

IOWA Cream Separator

equipped with the Patented "Curved Disc" Bowl, will soon pay for itself with the butter fat which it saves and which would be lost in the use of the ordinary straight disc separator. The Curved Disc Bowl of the "IOWA" gets all the butter fat, whether the milk is hot chilled or cold. Butter fat selling at 50 cents a pound—\$1,000 per ton—is the most valuable product on the farm. You cannot afford to lose one single drop of butter fat. Increase your cream check every week by using the "IOWA" equipped with the Curved Disc Bowl—the only Cream Separator that gets the last particles of butter fat.

DEVICE TO BURN COAL OIL FOR POWER PROVES A GREAT MEANS OF SAVING

With Conservation of Gasoline the Order of the Day It Should Fill Long Felt Want.

From Tuesday's Daily.
Sunday as we were passing along the street, we noticed a car going by which was almost noiseless in its operation, although going at a speed that bespoke of the expenditure of more power than was apparent. As it flashed by, we noticed in letters on the side of the car Coal Oil Carbureter used. We thought to investigate this manner of using coal oil instead of gasoline, but the car was away and out of sight before we could hail it. However, we later got in touch with it.

What We Found
We found it was a car equipped with "The United States Carbureter," which on inquiry we found to be a kerosene or coal oil carburetor, producing more power out of kerosene than others have been able to produce from gasoline. As the coal oil is cheaper than the gasoline and the carburetor saves a good portion of that, it is figured that the universal use of this carburetor, would effect a saving of over a million dollars per day.

What the Carburetor Will Do
As a fair test of what this carburetor will do, we found that three gentlemen living in Omaha, during a recent trip from Florida to Omaha, traversed a distance of 2480 miles, over all kinds of roads, some muddy and some dry and good. The distance was made at the trip rate of 27.4 miles on a gallon of fuel used, which was mostly kerosene. There was used on the trip 85 gallons of kerosene and 5 gallons of gasoline, as at one place they needed fuel and it was not possible to get the coal oil on Sunday, so gasoline had to be used instead. Six quarts of lubricating oil were all that was required to bring them safely home.
This remarkable feat was performed with a 1917 Ford car and

with a load which made the weight over all equal 2550 pounds. The total cost for fuel and lubricating oil was eight-tenths cents per mile, or a mile and a quarter to the cent. This trip was made by Dr. J. Stanley Hill, W. H. Calder and T. P. Durrance, all of Omaha.

A Plattsmouth-Omaha Company
This company is composed of four gentlemen, two from Plattsmouth and two from Omaha, but all being formerly residents of Plattsmouth. They are Dr. C. A. Marshall and Henry F. Goos, of Plattsmouth and Henry R. Goring and Thomas Murphy, of Omaha. These men are putting this carburetor on the market and are selling them at from \$36.00 to \$100.00 each, depending on what kind of a car they are to be used on. The shares of stock in the company which represent at par value a hundred dollars each, are selling now at one hundred and twenty-five dollars per share. This in itself speaks well for the carburetor.

We are hoping that the people—Plattsmouth and former Plattsmouth citizens—who are behind this new device, may realize handsomely in return for the time and money they have devoted to getting it placed on the market. It certainly looks to us like one of the best investments one could make to equip their car with this fuel saving device.

DOLLARS ROLLING IN AS BIG DRIVE FOR LOAN GOES ON

MANY CITIES ARE ALREADY ANNOUNCING QUOTAS OVER-SUBSCRIBED NOW.

Washington, April 15.—The nation has raised its pledges of Liberty loan dollars to \$691,611,899. This, the total at the close of business Saturday, is \$118,000,000 more than had been reported to the treasury before today.

A large proportion of the sum represents subscriptions by individuals for comparatively small sums. Many messages to headquarters today said banks in some districts are withholding their pledges until late in the campaign when they can determine better what they need to fill orders of customers. By banks, the item of interest on initial payments also is considered more closely than by individuals and this is one of the factors causing them to hold back their subscriptions.

