SCHOOL TEACHER WEDS THE PRINCIPAL

AND NOW THE BOARD AT DANNEBROG MUST HUNT ANOTHER TO TEACH

MARRIED AT ST. PAUL, NEBR.

Miss Mabel Adams, Former H. S. Graduate Here, United to Prof. P. E. Browne

From Tuesday's Daily.

Last Wednesday, at the home of Mr. and Mrs. L. A. Warren, of St. Paul, this state, occurred the wedding of Miss Mabel Adams, formerly of this city and Professor P. E. Browne of the Dannebrog schools, which is but the culmination of a friendship that sprang up between these two pedagogical workers as their work in the same school tended to throw them together and which friendship ripened into love. The ceremony was performed by the Rev. A. Adams, of Omaha.

The bride, who is a graduate of the Plattsmouth high schools, was born just south of this city and has a host of friends here and in the surrounding vicinity as well as at the place where she has taught for the past few years. Prof. Browne has been principal of the Dannebrog schools for the past five years and has been selected for the coming year. The school board will have to get someone to supply the place of Miss Adams, for as "Mrs. Browne" she will devote her time in looking after the household instead of the school house. The bridal party arrived in Plattsmouth last evening, via auto, to visit with the bride's parents, W. T. Adams and wife, and other friends and will visit for some couple of weeks, after which they will return to their home at Dannebrog, going by way of Fremont to visit old friends for a short time.

The Journal joins their many friends in extending congratulations and best wishes, together with the hope that their life may be one of prosperity, happiness and success, and that their most ardent aims in life may be attained.

IS NOW WITH THE ARMY

From Tuesday's Daily.

Horace B. Ruffner, who was mentioned in these columns some days ago as having enlisted in the army for service as a gunsmith and departed for Augusta, Georgia, is now there and busy with the thickest of work in this line. Horace is well equipped for the work in hand, having had extensive experience as a member of the Townsend Gun Club, and as well as being an expert gunsmith, he is also an excellent shot, being counted one of the crack shots of the club at Omaha. Horace was born in this city and grew almost to manhood's estate here. He will make good in the position in which he is placed as he has made good in all others which he has occupied. He was for some time deputy game warden for this portion of Nebraska.

FRED G. DAWSON WRITES.

From Tuesday's Daily.

Dear Journal,
I was just reading of the Plattsmouth Rifle Range, so think you may be interested in the Camp Logan, Ill., Rifle Range, where I have been learning to shoot for three weeks. It is the finest in the U. S. with concrete barracks, a permanent hospital, electric pump supplying plenty of pure water, lights etc. Covers

about 900 acres, has its own station on C. N. W. R. R., has telephone and lights for night firing.

The navy uses Type B. Target 6x6 feet with a 20 unit bulls eye, these go up one at a time or all together for rapid firing each ring is 9 inches wide. There are also a 1,000 yard range for machine guns, its 76 targets going up half at a time or all together. When all go together there sure is some powder burnt, it costs about \$25 a minute.

The very best thing about this army and navy work is the Y. M. C. A. war work. They sure do care for the moral and spiritual as well as bodies of the boys, some who were nothing but booze fighters when they first came are on the right track. I am sure you will see a great improvement in morality after the war by reason of the Y. M. C. A.

SPENDING FURLOUGH HERE.

From Tuesday's Daily.

James Persinger who has been in the navy for the past seven months arrived here Sunday evening from New York, where he was given a furlough from the "Pennsylvania" and will have some ten days here. He was accompanied by his friends in the service J. B. White, whose home is in Lincoln, and who is spending his furlough partly here and partly at Lincoln. The boys are meeting and having an excellent time with their friends here. Mr. White has a money purse or bag, on exhibition in the west window of the Weyrich and Hadraba store, which is truly a work of art, and with an invitation for the girls to get busy and learn how to do. On each side of it a one pounder shell, which all who so desire should see, and when they are spoken of in the narration of the incidents of a battle one will understand what is described.

On Sunday June 2nd, our Col. M. A. Bates, passed his seventy-sixth milestone in life's journey, and received the congratulations and recognition of his friends, who extended felicitations, of the event, and wished that many more of a like character should be his. During the past fifty-six years Col. M. A. Bates has been engaged in the newspaper business, and on his birthday notwithstanding it was Sunday, found him doing about four hours of work in the editorial chair. During this time he has always been found fighting on the side of justice and right. Before entering the newspaper field, he was a member of the Union army fighting for equality before the law, going at first as a drummer boy. In his riper years now he is still upholding the banner of the Republic, and will do battle for its sacred principles.

