### A MEETING OF MEN INTERESTED IN FACTORY

HELD LAST NIGHT AT THE PUBLIC LIBRARY BUILDING IN THIS CITY.

### PLATTSMOUTH TO THE FRONT

Already Influence of This Proposed New Industry is Being Felt in Financial Circles.

From Tuesday's Daily. Last evening at the auditorium of the Public Library was held a meeting of the people who have become interested in the new Auto Power and Malleable Manufacturing company, which proposes to establish a large malleable and machine plant in Plattsmouth.

The plans of the company, together with the work mapped out ahead and the matter of profits that may be reasonably expected from investment in the enterprise was gone over carefully by those having the

matter in charge, and as a result of the conference nearly all of those present at the meeting doubted their stock holdings in the new company. This shows the faith of those closest in touch with the proposition in the paying qualities of the enterprise, and serves as a sort of barometer of the value of stock.

There is no one but feels the quickening of the pulse of the realty market by reason of the location of this enterprise in Plattsmouth. The land necessary for the buildings has all been secured with one single exception, that being the present home of the I. O. O. F. lodge, and that organization has a committee out now looking for a place. With this institution contemplating locating here and bringing such material benefits as it will to the town, the interest of every one in Plattsmouth should be centered on doing all possible to help secure the plant. And if we back that interest with money invested in stock in the new concern its success will be assured.

This is our war, and we must do what we can to win it. We must contribute to the Red Cross, to the Y. M. C. A. and invest in the purchase of stamps and bonds. But, also, there is a material side and out of our large financial accumulations that remain after these kindred matters connected with the war have been taken care of, we should get behind a move tending to develop this material prosperity, and especially when it is of such local nature as the present instance. There is no gainsaying the fact that we, as a nation, have prospered. Cass county and Plattsmouth have shared in this nation-wide prosperity and even at the present time our coffers are fill-

ed with uninvested dollars. Our people have made money and the rural and farming communities are rich to repletion. And now the question arises of whether we should lay back so to speak in the enjoyment of this wealth we have accumulated, assigning as a reason that the nation is at war. We believe not. Financial interests everywhere are more active today than ever before. And in the particular activity before us now, our money not only goes into an investment but into an enterprise that can and will do its part toward the winning of the war. The demand for such products as this contemplated factory will turn out is greater than ever before. Malleable and other foundry products are necessary to back up our boys "over there." It is up to us, and we are going to do our full share to help win the war. There will be days when the news will look black, but there is nothing surer than that the cause of right will prevail. We can help in kindred and divers ways and this is one of them. But, should we fail, our wealth will eke away in tributes to an undefeated enemy and we will realize no return from it. Better to invest it now to the end of keeping business going than to ease up and sit back in the enjoyment of it because this happens to be war times.

Now, here in Plattsmouth, we surely cannot expect the building of this new enterprise to bring us prosperity and to increase the value of our holdings, while sitting back and allowing someone else to do all the lifting. It takes a lot of capital to erect and place in operation an enterprise of such enormity as is contemplated, along with push on the part of everyone interested.

This city is expected to subscribe \$70,000 of the amount which is to be invested, that being less than 20 per cent of the total amount, which is \$450,000. And for every dollar we subscribe we receive in return stock in this enterprise.

We have an instance of how some of our people look at this proposition. A party who has a piece of property for which they were asking \$3,500, when the canvassers for the sale of stock went to them turned the proposition down, but when the Odd Fellows committee called upon them to purchase the property for a home, the price had been raised to \$7,000, or 100 per cent. The committee took the report to the lodge for its consideration but before the meeting was held the price was boosted another thousand dollars. Still no subscription had come to assist in securing the location of the enterprise here, which very fact contributed to the advancement of the price of the property in question from \$3,500 to \$8,000.

There is plenty of money in this city seeking investment, and those who have in hand the matter of erecting the new plant in Plattsmouth would like to have every one

who is interested in the development of the town make a trip to the present inadequate machine works to be merged into the new and larger institution and investigate what is being done there under handicap.

True, there was a Chopie engine factory here some time ago which had a somewhat stormy existence, but that enterprise is not to be compared with the institution planning to locate here now. Those who have read the issues of this paper lately will recall from time to time the progress that has been made by the present operating machine works and the extent it has contributed to the prosperity of the town by giving employment to skilled workmen at good wages.

Now, we are all interested in Plattsmouth and its success. It is desired that all who have a home here make a trip to the now operating plant and see what is being done with work ahead valued at more than \$200,000.00. A trip to this institution should be interesting and profitable to the people who have resided here day after day, month after month, and year after year throughout their lives, and yet who haven't much knowledge of the scope of this enterprise.

Do not take rumors and reports regarding the doings of this institution and possibly regarding the enlarged plant which is to eventually cover twenty-one lots of this city with busy machines and still busier workmen. The question is are they worth while to Plattsmouth, is the stock in this concern a good investment and is the patronage of the employees it would bring to town worth while. Come to the present operating machine plant and investigate for yourself. See what the institution here is turning out in the way of work and become acquainted with what the greater enterprise will do after they have gotten the plant built and equipped, with two and one-half acres of machinery in operation.

