A. W. Smith departed this morning for Omaha, where he has some business to look after for the day, and while awaiting at the station for the train, he said, "I was over to Carson, Iowa, yesterday, and the Burlington train number four was crossing the bridge as I was crossing the ferry, and I beat it to a point of fifty miles east by twenty-five minutes."

"First Long Pants" Suits

This is a trying experience both for parents and for boys. Mother can't bear the sudden change; father can't bear the extra price and the boy can't bear to think of his "first appearance." We have bridged this difficult situation for many a boy and we were never better prepared to handle the case than we are this Spring. We have had this boy particularly in mind and have so thoroughly covered his needs that the whole family will find it a pleasure to select "His First Long Pants Suit." You'll wonder at these prices, but they're here—\$7.95, \$8.95, \$10.95, \$12.95, \$15 and \$17. As the Scotchman says, "ya canna beat it." Bring the boy in and let us prove our claims. Not one but many suits to show him in sizes 15 to 20 years.

ALLIES CONFIDENCE IN ULTIMATE VICTORY UNSHAKEN

BELIEVED THAT THE INITIAL ONRUSH OF THE ENEMY HAS BEEN CHECKED.

Paris Suggests a Trump in Hand That Will Out Trump the Germans.

French Front in France, March 26.—Entire confidence reigns that the Germans will be over-trumped when the proper moment comes. The allied military authorities were fully cognizant that the enemy's supreme effort would cause a retreat until measures could be taken to check the irruption into the allied positions.

As always, the attacks possessed the advantage of knowing exactly where they could launch their onslaught, while the defenders were compelled to await development of the battle before meeting the onrush with counter measures. There is every sign in today's situation that the terrific attack, in which apparently somewhere in the neighborhood of 1,000,000 Germans of all arms are engaged, is being slackened. The resistance of the allies seems firmer and the arrival on the scene of French reserves, sent up to the southern flank brought welcome support to the British who sustained the first powerful rush.

The German divisions which began what evidently was intended to be an irresistible forward movement were so cut up that they were replaced by fresh formations.

It is these divisions which have been checked at the positions on which it was foreseen by the allies generals that a stand would be made.

The ground over which the fighting has taken place possesses small tactical value, but it permitted the allies to retire in perfect order. It has been devastated by the Germans before they retreated last year and the inhabitants had not had time or means to build it up again. While retiring across what was almost desert land the British inflicted enormous losses on the enemy, who threw away thousands of lives in an effort to overcome the resistance he encountered. When the retiring British reached the Somme and the canal they turned about and gave battle, meeting repeated and long-sustained endeavors of both infantry and cavalry.

The initial rush of the enemy seems to have been stopped. Military opinion generally is that this first phase of the great battle, in which even more troops were employed than in the battle of the Marne, gives no indication what the result will be. Nevertheless, developments are awaited by the allies without anxiety.

DISCIPLES EMERGENCY DRIVE.

The Disciples of Christ in this country find war conditions precipitating an emergency of serious nature upon all their eleemosynary work. Their leaders are moving strongly to meet the situation.

At this writing, State Conferences are in progress. A team of eighteen missionaries, college presidents and missionary leaders, is touring the country and creating wonderful enthusiasm. Their hearts are in this drive.

People are stirred to the depths. A pastor in the middle west said, "I have always been a conscientious worker, but as I look back, my ministry seems as nothing in comparison with what it should have been. I realize more keenly than ever that I stand between a suffering Christ and a sorrowing, sinful world. Henceforth, no occasion is unimportant, no service insignificant."

Business men are attending the Conferences in large number, and everywhere they are a bulwark of strength. They stand for large measures. They urge vigorous and immediate prosecution of the task. The chief women are present in every Conference. There is but one voice from them. It is for complete consecration and for unstinted service.

State apportionments have been made. They are larger than anything the church ever favored before, but they are received in a spirit of devoted courage. Reports already in give promise of success. A western church has already secured pledges aggregating five times their total missionary gifts of last year. This is but one of many rays of hope already apparent. The Disciples in this state has held a stirring conference and are already organizing and prosecuting a campaign to reach every member of every church in the state.

The Emergency Drive contemplates the raising of \$2,250,000 before June first to reach the goal of the Men and Millions Movement, \$6,300,000, and to provide an extra million or more for the immediate relief of the war emergency.

GERMANS WRITHE IN PAIN AS CANADIANS LET LOOSE GREAT SURPRISE GAS CLOUD

Canadian Headquarters in France, March 24.—While German and British troops were struggling far to the south in the opening clash of the spring campaign, the greatest projector gas bombardment of the war was carried out by the Canadians Thursday night against enemy positions between Lens and Hill 70.

At 11 o'clock a signal rocket was sent up. A moment later more than 5,000 drums of lethal gas, simultaneously released from projectors, were hurled into enemy territory from the outskirts of Lens to Cite St. Auguste and Boise De Dix-Huit.

PRICES ALL F. O. B. FACTORY
3 per cent War Tax and Freight to be added here.
For full particulars we invite you to call at our office.

T. H. Pollock Auto Co.,
Telephone No. 1 PLATTSMOUTH

From his front lines and strong points favoring winds carried the poisonous clouds back upon the enemy's dugouts, supports, reserves and assembly areas.
The whole front was lit by enemy flares which could be seen through the heavy mist, while the enemy's gas alarm and cries of distress could be heard from the hostile-trenches.
Nine minutes later the Canadian field artillery, supported by heavy guns and trench mortars, opened up with a slow bombardment, increasing in violence until, 40 minutes later, the enemy positions were swept with a short, intensive creeping barrage, which raked his forward and rear areas with high explosives.
Caught by the gas without a moment's notice as they were emerging from their shelters by gun fire, the Germans' casualties must have been

very heavy, for the effectiveness of smaller gas operations has been emphatically proved by the evidence of prisoners, and tonight's bombardment was three times greater than anything of its kind ever attempted by the Canadians on the western front, and much greater than anything ever launched by the Germans.
