### MOTHER DIES AT OMAHA.

From Monday's Daily.  
Antone Klabinas, of this city departed this morning for Leigh, Nebraska, called there by the death of his mother, Mrs. Mary Klabinas, who died at a hospital at Omaha last Saturday after an operation there last Tuesday. Mrs. Mary Klabinas was well along in years and had been sick for some time. The husband, Antone Klabinas, sr., had died some five years since. The funeral will be at Leigh, to which the son here goes to attend.

### SELLS MANY CARS LAST WEEK.

From Monday's Daily.  
Business is pretty good in all lines, notwithstanding the war demands there is plenty of money to other things, during the last week the T. H. Pollock company sold and delivered cars to the following people: Will Howard, John B. Kaffenberger, Mary Becker, Ed. J. Dutz, C. L. Mayabb, John Neitzel jr., George Stander, Lawrence Iske and Tom J. Tilsen, all purchased touring cars, while Ralph J. Haynie purchased a touring car, and Thomas J. Will purchased a Sedan. This makes a good many cars when one thinks of the amount of cars there are in use now, and of all other things which money is demanded for, and shows that the people are confident that business is going to continue good.

### THE NON-PARTISAN LEAGUE OPERATIONS IN NEBRASKA

Alvo, Nebr., April 20, 1918. To the Editor:

The Non-partisan articles that are now published in our daily press sent from non-partisan league offices at St. Paul, signed "Non-partisan League" by W. W. Liggett, of St. Paul, trying to defend Townley, President of the League, and to cover up their disloyal work, and pluck Nebraska farmers of \$16.00 a piece should never be published in our daily papers.

They state that the farmers of North Dakota have lost money by a dockage system in their state; also that there are more cars of No. 1 wheat shipped from terminal elevators than received; that the terminal elevators buy wheat for No. 2 and ship it out for No. 1; the facts are wheat in Minnesota and in eastern Dakota where rain fall is normal bleaches in the shock and falls below the test required for No. 1 wheat. The terminal elevator and mills also buy wheat the same time from the dry region of the Dakotas and Montana that is hard and dry and tests more than is required for No. 1 wheat and by mixing they can get out a large per cent of No. 1 wheat. The same is true in Nebraska. The terminal elevator at Omaha or Kansas City buys our eastern Nebraska wheat where rain fall is normal and it comes from the shock testing 57 and 58 lbs. and grades No. 3. Our mills and elevators at the same time buy wheat from western Nebraska that is hard and dry, and tests from 60 to 63 lbs. By mixing the two and cleaning it they make it test 60 lbs. grades No. 1 and No. 2. This enables them to pay more and they do pay more for our wheat, and especially the low grades than they could if they had to grind each separately and be compelled to make a low grade of flour out of the low grade wheat. In a small way, we do the same thing at our country elevators. We mix what we get and grade it up. The difference in the dockage system, docking spring wheat in the north that is full of weed seeds by taking off 2 lbs. to the bushel for weed seeds or from 2 to 5 cents per bushel is nothing to the farmers. The net price received is just the same. We don't dock wheat in pounds at country elevators in Nebraska; it don't contain foul seed to any great extent like northern wheat. Our Kansas and Nebraska winter wheat covers the ground early and smother the weeds.

We are now under U. S. Government inspection at all markets in the United States, and have been since July, and there is not a word of truth in any of these non-partisan articles in regard to the grading of grain in either Nebraska or Dakota. Our grain is all graded at all terminal markets by disinterested government inspectors. Those non-partisan articles are all camouflage to cover up their tracks. They say they want to improve market conditions for wheat. Was it market conditions for wheat they were adjusting when they sent lobbyists to the special session of our legislature to kill the Sedition Bill and the Potash Bill? Was it to improve the market conditions for wheat when they got a member of the non-partisan league who was also a member of the legislature to rise in his seat, and offer free transportation to the entire legislature in automobiles (that would have cost hundreds of dollars) to a distant county to the town of Wahoo to attend a disloyal meeting that they hoped to hold in Wahoo, but were prohibited from so doing by the loyal people of Saunders County. (Only four member went and the leader fooled three of those into going by his deception.)

The Non-partisan league was the only party that fought the Sedition Bill, all other parties were loyal, and did not fear the Sedition Bill. The Non-partisan workers are composed of two classes, the officers and men like Evans and Wood paid agents, draw salaries and commissions. The other workers are retired farmers who are promised the office of Governor, United States Senator, etc., and are deceived into working for the league. Their craze for office makes them throw their loyalty to the winds. We thank the lord that there are only two prominent farmers of this class in the State of Nebraska.

During the Civil War, the northern branch of the Democratic party remained loyal; the Republican party was loyal, and in order to have a party to work with, southern spies and disloyal men in the north organized a Copper-head party called the Knights of the Golden Circle.

