M., in Cass county, Nebraska; that they are now the owners of all of the aforesaid lands and that they acquired title through deeds of conveyance, duly executed and acknowledged, from the heirs of Martha Shoffer, deceased; that no administration of the estate of the said Martha Shoffer has been had in the state of Nebraska; and that not more than two years has expired since her death; they pray for a determination of the

Thomas A. Edison Has Honored Us. Thomas A. Edison, the master inventor, through the Edison Laboratories, has granted us the privilege of an Edison dealership for Plattsmouth and vicinity. We have become an outlet to the public for one of the most wonderful and successful products of the Edison Laboratories.

The NEW EDISON "THE PHONOGRAPH WITH A SOUL"

No doubt you have heard several different kinds, styles and makes of phonographs, talking machines, etc. Suppose, when you had listened to a record of some great singer, some one should have asked you if you thought you could distinguish between the record you had just listened to and the singer who made the record, if you heard the inside by side. You would be highly indignant, would you not?

Couldn't Tell Voice from Edison Re-Creation

Would you feel indignant if we were to tell you that you cannot distinguish the voices of living artists or the music of human-played instruments from the New Edison's Re-Creation of them? You might be justified in feeling so until we confirmed the statement with the information that upwards of a million music lovers and the music critics of more than a thousand representative American newspapers have admitted that they could not discover the minutest difference between living artists and the New Edison's Re-Creation of their art. These music lovers and critics have heard thirty Edison artists put the New Edison to the supreme and conclusive test of direct comparison

Edison Diamond Amberola (Chippendale Design)

by singing or playing side by side with its Re-Creation of their voices or the music of their instruments.

Come—Hear for Yourself. If such testimony does not convince you, come to our store and hear the New Edison for yourself. If it does convince you, come and let the New Edison confirm your conviction.

Edison Re-Creations cover a magnificent range of music; the musical masterpieces of the world rendered by the supreme artists of the world; immortal melodies played by individual artists of renown or by famous organizations of musicians; old favorites and new favorites of all kinds and classes of music—all of these are found among the Edison Re-Creations.

New Edison Stands Alone. Discriminating musicians and music lovers of the highest culture and refinement acknowledge that the New Edison is without a peer among sound-reproducing inventions.

Musical lovers of Plattsmouth are most cordially invited to attend demonstrations of the New Edison which will be given daily in our Edison Department.
