A NEW INDUSTRY.

E. W. Backstrom Shop to Engage in Exclusive Painting of Automobiles.

From Thursday's Daily. An important change is now taking place in one Scottsbluff concerns which, when completed, will mean the addition of an entirely new industry to this city. E. W. Backstrom is closing out his line of house paints, varnishes, floor varnishes, wall paper, and kindred lines as a preparatory "house cleaning," in order that he may install an entirely new branch, which is the painting, varnishing and finishing of automobiles.

The entire Backstrom plant will hereafter be devoted to this branch of industry, two solicitors now being on the road and the prospects most excellent for a speedy and thriving business in this line. Two expert finishers and strippers from the east have been employed and are expected to arrive in this city this week, who will have charge of the more difficult portions of this work. There is no question but that this portion of the west has long needed an institution of this kind devoted exclusively to this class of work, and the patronage of the Backstrom shop will assuredly be a steadily growing one.—Scotts Bluffs Exchange.

The Backstroms were former residents of this city and their many friends will be pleased to hear of their success.

COURT REPORTER TRAVIS IS NOW ATTORNEY TRAVIS

From Thursday's Daily.

A few days ago Court Reporter Earl R. Travis departed for Lincoln, where he appeared before the bar association, taking an examination for admission to the bar, and after having passed the most searching examination, he was admitted to practice in the courts of Nebraska. Mr. Travis is the son of the late Judge H. D. Travis, who was an eminent practitioner and we can not see any reason why his son should not make a good attorney as well. We had in mind that he was well enough versed in law to have been admitted to the bar some time ago, and have wondered why he did not make application therefor, but supposed that his duties as reporter of the court were so occupying his attention that he could not find time to look after arranging to take the examination.

Here's to you, Attorney E. R. Travis; may you have the success which we are sure your knowledge and ability merits.

**A Company of Artists on Chautauqua Program**

Full Program Afternoon of the Second Day. Short Concert in the Evening

The Rees Concert company consists of Mae and Gertrude Rees, daughters of the talented musician, John Rees, of Nebraska, and Beatrice Langvin, four years a student of New York's famous teachers, who has a beautiful mezzo soprano voice, and Willa Given, cellist. Chautauqua audiences are demanding the best. This demand of the public is responsible for a new musical ideal that calls for the music of the masters, presented with the color, which makes it sing into the hearts of the people. The popular audience resents music given for the purpose of demonstrating technical ability. It welcomes the real, vibrating music of the great composers. This is what the Rees Concert Company will do. Their programs are for the people.

Will appear at the Plattsouth Chautauqua,