In the present war, the foreign spies know that the Democratic party would remain loyal; they knew the Republican party would be loyal, so in 1915, one year after the present war commenced, disloyal men and foreign spies floated the non-partisan league. In the wheat districts of the North Dakota, they organized the same kind of a party under a different name. In the wheat districts of

Argentine and also in Russia. They want to discourage the farmer in regard to raising wheat. They pretend to be the farmers friend, while the cold facts are they are the farmers deadliest enemy. What more evidence can the Nebraska farmers want against the non-partisan league. The United States Government officials investigated them and found them disloyal, and arrested their leaders, some of them are now out under bonds. The state officials of Minnesota investigated them and found them guilty. Townley, the president of the league, admitted at a hearing that he helped organize the peoples Council that Gov. Lowden of Illinois had to call out the troops to suppress. Our 11 members of the Council of Defense, in Nebraska, investigated them, and condemned them. The Farmers Union officers of Nebraska investigated their workings, and refused to endorse them. Mr. Shortbill, who is the head officer of a line of farmers elevators in Nebraska, condemns them. Judge Slama of Wahoo, one of the most patriotic men in this state, investigated them and found them guilty. They have two sources from which they may get money to operate with, the \$16.00 a head they pluck from Nebraska farmers, and what they may receive from foreign spies.

### LOUISVILLE HIGH SCHOOL BAND.

From Monday's Daily.  
The people of Plattsmouth and the management of the Red Cross Fair, should have a warm spot in their hearts for the High School band of Louisville, for their portion in the making of the fair a success. At their own expense they came down to Plattsmouth and played, the special numbers which everybody enjoyed and marched in the parade. All that was done to bear their expenses was that they were given their supper. They hired their transportation, and came with a good will and encouraging disposition. This looks good to us, in the matter of their work for the cause, it being unselfish, and showing they wanted to serve.

### FALLS AND BREAKS HIP.

From Monday's Daily.  
Yesterday morning while L. H. Kearnes was out on the back porch of his home on north Eighth street, he slipped and fell, breaking his hip bone, which added to the matter of his having been very sick before making his condition very grave. Mr. Kearnes whose health has not been good for some time has been very patient in his suffering and has born the pain of his sickness heroically, but this added suffering will make it even more difficult to bear.

### PLAYED GOOD BALL YESTERDAY

From Monday's Daily.  
Charles Gradoville at the game yesterday played good ball, in the position of catcher. We have had a good catcher heretofore in Mr. Herold, but he said with the limited number of players, it would be necessary to take some other place, and asked Mr. Gradoville to take his place as catcher. Charlie made some extra good plays, and no one was disappointed in his work.

### THEY HAVE ALL TAKEN THE FIFTY

From Monday's Daily.  
The committee who have the matter in charge in the precinct of securing the subscription for the bonds and who are now asking for the fifty dollar ones on time, as per the proposition of the president, have all taken one on this same proposition, they are: John F. Wehrlein, Will Rummell, Joseph J. Johnson, Albert A. Wetencamp, George W. Snyder, B. W. Livingston, Ralph J. Haynie and Luke L. Wiles. This

proposition which is meeting with ready response all over the country is going to bring a large amount of money into the fund, and we all know it is needed bad enough. The boys are doing their part over there, let us get after our's here. This matter of five dollars per month is what most any of us can do. The president has asked for one million, to take home of this matter, will you be one of the number.

This will make \$50,000,000.00 but then that will be taken and more to We should take five times that amount and not feel it. But the government will be sustained by it. We have to sacrifice in order to accomplish anything. We have a man's size job on our hands let us go after it like men. We are going to win this war, and come let us do it now, no use to put it off until next summer.

### COMPLETED THE PLASTERING

The workmen who have been engaged in the plastering of the T. H. Pollock Auto Co., new building have completed their work, and today departed for their home in Omaha. This building which is now nearing completion is one of the substantial achievements of the year 1917 and 1918, and which is adding to the betterment of the business conditions of the city. The gentlemen Messrs. C. Dow and H. C. Baker who did the work of plastering were surely experts at the business, and have done an excellent piece of work.

## Brighten Up

This Slogan "Brighten-Up" applies to everything and everybody. This is the time of the year to smile and to make other people smile. Nature herself is smiling and she was the one who originally discovered the Brighten-Up idea. The Sherwin-Williams Company came second.

### SHERWIN-WILLIAMS PAINTS AND VARNISHES

## A Serious Condition in Overalls!

There is no doubt about this, and it isn't a question of price that confronts every merchant, but a question of where can I buy. You see any reason for this? Yes, there is. One manufacturer with whom we placed our orders advised he would be able to ship just 50%—due to the government having placed orders for five million yards of denims with the mills from whom we bought supplies. In spite of this shortage we offer you for your immediate purchase:—

Genuine Steifel Indigo Stripe Overalls.....\$1.75  
" " " " " Jackets..... 1.75  
" Indigo (plain blue) Overalls..... 2.00  
" " " " " Jackets..... 2.00  
Heavy Express Stripe Overalls..... 2.00  
Kiki Unionalls..... 2.50

This is honest dope, and your loss if you don't get on while the get'ins good.
