Mrs. Brendel reports that her mother known here as Grandma Parr of Ind., has knitted fifty pairs of socks during the past few months and Mrs. Spangler's mother, Mrs. Perry of Mynard has made thirty-four pairs of socks and three sweaters. The attendance of drill Tuesday evening was the largest for some time. The officers now have their commission and under the new ruling of the War Department, we will get some equipment from the state and with the amount allowed us by the county will be pretty well equipped.

Every member should attend drill at least once each week in order that we may be ready when our arms and uniforms arrive.

The merchants have agreed to close the stores each Tuesday evening at 8:30, so they may drill with us. This may mean some loss of business for them, but as they are willing to do this we hope their customers will be patriotic enough to do their trading early on Tuesday evenings. The Home Guard will appreciate your co-operation in this matter.

Next Lord's Day, June 9, is to be a big day for the Christian church in Murray. In the morning at ten o'clock sharp, we are going to organize a strictly young men's class in the bible school, to be taught by the pastor. At eleven o'clock a section is to be reserved for every young man in the community. The morning subject will be "Christ as a Young Man, or True Ideals." The entire morning service is for young men, so tell them about it, and boost by coming, bringing and sending all you can. Our Children's Day program will be given in the evening and will take the place of the regular preaching service. A good program is assured and everyone is working hard and faithfully, so the program will be given well.

We want a full house at each of these services, and a hearty invitation is extended to all. Come to the church that has a message and a welcome for all.

C. E. HANNAN, Pastor.

United Presbyterian Church.
Next Sabbath, which will be Children's Day, the Sabbath School and the morning church service will be combined. The Sabbath School will meet at the usual hour, ten o'clock, and after a short session of the school program for the day will be carried out. In this the children will have a large part. There will be good music in which the choir will lead. The pastor will not preach, but near the close of the program will have a brief message to the children. As the program will begin before eleven o'clock it will be well that those not in the classes be there by half past ten. A full attendance both of children and adults is expected and desired at this service.

In the evening the pastor will preach. The church is now fully equipped for electrical lighting, and there should be a good evening audience. Every one is invited to these services both of the morning and evening. Congregational prayer meeting is held in the church each Wednesday evening.

Communion services will be held in this church June 30th, at which time the pastor expects the assistance of his son, Rev. W. M. Jackson of Topeka, Kan.

Our Service

And What It Means to You

You Appreciate Economy You Get It Here

THE ONLY REAL ECONOMY—ECONOMY THAT "PROVES OUT"

There are two kinds of economy in buying farm implements.

One is seeming economy; the other is real economy.

One looks mainly to first cost; the other looks mainly to final results.

One makes you think you have practiced buying economy when you pay the first cost of an implement; the other makes you know you practiced buying economy when you count the profits that the use of an implement has paid you.

One is usually false economy; the other is always the kind of economy that pays.

We offer you the real economy in buying—the kind that is safe—the kind that pays.

The implements we sell carry a trade-mark that is firmly

established, wherever farm implements are used, as an assurance of special quality. Their general use is due alone to the fact that farmers everywhere find real economy in using them. Their success is based entirely on the better results they give in actual use.

Our service puts you in the closest possible touch with these better implements. We keep a stock of them right here close to your farm, where you can investigate each implement thoroughly before you buy—where you can get what you want when you want it.

You don't take a chance when you take a buying trip to our store.

You take the straight road to real implement economy.

Come in and see for yourself. We invite your patronage.