The situation is considered encouraging, since it indicates a big number of subscribers and better distribution of the country's financial burden.

From the Minneapolis district today, where the campaign had just opened, came reports that farmers were buying liberally, and that communities with large German populations had shown particularly good records in the first day's canvass.

MISS RUTH PARMELE BETTER

From Tuesday's Daily.
Miss Ruth Parmele is reported as being somewhat improved, though still rather sick. Miss Ruth has been very sick for some time past. She had not been feeling the best, and was attending school at Omaha, but on account of the hard studying she was doing did not pick up with her health, and was kept from school. This did not restore her health, she was therefore taken to Omaha, where she was operated upon for the removal of her tonsils which were hurting her health, and not being very strong, she has had a serious time but at this time is showing some recuperative strength, which is pleasing to her parents and many friends in this city. It is hoped that she will soon be on the highway to complete and lasting recovery.

WERE MARRIED LAST EVENING.
From Tuesday's Daily.
Last evening there hopped off the train a couple hailing from the northland, whose appearance and actions denoted the approach of marriage celebration. Nor were the indications wrong, for they wended their way to the office of the county judge, and there made application for a license to wed. The young man gave his name as John A. Hallosele, aged 26, and the young lady, as Vera Pearl Vroman, hailing from Cornova, South Dakota. The permit was issued, and the judge pronounced the ceremony which made them man and wife. The witnesses being Dr. G. H. Gilmore of Murray and J. W. Holmes of this city. Apparently they were entire strangers in this city, but the young lady was born here twenty years ago, and her mother is making her home, whom the couple surprised afterwards, when they went to the home of Mrs. Lillian Baker, whose daughter the bride is. The father being C. E. Vroman who died here a number of years ago.

CARD OF THANKS.

We desire to take this method of expressing our most heartfelt thanks, to all who were so kind to us during the hour of sorrow, the death of our darling little daughter, Christina. Especially, do we wish to thank you for the beautiful floral tributes. We, also, wish to thank the Mechanical Girls of the C. E. & Q. shops and Mr. George Luschnisky.
MR. AND MRS. C. C. MURRAY.

Don't Let It Linger.

A cough that "hangs on" wears down the sufferer, leaving him unable to ward off sickness. Jos. STOP COUGHING

The simplest and best way to stop coughs, is to take **Foley's Honey and Tar**

You get the curative influence of the pine balsam together with the mollifying effect of the honey, and other healing ingredients. It leaves a soothing coating on the inflamed itching throat, raises phlegm easily and puts a quick end to hard wearing coughs.

R. F. Hall, Made, Va., writes: "One bottle of Foley's Honey and Tar stopped a troublesome bronchial cough and irritation that had bothered me for three weeks. Your druggist sells it. Try it."

"SOLD EVERYWHERE."

TO VISIT SCHOOLMATE.

From Tuesday's Daily.
Rev. J. H. Steger was a passenger to Omaha this morning where he goes to meet a schoolmate who studied at school in Germany with him, some thirteen years ago. The friend's name is Henry DeWald, and was born in Texas, and lived there until he was a young man, when he studied for the ministry, and took a course in the school in Germany. Rev. DeWald is located in Wisconsin at this time, and has just been to West Point, Neb., where he preached last Sunday, and is now on his way to Texas, where he goes to visit with his mother.

TOKA CAMP FIRE.

From Monday's Daily.
From the Patriotic Fund, the Camp Fire Girls have been able to buy and present a flag for the Library and for the Riverview Park on the north side. Besides this, they are able to buy a bolt of gauze now and then to be used in Red Cross work. As soon as flag poles are erected, a suitable flag raising ceremony will be given.

Toka Camp Fire will meet Wednesday evening with Mrs. Stanfield for a business meeting. Standing Committee will report at 4 o'clock. Camp Fire Girls will be glad to call at your home for books or magazines for the soldiers.

