### Letter From Walter Jenkins.

Mrs. Jennie Jenkins is in receipt of a couple of letters from her son Walter, who is now somewhere in France. One is under date of March 24th, and the other April 1st. He states that he has been in France for quite a little while, and like the country very well. He says that he has learned to speak a little French. Likes army life better every day, and is getting along fine. He speaks of greatly enjoying the trip at the various points in this country, also the trip across the water. He is at the present time employed in the cooking department, and speaks of having time to visit with some of the farmers of France, and says their way of farming is entirely different than at home. The French people are also so much different, but they are very kind to all Americans and are as willing to learn the English language, as he was to learn the French. In speaking of receiving the packages from home he says that he has everything that he wants, and the people at home need not send anything but letters in the future. They have plenty of everything but the love of the dear old home and long for letters from the folks back in the good old United States. This is about all the news he is permitted to convey, and with best regards to all the folks at home he gives his address as follows: Private Walter Jenkins, Headquarters Co. 161 Inf. A. E. F. Via New York, and you bet Walter will be pleased to hear from any of his old friends. Drop him a line it will be better than a square meal any old time.
