Catarrhal Deafness Cannot Be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is languaged you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of dasfness are crused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Medicine acts thru the blood on the mucous surfaces of the system. > The recorded savings of Mr. Wilson show him to be a man of humor as well as a man of serious occupation. It is said that he has even written limericks in days gone by, and he has not denied it. Here is one that is being quoted frequently nowadays and which is attributed to the president:

'As a beauty I'm no star,

But my face I don't mind it,

Because I'm behind it!

The president today has no time for such frivolties, but never-theless, the same strain of Scotch humor which produced that limerick is still within him, and it is a good thing for all of us to know that men great in ability are not too great to have a sense human appreciation and a taste for homely thoughts .- Lincoln Star.