DID NOT ALLOW MATTER TO BE GIVEN A TRIAL

From Monday's Daily.
Some time ago Lew Young and son, Parr, purchased a horse at a sale of one Andrew Poulsen, which proved to not be as represented, according as is averred by these men, and when the defects which they declare had been kept covered, were observed, the horse was not taken, but the check had been issued, and when it was asked back, a promise was given but not complied with. Therefore Messrs. Young were compelled to enter suit to obtain the money, as the check had been cashed. C. A. Rawls appeared for Messrs. Young, and instead of the matter coming to trial, Mr. Poulsen sent a check covering the amount and costs of the suit.

LICENSED TO MARRY

From Monday's Daily.
Last Saturday a permit to marry was granted William Ditmar, Jr., and Hattie Kiechhoff, of near Weeping Water. They are young people living in that vicinity and among the best young people of the community. They will continue to make their homes there and will engage in farming.

This Women Found Relief.

Backache, sore muscles, stiff or swollen joints, rheumatic pains, dizziness and like symptoms are caused by disordered kidneys and bladder. Mrs. Thos. H. Davis, Montgomery, R. F. D. 3, Ind., writes: "I doctored months without relief. I commenced using Foley Kidney Pills and got relief. Eight bottles cured me." Sold everywhere.

FAST SCOUT SHIPS TO SEEK TRACE OF MISSING COLLIER

CYCLOPS COMMANDER A GERMAN BY BIRTH—APPREHENSION IS FELT.

Theory Advanced Enemy Agents May Have Got Control of the Ship in Some Manner.

Washington, April 15.—Unremitting search of trade routes will be carried on by American and French naval and merchant vessels until every possible hope of finding some trace of the missing naval collier Cyclops has been exhausted. Secretary Daniels has ordered additional fast scouts detailed for this service. Navy officials frankly confessed that no theory yet advanced to explain the disappearance of the Cyclops from March 4, when it left Barbados, seemed plausible in the face of the facts.

While it was true that one engine was out of commission, enough power remained to drive the big ship ten knots an hour.

Mutiny Theory Advanced.
Enemy agents might have gained control in a midnight mutiny, but even in such a well nigh impossible event, lack of coal would have prevented an attempt to start on a trans-Atlantic voyage.

The possibility that a sudden hurricane not infrequent in those waters, might have first disabled and then engulfed the collier, was admitted, but again it was pointed out that some evidence of the disaster must have been left in this case. Moreover, there has been no report of a hurricane.

As to a report that a member of the crew had written relatives in Baltimore regarding an explosion on the Cyclops several weeks ago, it was stated at the Navy department that nothing of the sort had been reported by Lieut. Commander G. W. Worley.

Commander Born in Germany
San Francisco, April 15.—Mrs. A. M. Angermann of this city, a sister of Lieut. Commander G. W. Worley, commanding officer of the missing naval collier Cyclops, said today her brother was born in Germany, but came to this country when a child. He enlisted in the navy when a youth, she said and had served in it continuously, working his way up to a commission.

The Tourists Triangle Tour

Note the Burlington Map and Its Three Western Trunk Lines:
(1) NEBRASKA-BILLINGS, GLACIER PARK.
(2) NEBRASKA-DENVER-COLORADO, WEST.
(3) DENVER-BILLINGS-YELLOWSTONE, NORTH.

Note the geographical triangle formed by these Burlington lines and what a comprehensive northwest tour they offer—ONE WAY via Denver, Scenic Colorado; ONE WAY via Rocky Mountain National (Estes) Park—with 700 miles of mountain panoramas, from Denver to the Yellowstone, and to Glacier Park, the climax of the Rockies' rugged grandeur; ONE WAY alongside the Big Horns and the Black Hills. This is truly a THREE-PARKS-ON-ONE-TRIANGLE TOUR. The new Denver-Casper main line makes possible this circuit tour that comprehends the east slope of the Continental Divide from Colorado to the British boundary.