The following citizens of this city, have signified their intention to make the Auto Power and Malleable Manufacturing Company, and the city of Plattsmouth a sure thing for success, and who have placed their shoulder to the wheel, and their good money into the enterprise and have pinned their faith to the institution and this city, and will make it their object to push this matter, and to make this the biggest town on the map, with but few exceptions in this state are, the following:

- Henry Goos.
- Fred Wagner.
- W. A. Robertson.
- J. C. Peterson.

### DELIVERING TREES AT GREENWOOD

From Monday's Daily. Arthur A. Alexander departed this morning for Greenwood, where he goes to make deliveries of trees sold to the people in that neighborhood, and shipped from the nursery here. Heretofore the deliveries have been made by auto truck, to patrons in this county, but the roads since the recent rain, has made it more advisable to make shipment via the railroads.

You will always find the very best in stationery at the Journal office.

## WE BUY JUNK

OF ALL KINDS

and pay highest market price at all times. Bring in your rags, rubber, copper, brass, zinc, lead and iron. Turn that stuff into money, for you can use the money.

Main St. Opposite Perkins Hotel.  
Shop Phone 599.

### LEG BROKEN IN TWO PLACES.

From Tuesday's Daily. Yesterday afternoon while Otto Kruger and Harry Poissal were working on a steel car, in the Burlington shops, the jack slipped, which was supporting the portion of the car on which they were working, allowing a sheet of metal to slide upon Mr. Kruger, who was lying on the floor, under the car with his leg protruding.

The piece of steel, which is heavy on striking the foot, caused a fracture, of the foot below the ankle and of the leg just above the ankle. It was some time before the sheet of steel could be removed and the man extricated. The Burlington physician was called and in a car hurried to the scene of the accident, bringing the injured man to the office up town, where the injured limb was dressed and the fracture reduced.

The patient is greatly relieved from the pain, though still suffering greatly.

### BUYS THE SANDOW TRUCK.

From Monday's Daily. John Hobscheidt, jr., residing about nine miles south of Plattsmouth has placed one of those high grade Sandow trucks with his already excellent farm equipment. The auto truck has become an essential adjunct to the farm, and Mr. Hobscheidt has been able to see the greatest possibilities in the Sandow, and purchased one through the Plattsmouth Garage dealer, J. E. Mason, this week.

### PURCHASED AN AUTOMOBILE

From Monday's Daily. W. D. Wassell, the manager of the Cass County Monument company, of this place, has purchased a car for his personal and family use. Mr. Wassell made the purchase through the agency of the T. H. Pollock Auto company.

### REDUCED PRICES ON EGGS FOR HATCHING

## Here! You Write This Ad!

It isn't fair for us to do all the talking, and you the listening—so YOU write this ad—your ad!

### WANTED

—a suit of clothes-I can depend upon. I want one I can wear every day and be comfortable in. I'd like to wear it on special occasions and feel dressed up. Then it's got to have wear in it; it's got to fit; and it must be good looking and look right ON ME—that means I must have sensible service with the suit. I'll spend, say thirty dollars, and if you can show me what want at twenty-five, I'll gladly invest the rest in fixings—ties, shirts, collars and sox.

What have you to offer?

Y. YOURSELF.

Fair enough. Just step in, we'll show you a Clothcraft Suit at \$26.50 that fits that description. Also one at \$25 and another at \$22.50. They are guaranteed by the makers, and that out to mean a lot to you in times like these. As for the fixings, we have world of values in Shirts, Socks, Underwear and men's trimmings.

### HAS JOINED THE SERVICE

From Monday's Daily. G. E. Jones, who has been making his home at Trenton, was a visitor in this city for a few days, with his sister, Mrs. G. H. Clossen, and husband, before going to his home at Jerome, Idaho, where he wishes to visit with his mother previous to taking his departure to enter the service as an enlisted man in the U. S. Navy.

### A MEETING OF THE FARMERS.

There will be a meeting of the Farmers of Salt Creek Precinct at Greenwood, April 30th, Tuesday evening, at 8 o'clock to organize that precinct along the lines the farmers are interested. L. R. SNIPES, County Agricultural Agent, 4-24-17wklly-tfd Weeping, Water.

### FOR SALE.

25 head of good young horses. At broke. Can be seen at the Tom Tilson farm home. For particulars, see Vallery & Tilson. 2-18-d&w a25.

## Spring Suits and Coats!

Practical models that adhere to the dominant idea—simplicity, yet possess more distinction and attractiveness than in any previous season. One only needs to see the garments to realize their becomingness and superiority.

### The Suits---

In serge, poplin, etc.—present the charm of short coats and plain skirts with conservation fullness. Small colors with rolling notch revers predominate.

### NOTICE!

New styles this week on sale Thursday, Friday and Saturday below manufacturers cost. Don't fail to visit our suit and coat department this week.

### The Coats---

Having a graceful swing—the result of a wide sweep without flare. Some have a slightly fitted back. The waistline is often emphasized with belt effect. Collars are of the convertible and military types.

**The Ladies' Toggery,**  
FRED P. BUSCH, Manager
