LETTER TELLS OF NAVY EXPERIENCE

EARL SWEENEY WRITES FROM U. S. S. MICHIGAN TO HIS UNCLE STANFIELD.

From Saturday's Daily.
Earl Stanfield is in receipt of the following letter written under date of February 15th, by his nephew, Earl Sweeney, who is detailed to duty on the U. S. S. Michigan as fireman, first class:
"Dear Uncle Earl: Received your letter of recent date and I am glad that you are well. Will try to write my experience in the Navy up to this date.
"I enlisted in Omaha on the 17th day of April and left that evening on the Northwestern for Chicago and the Great Lakes. We arrived in Chicago at 11 o'clock the following morning and at one o'clock we were in Great Lakes. We were taken to Detention camp, where we had to undergo a physical examination again and also to be vaccinated. We were given our bag allowance of clothes and the next morning were taken to the main camp and put in barracks. We stayed there but six days and left for Boston the following Tuesday. The trip to Boston was a long, tedious ride and we were all glad when the destination was reached.
At Boston we were quartered in the Commonwealth Pier, along with nearly 1,600 other sailors, or boots, as the newly enlisted men are called. During our stay at the Pier we drilled most of the time. Every Sunday some organization would entertain us. We rated liberty every other night and 48 hems every other week.
"On May 28th there was a call for men in the Engineering Force, and I changed my rate along with many others, and on the next day left on the Kershaw, a merchant and miners' passenger boat for Norfolk, Va. The boat traveled slowly and we did not arrive there until two days later.
"On June 3rd I was transferred, along with a former schoolmate to the U. S. S. Michigan.
"My rate was 3rd class fireman when I went aboard the Michigan, and pay was \$26.00 per month. I made 2nd class in September with an increase of \$5.00 in pay and then made 1st class in November with another \$5.00 increase.
"I will have to close now as it is nearly nine o'clock.
"Hoping you are well.
EARL SWEENEY."

FIRST SPRING STYLES

Ladies', Misses' and Children's Smart Hosiery
Underwear, Gloves, Blouses, Aprons

A Complete Presentation of Authentic Fashions for Spring!

THE striking feature of these opening displays is the silent tribute they pay to the ingenuity of American designers and the skill of American manufacturers. Restricted use of materials has created a new type of fashions—fashions that are truly all American, with simplicity that shows high regard for the nation—a spirit of conservation and reflects the spirit of democracy.

THE keynote of Spring styles is just this—they have been developed along simple lines to meet the needs of a nation at war. And American genius has given to them a distinctiveness and attractiveness that has hardly been hoped for, considering the handicaps under which the fashion authorities have been obliged to work. Never has been assembled in Plattsburgh a more charming variety.

Every Section is Prepared With Extensive Varieties for a Great Spring Business
—and advantages in early buying are everywhere evident.

Dresses in Many New Modes
The new dresses defy description so many and varied are the designs; the tailored styles for street wear, severe in line and simply trimmed are equally as charming as the dressier ones that introduce, among other novel effects, the bolero waist. The women who adore smart frocks for early Spring will take great pleasure in choosing now.

Individuality in Suits
Spring suits run from one extreme to the other—they are either strictly tailored in mannish fashion or delightfully feminine; and one is puzzled to know just which type is most attractive. Fabric limitation has resulted in the return of the little Eton jacket and many other smart combinations that afford unlimited variety and individuality.