JOURNAL COMPELLED TO INCREASE PRICES

A THING WE HAVE BEEN FIGHTING AGAINST FOR MORE THAN A YEAR.

AN EARLY WAGE RATE INCREASE

Also Increased Cost of Paper and All Supplies Make it Absolutely Necessary, to Continue

From Wednesday's Daily.

For the past year or more the Journal has been fighting against the proposition of increasing rates; we have stood the high cost of living all along the line, paid from double to three times as much for our print paper; everything used in the printing line has doubled in price, still we have continued doing business at the same old schedule of prices. Most of the papers over the state increased their prices long ago, but we were hopeful of being able to continue the fight against great odds until a better condition might come about in the paper market, but such condition has proved as elusive as the rainbow in the fairy tale and today the condition, instead of being better is worse.

We expect to make a substantial increase in the salaries of our help, commensurate with the good scale of wages it has been the policy of the Journal to pay in the past, and in keeping with the increase of our new schedule of prices. This must be done in order that our employees may successfully battle against the present high cost of living.

From and after the 15th of June the price of the Evening Journal will be advanced to 15 cents per week. This increase will not be felt by any one of our readers, but taking the list over the city as a whole the advance will greatly assist us in meeting the added expense.

The Semi-Weekly edition of the Journal will be advanced from \$1.50 per year to \$2.00. This is one branch of the business that we feel sure many of our readers have expected to see advance in price some time ago, as many of our former friends and patrons have called to renew their subscription from time to time and expressed surprise that they were not compelled to pay 50 cents more a year for the Semi-weekly Journal. So we feel that the advance in this branch will meet with the approval of every one of our readers.

The new rate on the Semi-weekly will become effective on and after the first day of July, but all renewals will be accepted up to that time at the same old price.

We trust that our readers will realize that this change in prices is forced upon us in order to remain in business, and will continue to give us their loyal support in the future as they have in the past.

TWO MORE CALLS ARE MADE.

From Wednesday's Daily.

The local board have today received two additional calls for men, being calls numbers 658 and 674 each for 31 men, making for the two 62 men, and with the one which has been here since yesterday for 14, making 76 in all, and a call for limited service, of about twenty, which is nearing up close to the hundred mark. This will be well along towards if not quite the end of the list of the class one which were registered a year ago. Nothing has been received at the office of the local board, as to what the men are for, to where they are to go or when, but when this information has been received it will be forwarded.

Chronic Constipation.

Perhaps you have never thought of it, but this disorder is due to a lack of moisture in the residual matter of the food. If you will drink an abundance of water, eat raw fruits and take lots of outdoor exercise, you may be able eventually to overcome it entirely. In the meantime use the most mild and gentle laxatives. Strong and harsh cathartics take too much water out of the system and make a bad matter worse. Chamberlain's Tablets are easy and pleasant to take, and most agreeable in effect. Give them a trial.

There is still plenty of land in Chase county for the thrifty farmer and they are all doing fine. Crops were never better at this time of the year. Go and see for yourself. Rosencrans will make another trip west next Sunday evening, so prepare to go with him. It will pay you to look this country over. 29-2td

The talent will be furnished by the same company that was here last year and they promise us an unusually good program. Their efforts here last year met with success and disproved the theory that Plattsmouth might not take to the Chautauqua. Keep in mind the matter and watch for advertising matter to appear soon setting forth the features of this course and telling of the different attractions.

An announcement that will be greeted with pleasure is that made by the Chautauqua people to the effect that they will leave their large tent stand in Plattsmouth over the Fourth of July, where it may be used by citizens here for the holding of a patriotic program.

Keep in mind the dates—June 28 to July 3rd, inclusive.

The Doctor Away From Home When Most Needed.

People are often very much disappointed to find that their family physician is away from home when they most need his services. Diseases like pain in the stomach and bowels, colic and diarrhoea require prompt treatment, and have in many instances proven fatal before medicine could be procured or a physician summoned. The right way is to keep at hand a bottle of Chamberlain's Colic and Diarrhoea Remedy. No physician can prescribe a better medicine for these diseases. By having it in the house you escape much pain and suffering and all risk. Buy it now; it may save life.

Bert Thomas was a passenger to Pacific Junction today, where he is looking after some business.
