WAGON OVERTURNED AND UNFORTUNATE MAN DOESN'T LIGHT JUST RIGHT.

William Tritsch Injured at Home of His Brother, Edward—Comes at Bad Season of Year.

From Thursday's Daily. While assisting in hauling hay on the farm of his brother, Edward H. Tritsch, William Tritsch slipped from the wagon when it overturned and was thrown to the ground, striking his head and shoulders with great force. The collar bone was fractured, and William will have to be laid up for a number of weeks. With the busy season here is a great misfortune to Mr. Tritsch that he should be injured at this particular time. William is staying at the home of his brother, Ed, where he was at the time the accident occurred and is getting along as well as could be reasonably expected.

SHE SPILLED THE RICE

From Thursday's Daily. Yesterday afternoon at the time of the departure of the 3:20 train for the west, Mrs. Roy Knorr, being anxious to show all honors to her friend, formerly Miss Myra Stenner, but then Mrs. E. B. Chappell by but an hour's time, was at the depot to see the happy couple depart. She had secreted in her handkerchief some rice, and when she attempted to throw it, it all went on the pavement at the station. The merry crowd who were awaiting the arrival of the train were all taken with a lively titter, not at the expense of the winsome bride but of Mrs. Knorr herself.

Mr. and Mrs. Chappell departed for Lincoln, where they will visit for a short time, and then go to Osmond, where they will visit at the home of Mr. Chappell's mother and later return to Lincoln, where they will make their home.

BESTOWED WITH HONOR.

From Thursday's Daily. At the last regular meeting of the Boy Scouts, Scoutmaster Sprecher had the pleasure and privilege of decorating Geo. Schmidtman and Geo. Thomas with medals attained in the second liberty loan drive. In order to obtain one of these medals a scout is required to sell liberty bonds to at least ten different individuals. Both boys sold more than was needed to win the medal. These medals are given by the government in appreciation of the scouts' patriotic service. They are made of bronze and are very attractively designed. Troop No. 1 is very proud of these scouts and we hope that many more scouts may have the honor of wearing one of these medals after the present drive.

TWO NEW FLAGS.

From Thursday's Daily. Last evening we noticed two bright new flags floating in the evening sunshine, one from the window of the workshop and warehouses of Mayor Sattler, the other from the rooms over the store of Dovey & Co. These are an addition to those just recently floated, and makes the street look better. There is room for some more on Main street.

And this morning departed for his home in Lincoln. The lathing or the building both with the wood and metal lath is going forward, which will insure the plastering in the near future. The remaining plumbing, and the setting of the heating apparatus will not be done until after the plastering has been completed.

If I Were a Farmer.

If I were a farmer I would keep at hand a few reliable medicines for minor ailments that are not so serious as to require the attention of a physician, such as Chamberlain's Colic and Diarrhoea Remedy for bowel complaints. Chamberlain's Cough Remedy for coughs, colds and croup. Chamberlain's Liniment for sprains, bruises and rheumatic pains. Chamberlain's Tablets for stomach troubles, biliousness and constipation.

By having these articles at hand it would often save the trouble of a trip to town in the busiest season or in the night, and would enable me to treat slight ailments as soon as they appear, and thereby avoid the more serious diseases that so often follow.

SPECIAL MOTOR TO BE USED IN SHARP DESIGNED TRACTOR

POWER PLANT DEVELOPING 50 H. P. AS INITIAL ONE BEING PUT IN SHOPS.

Will Develop Power for Operating Machinery There Preliminary to Becoming an Output.

From Thursday's Daily. The tractor which is in process of manufacture at the Western Machine Works will have its special Sharp designed power plant thoroughly tested out under actual working conditions as one of the engines intended for installation in the machine shops, where it will be used for generating power to operate the numerous machines. As we visited this busy institution this morning the new engine was being connected up for the purpose of testing it out. Fred Wynn was busily engaged in looking after the matter and had the motor running at the time we were there.

The smoothness with which this specially designed engine runs is of itself a good demonstration of its ability to perform the labor required of it. The engine is a thirty h. p. motor, and when it has shown its fitness to develop power for the machines in the Western Machine shops it will have given a good demonstration of its ability for use in the new tractor. The tractor will be but one of the contemplated items of output from the new institution which is to be erected here this summer by the Auto Power and Malleable company, when it takes over the present operating Western Machine works.

At the Western this morning, we also found them busy completing what is known as the Blanchard vapor bath cabinet. The one being completed is to go to the Grand Island Sanitarium.

The cabinet is so arranged that the thermo electric heater almost instantly causes the vapor to be generated upon the touching of a button which connects the electric current. With this kind of a portable cabinet any kind of a medicated bath can be given and at any desired temperature. Thomas Mahoney is doing the finishing of the cabinet in white enamel.

FATHER JOHN HALMES IN TOWN

From Thursday's Daily. John Halmes who lives some six miles west of the city, was in the city yesterday, and one would think he was an electric light the way his face shone with a smile. We spoke a few words to him, about the crops and so forth, he saying everything was getting along fine, and when we asked about the folks, the smile became broader and we knew something had happened. We just said boy or girl and John said girl. Then we knew. Mother and the wee bit of humanity doing the best and John, well he will be all right when the weather gets warm.

The Tourists Triangle Tour

Note the Burlington Map and Its Three Western Trunk Lines:

- (1) NEBRASKA-BILLINGS, GLACIER PARK.
- (2) NEBRASKA-DENVER-COLORADO, WEST.
- (3) DENVER-BILLINGS-YELLOWSTONE, NORTH.

Note the geographical triangle formed by these Burlington lines and what a comprehensive northwest tour they offer—ONE WAY via Denver, Scenic Colorado; ONE WAY via Rocky Mountain National (Estes) Park—with 700 miles of mountain panorama, from Denver to the Yellowstone, and to Glacier Park, the climax of the Rockies' rugged grandeur; ONE WAY alongside the Big Horns and the Black Hills. This is truly a THREE-PARKS-ON-ONE-TRIANGLE TOUR. The new Denver-Casper main line makes possible this circuit tour that comprehends the east slope of the Continental Divide from Colorado to the British boundary.
