste of woman's energy; to prevent unnecessary over-lapping of work; to utilize and centralize so far as may be, every particle of the already existent and available machinery; to standardize women's war work; finding out the best way to do each job, whether it be knitting or canning, clothing or feeding or what not, that no time or strength may be wasted on mistaken or valueless labor, at the same time leaving every organization free to continue its activities in its own chosen field, every community at liberty to work out its own special problems in the manner best adapted to its abilities and its needs. In short, to provide a clearing-house for women's war work, a direct channel of communication between the loyal women of the United States and the government at Washington, so that when the demand comes, whether it be for a "Food Conservation campaign or a "Liberty Loan drive" or any other of a dozen activities, word may be sent without loss of time from the government to the Woman's Committee, from the Woman's Committee to the State Divisions, from the State Divisions to the local units, and the great army of women thus enabled to do its part swiftly and efficiently, these are some of the objects of the Woman's Committee."

"This is the biggest problem before the country today," said Miss Hrbkova, chairman of the Woman's Committee. "We are facing much the situation which Russia is combating. Russia has overproduced, yet through lack of distribution facilities, people in some parts of Russia are facing starvation. The Woman's Committee hopes to find some means of establishing a marketing medium which will bring together the city women who face a shortage and the farm women who are overstocked with vegetables and dairy products."

### PATRIOTIC COUNTIES RAISE FUNDS QUICKLY

An honor roll of counties who have already raised their quotas of the state fund for carrying on the work of the Woman's Committee of the Nebraska State Council of Defense is announced by the treasurer, Mrs. Keith Neville. These counties are Buffalo, Cheyenne, Fillmore, Gage, Hooker, Howard, Keya Paha, Otoe, Stanton, Washington, Wayne and Wheeler. Wayne county has gone over the top to the amount of \$43, while Buffalo, Gage and Keya Paha have each sent in a surplus.

The drive for \$10,000 with which to carry on war work has been instituted by the Women's Committee of the Nebraska State Council of Defense until the next meeting of the legislature when an appropriation will be asked for.

### WOMAN'S CITIZENSHIP AND INFLUENCE WANTED

All foreign-born women in Nebraska are urged to become Americanized and all American wives of foreign men are urged to take out citizenship papers, in an appeal sent out by Miss Hrbkova, chairman of the Woman's Committee of the Nebraska State Council of Defense. Women of every community are also being asked to find what men have not completed citizenship, and to urge them to become Americanized. Statistics given out by Miss Hrbkova show that in Nebraska last year 2346 men took out their first papers, but only 795 took all three steps, and that there are many foreign men here who have not taken even the first step. But a very few women have taken any steps toward Americanization.

Of the foreign-born in Nebraska, the Swedes dominate in Polk, Saline, Howard and Valley counties. Bohemians are most numerous in Knox, Colfax, Butler and Saunders; Russians in Scotts Bluff, Clay and Hitchcock; Italians in Lancaster and Douglas.

### NEBRASKA GIRLS IN WAR SERVICE

Nebraska young women who are responding to the government's call for stenographers and clerks are being advised and aided by the wives of Nebraska congressmen, who have organized into a branch of the Woman's Committee of the Nebraska State Council of Defense. Thousands of young women are crowding into Washington at this time in response to the urgent need. Mrs. George Norris, wife of Senator Norris, has assumed charge of the Nebraska girls working for Uncle Sam, as chairman of the special committee of Nebraska women. She will see that the girls are properly housed, that they are not lonesome, that they are thoroughly comfortable, and happy.

### Word comes from Washington

that a great many more women are needed for office work. The Nebraska committee urges that girls who are trained for the work made application at once, and those who have not the required training undergo instruction at once. The entrance salary ranges from \$1,000 to \$1,200 a year, and advancement is reasonably rapid. Applicants must have reached their eighteenth birthday. Application blanks may be secured from the U. S. Civil Service Commission, Washington, D. C.

### SPRING DRIVE FOR MORE FOOD.

Resolutions to concentrate on the problems of food production and conservation during the spring months were passed at the February meeting of the Executive Board of the Woman's Committee of the Nebraska State Council of Defense. The serious problems of the distribution of food products will be investigated thoroughly, and all possible help secured for the producers.

Mrs. F. M. Dewese, of Dawson, recently appointed chairman of the Food Production committee, was delegated to confer with Nebraska's food administrator, Mr. Wattle, concerning the possible government solutions of the problems of labor, market and transportation. She will also seek the viewpoints of the women producers themselves as to their needs.

"This is the biggest problem before the country today," said Miss Hrbkova, chairman of the Woman's Committee. "We are facing much the situation which Russia is combating. Russia has overproduced, yet through lack of distribution facilities, people in some parts of Russia are facing starvation. The Woman's Committee hopes to find some means of establishing a marketing medium which will bring together the city women who face a shortage and the farm women who are overstocked with vegetables and dairy products."

### SHIPYARD STRIKE AT END; MEN RESUME WORK TODAY

INTERVENTION OF PRESIDENT TERMINATES TIE-UP AT ATLANTIC COAST PLANTS. Believed Hutcheson Now Willing to Renew Relations with the Adjustment Board.

Washington, Feb. 18.—President Wilson's intervention has terminated the eastern ship yard strikes. Reports tonight to the shipping board from union heads in all districts in which carpenters are out, said the strikers would be back by noon tomorrow.

William L. Hutcheson, president of the Brotherhood of Carpenters and Joiners, who was due here today did not arrive but is expected tomorrow to take up the situation with government officials. Although heretofore Hutcheson has declined to leave the shipbuilding labor adjustment board a settlement of the carpenters' demands, officials believe that after President Wilson's message of last night, he at last will be willing to renew relations with the board.

The carpenters' brotherhood, it was brought out tonight, was made a party to the creation of the adjustment board by the signatures of its vice president, but Hutcheson overruled his subordinate's action. This fact, according to V. Everett H. Macy, chairman of the adjustment board, is causing the present trouble at Seattle, where carpenters are trying to enforce a closed shop. All carpenters in the western yards agreed to the Pacific wage award, Mr. Macy said, until they learned recently that Hutcheson had repudiated it.

### BERLIN PAPER AROUSED BY EDICT OF POLISH COUNCIL

London, Feb. 18.—"Nothing less than a declaration of war upon Germany and Austria," the nations which "released Poland from the yoke of czarism," is the way the Berlin Lokal Anzeiger characterizes a recently published proclamation by the Polish government council which, like the Polish ministry, was recently reported to have resigned, according to an Exchange Telegraph dispatch from Copenhagen. The proclamation declared that the central powers, after having guaranteed the independence of Poland and promised the Polish state its friendship, help and co-operation, nevertheless refused Poland representation at the Brest-Litovsk peace conference and brought peace with the Ukraine by handing over a province completely Polish without consulting Poland regarding it.
