IT IS NO PICNIC JUST NOW.

From Wednesday's Daily.

George K. Staata and Miss Gerda Petersen, the two dispatchers at the postoffice, are kept pretty busy at this time getting in trim for the coming annual examination which they are required to pass. There are one thousand and ninety post offices in this state, and some ninety divisions, according to the distribution scheme applicable to this office, and in casing the cards, one for each of the offices, it is required that sixteen be cased each minute and that they pass an examination 95 per cent perfect.

Mr. Staata in a trial of speed the other evening cased the entire number in 48 minutes, with but two mistakes, and these two were an error of the hand and not of the mind. The office here is certainly fortunate in the fact that it has efficient people in the dispatching department.

STATUS OF MOTHER BARS YOUTH FROM THE NAVY

"Go home and coax your mother to marry an American," was the advice officials at the navy recruiting station gave Alfred Christensen, 18-year-old Danish boy from Blair, who wanted to enlist Monday, at Omaha.

Christensen was born in Denmark and brought to America when he was 4 years old. His father died in Denmark and his mother has not taken out naturalization papers, so the boy cannot be accepted for service until either his mother takes out her second papers or until he becomes of age and take out citizen papers; but if his mother were to marry an American, both she and her son would be Americans.

"Marriage is the quickest solution," grinned the young Dane, but he did not promise to recommend it.

THEED STEWART BECKSTROM

From Wednesday's Daily.

The above is the name of a young man who now makes his home in Scottsbluff, and who is connected with the firm of E. W. Beckstrom & Co., painters and decorators in that city, by virtue of being the junior member of the firm. The young man took controlling interest in the business on March 18th, and weighs eight and one-half pounds.

The other members of the firm, Mr. and Mrs. E. W. Beckstrom are very proud of the new accession and at last reports all were doing well.

ACTION BY JAPS IN FAR EAST O. K. CABLES DECLARE

San Francisco, March 19.—Opposition by the allied governments to Japanese intervention in Siberia, is disclaimed by cables received here today from Tokio. The British and French ambassadors, the advice says, have presented a formal request for such action, and Roland S. Morris, the American ambassador, has announced that the move is not opposed by the United States.

The request of the allies, the cables say, was that the Japanese government take all such measures which Japan deems essential for the protection of the allies interests in east Asiatic Russia.

The critical situation in Siberia has stirred official Japan to great action. The emperor has returned to Tokio from the Hayama palace. Elder statesmen have been recalled by the monarch for conference. Premier Terauchi and other cabinet members, as well as officers of the army and navy, also have been given an audience.

BULLETIN NO. 21.

Omaha, March 14, 1918.
To All County Federal Food Administrators:

Gentlemen:
I have just been advised from Washington that in the case of licensed bakers, there is an exception to the 70 per cent rule. In their purchases of flour for manufacturing bread and rolls.

A baker in such instance may purchase 80 per cent of his normal current requirements of white flour, irrespective of the amount used at a previous time. The limitations on purchases by bakers, of white flour, are the 30-days' supply rule and the substitute rule requiring them to buy 25 per cent of substitutes with white flour purchased.

Hereafter, all mills will be required to make what is known as 100 per cent flour; that is, from 264 lbs. of wheat, they must obtain 196 lbs. of flour. From the 196 lbs., no further extraction may be made, except in flour manufactured for the Army

or Navy, from which not to exceed a 5 per cent extraction may be made. This 5 per cent may not be sold for purposes other than human consumption, except by special permission of the United States Food Administration.

Mixed flours containing less wheat flour than wheat flour substitutes may be sold without substitutes. A retailer shall not sell mixed flour containing more than 50 per cent of wheat flour, to any person, unless such person purchases from him at the same time an amount of wheat flour substitutes sufficient to make the total amount of such substitutes, including the substitutes in the mixed flour, equal to the total amount of wheat flour in such mixed flour. Rye is not a substitute, therefore, substitutes must be sold with blended rye flour, for every pound of wheat in such flour.

Soda fountains making their own syrup, or ice cream manufacturers, are treated as manufacturers, and as such are entitled to obtain 80 per cent of their last year's purchase of sugar. They are not subject to the 50c and \$1 limit rule, but may be sold sugar in reasonable quantities.

Very truly yours,
GURDON W. WATTLES,
Federal Food Administrator for Nebraska.

Miss Vivian Everett of Nebraska City, but who is teaching near Union was a visitor in this city last Saturday coming to attend the lecture given by Prof. F. S. Jean at the court house last Saturday.

Joseph Hadraha and Joseph Panos returned this morning from Kansas City, where they went last Friday evening to visit with some of the boys from Camp Funston, whom they expected to meet there. There was only one of the fellows who came that being James Cernek, who was the partner of Joseph Cezek, who went with the other boys to Kansas City. He remained and returned to Camp Funston with his friend, and will visit for a few days at the camp before returning.

**The Suits**

we are selling now

are the best suits we expect to get our hands on for a long time to come. The immutable law of supply and demand has been closing in on the wool situation until it has narrowed down to a simple question of "go without." The clothes of the future will be "wool-less" clothes. They will be coarse and thin and rough and slazy. We're not going to complain about it, are we?—we're going to take our medicine and smile and make the best of it just so long as it helps "lick the Kaiser." But why not buy one or two good suits from present stock before they are gone? A great many are solving the problem this way. Our prices are still on the lower shelf—\$15, \$17, \$21, \$25, \$27.50, \$30 and up. These are just about 1/2 what inferior materials will cost you next year. Come in, let's talk it over.
